ITEM 1. BUSINESS

Introduction

ABM Industries Incorporated ("ABM"), through its subsidiaries (collectively, the "Company"), is a leading provider of facility services in the United States. With 2010 revenues of approximately \$3.5 billion, the Company provides janitorial, parking, security and engineering services for thousands of commercial, industrial, institutional, governmental and retail client facilities in hundreds of cities, primarily throughout the United States. The Company employed approximately 96,000 employees at October 31, 2010, the vast majority of whom are service employees.

The Company was reincorporated in Delaware on March 19, 1985, as the successor to a business founded in California in 1909. The Company's corporate headquarters are located at 551 Fifth Avenue, Suite 300, New York, New York 10176. The telephone number is (212) 297-0200. The Company's website is www.abm.com. Through the "SEC Filings" link on the Investor Relations section of the Company's website, the following filings and amendments to those filings are made available free of charge, as soon as reasonably practicable after they are electronically filed with or furnished to the SEC: (1) Annual Reports on Form 10-K, (2) Quarterly Reports on Form 10-Q, (3) Current Reports on Form 8-K, (4) Proxy Statements, and (5) filings by the Company's directors and executive officers under Section 16(a) of the Securities Exchange Act of 1934. Information contained on the Company's website shall not be deemed incorporated into, or to be a part of, this Annual Report on Form 10-K.

Acquisitions

On December 1, 2010, the Company acquired The Linc Group, LLC ("Linc") pursuant to an Agreement and Plan of Merger, dated as of December 1, 2010 (the "Merger Agreement"), by and among ABM, Linc, GI Manager LP, as the Members Representative, and Lightning Services, LLC, a wholly-owned subsidiary of ABM ("Merger Sub"). Pursuant to the Merger Agreement, Merger Sub merged with and into Linc, and Linc continued as the surviving corporation and as a wholly owned subsidiary of ABM. The aggregate purchase price for all of the outstanding limited liability company interests of Linc was approximately \$301.0 million, subject to certain adjustments as set forth in the Merger Agreement. With annual revenues of approximately \$579 million and approximately 3,000 employees, Linc provides end-to-end integrated facilities management services that improve operating efficiencies, reduce energy consumption and lower overall operational costs for more than 25,000 facilities in the government, commercial and residential markets throughout the United States and select international markets. The operations of Linc will be included in the Engineering segment as of the acquisition date. Except where specifically indicated, the information contained in the Annual Report on Form 10-K does not include information related to Linc.

On October 1, 2010, the Company acquired select assets of Five Star Parking, Network Parking Company Ltd., and System Parking, Inc. ("L&R") from the L&R Group of Companies for an aggregate purchase price of \$34.7 million, including \$0.2 million of assets distributed as consideration. The Company incurred \$0.4 million of direct acquisition costs, which were expensed as incurred. L&R employs approximately 2,500 people and services more than 450 client accounts across the United States. The acquisition extends and expands the Company's parking business in major cities. The acquisition also expands the Company's presence at airports. The results of operations of L&R are included in the Company's Parking segment as of the acquisition date. The amounts of L&R revenues and operating profit included in the Company's consolidated statements of income for fiscal year 2010 were \$14.9 million and \$0.4 million, respectively.

On June 30, 2010, the Company acquired all of the outstanding shares of Diversco, Inc. ("Diversco") from DHI Holdings, Inc. for \$30.6 million in cash and incurred direct acquisition costs of \$0.2 million, which were expensed as incurred. The purchase price was subsequently adjusted to \$30.4 million in connection with a working capital adjustment. Diversco is a national provider of outsourced facility services. The acquisition expands the geographic reach of the Company's janitorial and security businesses, particularly in the Southeast, Midwest and Mid-Atlantic regions of the United States. The results of operations of Diversco are included in the Company's Janitorial and Security segments as of the acquisition date. The amounts of Diversco's revenues and operating profit included in the Company's consolidated statements of income for fiscal year 2010 were \$28.1 million and \$1.2 million, respectively.

