NEW YORK, Aug. 15, 2024 (GLOBE NEWSWIRE) -- [ABM \(NYSE:ABM\)](https://www.abm.com), a leading provider of integrated facility services, infrastructure solutions, and parking management, is pleased to announce it has recently been awarded a NASPO ValuePoint® contract for electric vehicle (EV) charging infrastructure. This important contract authorizes ABM to offer its industry-leading, single-source EV charging infrastructure solutions to state and local government and educational entities across the nation more efficiently and cost-effectively.

"We're honored to be awarded a NASPO ValuePoint® contract which recognizes our growing position and leading technology in the evolving EV

landscape,” stated Mark Hawkinson, ABM's President of Technical Solutions. “We believe our ability to now offer state and local government and educational institutions nationwide access to our single-source turnkey EV infrastructure solutions will help drive EV adoption rates while at the same time providing these governments and organizations cost-effectiveness, sustainability, and reliability.”

With over 30,000 EV ports installed nationwide, ABM serves as a leading single-source solution provider for the eMobility, power resiliency, and electrification sectors. ABM is a strategic partner for facility operators across the U.S., including ecommerce, logistics, car rental fleets, auto dealers, retailers, airports, universities, and municipalities – providing complete end-to-end services such as plan design, equipment installation, cloud-based network connectivity, monitoring, maintenance, upgrades, and power storage and resiliency.

State and local governments, public entities including educational facilities, and some non-profit organizations, can now leverage ABM's expansive EV solutions portfolio via the NASPO ValuePoint cooperative contract to address the growing need for reliability and accessibility related to EV charging and infrastructure. ABM is committed to providing innovative and reliable single-sourced turnkey solutions designed to meet the complex demands of public sector clients.

The NASPO ValuePoint cooperative purchasing program streamlines the procurement process for participating governmental agencies, ensuring they receive the highest quality products and services at the most competitive prices. The cooperative is highly regarded for its rigorous vendor selection process, focusing on quality, value, and compliance with stringent security and data protection standards.
