

ABM Expands Charger Portfolio with Samsung C&T Charging Solutions Partnership

September 24, 2024

NEW YORK, Sept. 24, 2024 (GLOBE NEWSWIRE) -- [ABM \(NYSE: ABM\)](#), a leading provider of integrated facility services, infrastructure solutions, and parking management, today announced a distributorship agreement with [Samsung C&T](#) Charging Solutions, making ABM an authorized distributor and servicer of EVSIS-branded DC Fast Chargers. Samsung C&T Charging Solutions is an equity partner of the Korean DC Fast Chargers manufacturer EVSIS, which is entering the United States market.

The EVSIS chargers are versatile and high-quality, with best-in-class technology that integrates seamlessly with the cloud-based [ABM EV OS](#) platform – enabling for scalable expansion, intelligent monitoring, remote operation management, comprehensive reporting, and automatic infrastructure diagnostics. Through this partnership, all EVSIS chargers will be offered and serviced alongside ABM's current charger portfolio.

"As EV charging technology continues to evolve at a rapid pace, we're thrilled to be partnering with Samsung C&T Charging Solutions, an innovation leader and major player throughout the eMobility infrastructure industry," said Mark Hawkinson, President of ABM's Technical Solutions segment. "Moreover, this important partnership reflects our growing relationship with Samsung, which spans our Technical Solutions and Manufacturing & Distribution segments."

"ABM is one of the leading EV and energy infrastructure providers in the United States, making them a natural partner for the next evolution for Samsung C&T Charging Solutions," said Jesse Kim, Director at Samsung C&T Charging Solutions. "We're looking forward to introducing EVSIS's line of DC fast chargers into the United States market with ABM as our distribution and service partner."