Segment Information

The Company conducts business through a number of subsidiaries that are grouped into four segments based on the nature of their business operations. At October 31, 2010, the four reportable operating segments were:

- Janitorial
- Parking
- Security
- Engineering

The business activities of the Company by reportable operating segment are more fully described below.

n **Janitorial.** Certain of the Company's subsidiaries provide a wide range of essential janitorial services for clients, primarily throughout the United States, in a variety of facilities, including commercial office buildings, industrial buildings, retail stores, shopping centers, warehouses, airport terminals, health facilities, educational institutions, stadiums and arenas, and government buildings. These services include floor cleaning and finishing, window washing, furniture polishing, carpet cleaning and dusting, and other building cleaning services. The Company's Janitorial subsidiaries operate in all 50 states under thousands of individually negotiated building maintenance contracts, most of which are obtained by competitive bidding. These arrangements include "fixed price" agreements, "cost-plus" agreements and "tag" (extra service) work. Fixed price arrangements are contracts in which the client agrees to pay a fixed fee every month over a specified contract term. A variation of a fixed price arrangement is a square-foot arrangement, under which monthly billings are fixed based on the actual square footage serviced. Cost-plus arrangements are agreements in which the clients reimburse the Company for the agreed-upon amount of wages and benefits, payroll taxes, insurance charges and other expenses associated with the contracted work, plus a profit percentage. Tag work generally represents supplemental services requested by clients outside of the standard contract terms. Examples are cleanup after tenant moves, construction cleanup and snow removal. Tag work generally produces higher margins. Profit margins on contracts tend to be inversely proportional to the size of the contract, as large-scale contracts tend to be more competitively priced than small or standalone agreements. The majority of the Janitorial segment's contracts are for one to three year periods and contain automatic renewal clauses, but are subject to termination by either party after 30 to 90 days' written notice.

n **Parking.** Certain of the Company's subsidiaries provide parking and transportation services in 38 states and the District of Columbia through 32 offices. The Company operates parking lots and garages at many facilities, including office buildings, hotels, medical centers, retail centers, sports and entertainment arenas, educational institutions, municipalities, and airports. Nearly all contracts are obtained by competitive bidding. There are three types of arrangements for parking services: managed locations, leased locations, and allowance locations. Under the managed arrangements, the Company manages the underlying parking facility for the owner in exchange for a management fee. Contract terms for managed arrangements are generally from one to three years, can usually be terminated upon 30 days' notice and may also contain renewal clauses. The Company passes through revenues and expenses from managed locations to the facility owner under the terms and conditions of the contract. Under leased location arrangements, the Company leases parking facilities from the owner and is responsible for a majority of the operating expenses incurred. Under these arrangements, the Company retains all revenues from monthly and transient parkers and pays rent to the owner per the terms and conditions of the lease. The lease terms generally range from one to five years and provide for payment of a fixed amount of rent plus a percentage of revenues. The leases usually contain renewal options and may be terminated by the owner for various reasons, including development of the real estate. Leases that expire may continue on a month-to-month basis. Under allowance arrangements, the Company is paid a fixed or hourly fee to provide parking services and is then responsible for the agreed-upon operating expenses based upon the agreement terms. Allowance contract terms are generally from one to three years, can usually be terminated upon 30 days' notice and may also contain renewal clauses. The Company continues to improve parking operations through the increased use of technology, including: enhancements to the proprietary revenue control software, SCORE⁴; implementation of the Company's client access software, ABM4WD.com; and on-line payment software.

n **Security.** Certain of the Company's subsidiaries provide security services to a wide range of businesses. The Company's Security subsidiaries operate in 37 states and the District of Columbia through 48 offices. Security services include: staffing of security officers, mobile patrol services, and investigative services; electronic monitoring of fire, life safety systems and access control devices; and security consulting services. Clients

served include Class "A" high rise, commercial, industrial, retail, medical, petro-chemical, and residential facilities. Security Staffing, or "Guarding," is the provision of dedicated security officers to a client facility. This component is the core of the security business and represents the largest portion of its revenues. Mobile patrol is the use of roving security officers in vehicles that serve multiple locations and clients across a pre-defined geographic area. Investigative services includes white collar crime investigation, undercover operations and background screening services. Electronic monitoring is primarily achieved through the subsidiary's partnership with a major systems integrator. The revenues for Security are generally based on actual hours of service at contractually specified rates. In some cases, flat monthly billing or single rate billing is used, especially in the case of mobile patrol and investigative services. The majority of Security contracts are for one year periods and generally contain automatic renewal clauses, but are subject to termination by either party after 30 to 90 days' written notice. Nearly all Security contracts are obtained by competitive bidding. The Company has benefited from the implementation of AuditMatic® reporting and incident tracking software and various technology offerings, and was awarded SAFETY Act Certification from The U.S. Department of Homeland Security in 2008.

n Engineering. Certain of the Company's subsidiaries provide client facilities with on-site engineers to operate and maintain mechanical, electrical and plumbing systems utilizing, in part, computerized maintenance management systems. The Company's Engineering subsidiaries operate in 36 states and the District of Columbia through 9 branches and maintain national ISO 9000 Certification ("ISO"). ISO is a family of standards for quality management comprising a rigorous set of guidelines and good business practices against which companies are evaluated through a comprehensive independent audit process. Certain of the Company's Engineering services are designed to maintain equipment at optimal efficiency for client locations, including high-rise office buildings, schools, computer centers, shopping malls, manufacturing facilities, museums and universities. The Company's Engineering services also provide clients with streamlined, centralized control and coordination of multiple facility service needs. This approach offers the efficiencies, service and cost benefits expected in the highly-competitive market for outsourced business services. By leveraging the core competencies of other service offerings, the Company attempts to reduce overhead (such as redundant personnel) for the Company's clients by providing multiple services under a single contract, with one contact and one invoice. The Company's National Service Call Center provides centralized dispatching, emergency services, accounting and related reports to financial institutions, high-tech companies and other clients regardless of industry or size. The Company's Engineering services also include energy management services that provide comprehensive, cost-efficient solutions to help curb rising utility costs within a facility, reduce energy consumption, and minimize the carbon footprint of a facility. Investments made by clients in energy efficiency solutions are typically recouped through reduced energy costs over a period of time. The majority of the Engineering segment's contracts are cost-plus arrangements in which the clients reimburse the Company for the agreed-upon amount of wages and benefits, payroll taxes, insurance charges and other expenses associated with the contracted work, plus a profit percentage. The majority of the Company's Engineering contracts are for three-year periods and may contain renewal clauses, but are subject to termination by either party after 30 to 90 days' written notice. Nearly all Engineering contracts are obtained by competitive bidding.

See Note 14 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplemental Data," for the operating results of the reportable operating segments.

Trademarks

The Company believes that it owns or is licensed to use all corporate names, trade names, trademarks, service marks, copyrights, patents and trade secrets that are material to the Company's operations.

Competition

The Company believes that each aspect of its business is highly competitive and that such competition is based primarily on price and quality of service. The Company provides nearly all its services under contracts originally obtained through competitive bidding. The low cost of entry in the facility services business results in a very competitive market, and the Company experiences competition from a large number of mostly regional and local owner-operated companies, primarily located in major cities throughout the United States. The Company also competes on a national basis with the operating divisions of a few large, diversified facility services and manufacturing companies. Indirectly, the Company competes with building owners and tenants that can perform one or more of the Company's services

internally. Furthermore, competitors may have lower costs because privately-owned companies operating in a limited geographic area may have significantly lower labor and overhead costs. These strong competitive pressures could inhibit the Company's success in bidding for profitable business and its ability to increase prices as costs rise, thereby reducing margins.

Sales and Marketing

The Company's sales and marketing efforts are conducted by its corporate, subsidiary, regional, branch and district offices. Sales, marketing, management and operations personnel in each of these offices participate directly in selling and servicing clients. The broad geographic scope of these offices enables the Company to provide a full range of facility services through intercompany sales referrals, multi-service "bundled" sales and national account sales.

The Company has a broad client base in a variety of facilities, including, but not limited to, commercial office buildings, industrial buildings, retail stores, shopping centers, warehouses, airports, health facilities, educational institutions, stadiums and arenas, and government buildings. No client accounted for more than 5% of the Company's consolidated revenues during 2010, 2009 or 2008.

Employees

As of October 31, 2010, the Company employed approximately 96,000 employees. Over 40,000 of these employees are covered under collective bargaining agreements. Approximately 5,700 of the Company's employees have executive, managerial, supervisory, administrative, professional, sales, marketing, office, or clerical responsibilities.

Environmental Matters

The Company's operations are subject to various federal, state and/or local laws regulating the discharge of materials into the environment or otherwise relating to the protection of the environment, such as discharge into soil, water and air, and the generation, handling, storage, transportation and disposal of waste and hazardous substances. These laws generally have the effect of increasing costs and potential liabilities associated with the conduct of the Company's operations. In addition, from time to time the Company is involved in environmental matters at certain of its locations or in connection with its operations. Historically, the cost of complying with environmental laws or resolving environmental issues relating to United States locations or operations has not had a material adverse effect on the Company's financial position, results of operations or cash flows. The Company does not believe that the resolution of known matters at this time will be material.

ITEM 1A. RISK FACTORS

Risks Relating to our Operations

Risks relating to our acquisition of Linc and our acquisition strategy may adversely impact our results of operations. On December 1, 2010, we acquired Linc, a global provider of technical building services that has significant domestic and international operations. The Linc acquisition effectively increased the Company's engineering segment by approximately 165% when measured by revenues. Realization of the anticipated benefits of the acquisition will depend, among other things, upon our ability to timely integrate the Linc business successfully with our operations and to achieve the anticipated savings associated with reductions in offices, staffing and other costs. There can be no assurance that the acquisition of Linc or any acquisition that we make in the future will provide the benefits that were anticipated when entering into the transaction. The process of integrating an acquired business may create unforeseen difficulties and expenses. The areas in which we may face risks include:

- Expected growth in revenues relating to the combination of our business with the Linc business may not be achieved as we may not be able to retain existing clients or attract new clients or generate anticipated new business;
- The acquisition may divert management time and focus from operating our business to acquisition integration;
- Key employees may not remain, which could negatively impact our ability to grow the acquired business;
- A significant portion of Linc's revenues are generated by government contracts and could be negatively impacted by reduced government spending on outsourced services as well as payment delays;
- A portion of Linc's revenues are generated from international operations and are subject to political risks and changes in socio-economic conditions, laws and regulations, including labor, monetary and fiscal policies, and difficulties in ensuring that foreign operations comply with foreign laws as well as U.S. laws applicable to U.S. companies with foreign operations, such as Foreign Corrupt Practices Act, which could negatively impact our ability to operate and grow our business in the international arena;
- The Linc acquisition significantly increases our global presence, thereby increasing our exposure to foreign currency risks and foreign exchange rate fluctuations;
- The failure to integrate the acquired business's accounting, information technology, human resources and other administrative systems to permit effective management and reduce expenses;
- The failure to implement or improve internal controls, procedures and policies appropriate for a public company at a business that prior to the acquisition lacked some of these controls, procedures and policies;
- Exposure to international economic conditions and language and cultural differences relating to the expansion of our business overseas as a result of the Linc acquisition;
- Changes in tax law or interpretations of tax law in foreign jurisdictions could negatively impact future earnings;
- Incurrence of additional indebtedness as a result of the Linc acquisition could impact our cash flow; and
- We may encounter unanticipated or unknown liabilities relating to the acquired Linc business.

Portions of our historic growth have been generated by acquisitions, and we expect to continue to acquire businesses in the future as part of our growth strategy. A slowdown in acquisitions could lead to a slower growth rate, constant or lower margins, as well as lower revenue growth. There can be no assurance that any acquisition we make in the future will provide us with the benefits that we anticipate when entering into the transaction. The process of integrating an acquired business may create unforeseen difficulties and expenses. The areas in which we may face risks include, but are not limited to, those described above in relationship to the Linc acquisition.

We are subject to intense competition that can constrain our ability to gain business, as well as our profitability. We believe that each aspect of our business is highly competitive and that such competition is based primarily on price and quality of service. We provide nearly all our services under contracts originally obtained through competitive bidding. The low cost of entry to the facility services business has led to strongly competitive markets consisting primarily of regional and local owner-operated companies. We also compete with

a few large, diversified facility services and manufacturing companies on a national basis. Indirectly, we compete with building owners and tenants who can perform internally one or more of the services that we provide. These building owners and tenants have an increased advantage in locations where our services are subject to sales tax and internal operations are not. Competitors may have lower costs because privately owned companies operating in a limited geographic area may have significantly lower labor and overhead costs. These strong competitive pressures could impede our success in bidding for profitable business and our ability to increase prices even as costs rise, thereby reducing margins.

We have high deductibles for certain insurable risks, and therefore we are subject to volatility associated with those risks. We are subject to certain insurable risks such as workers' compensation, general liability, automobile and property damage. We maintain commercial insurance policies that provide \$150.0 million (or \$75.0 million with respect to claims acquired from OneSource Services, Inc. ("OneSource") in 2008) of coverage for certain risk exposures above our deductibles (i.e., self-insurance retention limits). Our deductibles, currently and historically, have generally ranged from \$0.5 million to \$1.0 million per occurrence (in some cases somewhat higher in California). We are also responsible for claims in excess of our insurance coverage. Pursuant to our management and service contracts, we allocate a portion of our insurance-related costs to certain clients, including workers' compensation insurance, at rates that, because of the scale of our operations and claims experience, we believe are competitive. A material change in our insurance costs due to a change in the number of claims, costs or premiums could have a material effect on our operating results. Should we be unable to renew our umbrella and other commercial insurance policies at competitive rates, it would have an adverse impact on our business, as would the incurrence of catastrophic uninsured claims or the inability or refusal of our insurance carriers to pay otherwise insured claims. Further, to the extent that we self-insure, deterioration in claims management could increase claim costs, particularly in the workers' compensation area. Additionally, although we engage third-party experts to assist us in estimating appropriate self-insurance accounting reserves, the determination of those reserves is dependent upon significant actuarial judgments that have a material impact on our reserves. For example, quantitative assessments of the impact of recently enacted legislation/regulation and/or court rulings require a great deal of actuarial judgment, which are then updated as actual experience reflecting those changed environment factors becomes available. Changes in our insurance reserves as a result of our periodic evaluations of the related liabilities will likely cause significant volatility in our operating results that might not be indicative of the operations of our ongoing business.

An increase in costs that we cannot pass on to clients could affect our profitability. We negotiate many contracts under which our clients agree to pay certain costs related to workers' compensation and other insurance coverage where we self-insure much of our risk. If actual costs exceed the rates specified in the contracts, our profitability may decline unless we can negotiate increases in these rates. In addition, if our costs, particularly workers' compensation, other insurance costs, labor costs, payroll taxes, and fuel costs, exceed those of our competitors, we may lose existing business unless we reduce our rates to levels that may not fully cover our costs.

We primarily provide our services pursuant to agreements which are cancelable by either party upon 30 to 60 days' notice. Our clients can unilaterally decrease the amount of services we provide or terminate all services pursuant to the terms of our service agreements. Any loss of a significant number of clients could in the aggregate materially adversely affect our operating results.

Our success depends on our ability to preserve our long-term relationships with clients. The business associated with long-term relationships is generally more profitable than that associated with short-term relationships because we incur start-up costs under many new contracts. Once these costs are expensed or fully depreciated over the appropriate periods, the underlying contracts become more profitable. Our loss of long-term clients could have an adverse impact on our profitability even if we generate equivalent revenues from new clients.

We incur significant accounting and other control costs that reduce profitability. As a publicly traded corporation, we incur certain costs to comply with regulatory requirements. If regulatory requirements were to become more stringent or if accounting or other controls thought to be effective later fail, we may be forced to make additional expenditures, the amounts of which could be material. Most of our competitors are privately owned, so our accounting and control costs can be a competitive disadvantage. Should revenues decline or if we are unsuccessful at increasing prices to cover higher expenditures for internal controls and

audits, the costs associated with regulatory compliance will rise as a percentage of revenues.

Risks Related to Market and Economic Conditions

A decline in commercial office building occupancy and rental rates could affect our revenues and profitability. Our revenues are affected by commercial real estate occupancy levels. In certain geographic areas and service segments, our most profitable revenues are known as tag jobs, which are services performed for tenants in buildings in which our business performs building services for the property owner or management company. A decline in occupancy rates could result in a decline in fees paid by landlords, as well as tag work, which would lower revenues, and create pricing pressures and therefore lower margins. Additionally, adverse changes in occupancy rates may further reduce demand, depress prices for our services and cause our clients to cancel their agreements to purchase our services, thereby possibly reducing earnings and adversely affecting our business and results of operations. In addition, in those areas where the workers are unionized, decreases in revenues can be accompanied by relative increases in labor costs if we are obligated by collective bargaining agreements to retain workers with seniority and consequently higher compensation levels and cannot pass on these costs to clients.

Deterioration in economic conditions in general could further reduce the demand for facility services and, as a result, reduce our earnings and adversely affect our financial condition. Changes in global, national and local economic conditions could have a negative impact on our business. Additionally, adverse economic conditions may result in clients cutting back on discretionary spending, such as tag work. Since a significant portion of Parking revenues is tied to the number of airline passengers and hotel guests, Parking results could be adversely affected by curtailment of business and personal travel.

Financial difficulties or bankruptcy of one or more of our major clients could adversely affect our results. Future revenues and our ability to collect accounts receivable depend, in part, on the financial strength of clients. We estimate an allowance for accounts we do not consider collectible and this allowance adversely impacts profitability. In the event clients experience financial difficulty, and particularly if bankruptcy results, profitability is further impacted by our failure to collect accounts receivable in excess of the estimated allowance. Additionally, our future revenues would be reduced by the loss of these clients.

Our ability to operate and pay our debt obligations depends upon our access to cash. Because ABM conducts business operations through operating subsidiaries, we depend on those entities to generate the funds necessary to meet financial obligations. Delays in collections, which could be heightened by disruption in the credit markets and the financial services industry, or legal restrictions could restrict our subsidiaries' ability to make distributions or loans to ABM. The earnings from, or other available assets of, these operating subsidiaries may not be sufficient to make distributions to enable us to pay interest on debt obligations when due or to pay the principal of such debt. We have standby letters of credit collateralizing self-insurance claims and insurance deposits that represent amounts collateralizing self-insurance claims that we cannot access for operations. In addition, \$25.0 million original principal amount of our investment portfolio is invested in auction rate securities that are not actively traded. In the event we need to liquidate our auction rate securities prior to a successful auction, our expected holding period, or their scheduled maturity, we might not be able to do so without realizing further losses.

Future declines in the fair value of our investments in auction rate securities could negatively impact our earnings. Future declines in the fair value of our investments in auction rate securities that we deem temporary will be recorded to accumulated other comprehensive income, net of taxes. In the past, we have experienced declines in the fair value of our investments in auction rate securities that we have determined to be other-than-temporary. If at any time in the future we determine that a further decline in fair value is other-than-temporary, we will record a charge to earnings for the credit loss portion of the impairment. In addition, the significant assumptions used in estimating credit losses may be different than actual realized losses, which could impact our earnings.

Uncertainty in the credit markets may negatively impact our costs of borrowing, our ability to collect receivables on a timely basis and our cash flow. The United States and global economies and the financial and credit markets continue to experience declines or slow growth and there continues to be diminished liquidity and credit availability. These conditions may have a material adverse effect on our operations and our costs of borrowing. In addition, the tightening of credit in financial markets may adversely affect the

ability of our clients to obtain financing, which could adversely impact our ability to collect amounts due from such clients or result in a decrease, or cancellation, of our services under our client contracts. Declines in our ability to collect receivables or in the level of client spending could adversely affect the results of our operations and our liquidity.

Risks Relating to Indebtedness and Impairment Charges

Any future increase in the level of debt or in interest rates can affect our results of operations. Any future increase in the level of debt will likely increase our interest expense. Unless the operating income associated with the use of these funds exceeds the debt expense, borrowing money will have an adverse impact on our results. In addition, incurring debt requires that a portion of cash flow from operating activities be dedicated to interest payments and principal payments. Debt service requirements could reduce our ability to use our cash flow to fund operations and capital expenditures or to capitalize on future business opportunities (including additional acquisitions). Because current interest rates on our debt are variable, an increase in prevailing rates would increase our interest costs. Further, our credit facility agreement contains both financial covenants and covenants that limit our ability to engage in specified transactions, which may also constrain our flexibility.

An impairment charge could have a material adverse effect on our financial condition and results of operations. Under Accounting Standards Codification™ (“ASC”) 350, “Intangibles — Goodwill and Other” (“ASC 350”), we are required to test goodwill for impairment on an annual basis based upon a fair value approach. Goodwill represents the excess of the amount we paid to acquire our subsidiaries and other businesses over the fair value of their net assets at the dates of the acquisitions. We have chosen to perform our annual impairment reviews of goodwill at the beginning of the fourth quarter of each fiscal year. We also are required to test goodwill for impairment between annual tests if events occur or circumstances change that would more likely than not reduce the fair value of any reporting unit below its carrying amount. In addition, we test certain intangible assets for impairment annually or if events occur or circumstances change that would indicate the remaining carrying amount of these intangible assets might not be recoverable. These events or circumstances could include, but are not limited to, a significant change in the business climate, legal factors, operating performance indicators, competition, and sale or disposition of a significant portion of one of our businesses. If the fair market value of one of our businesses is less than its carrying amount, we could be required to record an impairment charge. The valuation of the businesses requires judgment in estimating future cash flows, discount rates and other factors. In making these judgments, we evaluate the financial health of our businesses, including such factors as market performance, changes in our client base and operating cash flows. The amount of any impairment could be significant and could have a material adverse effect on our reported financial results for the period in which the charge is taken.

Risks Related to Labor, Legal Proceedings and Compliance

We are defendants in several class and representative actions or other lawsuits alleging various claims that could cause us to incur substantial liabilities. We are defendants in several class and representative action lawsuits brought by or on behalf of our current and former employees alleging violations of federal and state law, including with respect to certain wage and hour matters. It is not possible to predict the outcome of these lawsuits or any other litigation or arbitration to which we are subject. These lawsuits and other proceedings may consume substantial amounts of our financial and managerial resources, regardless of the ultimate outcome of the lawsuits and other proceedings. In addition, we may become subject to similar lawsuits in the same or other jurisdictions. An unfavorable outcome with respect to these lawsuits and any future lawsuits could, individually or in the aggregate, cause us to incur substantial liabilities that may have a material adverse effect upon our business, financial condition or results of operations.

Federal health care reform legislation may adversely affect our business and results of operations. In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 were signed into law in the United States (collectively, the “Health Care Reform Laws”). The Health Care Reform Laws include a large number of health-related provisions that become effective over the next four years, including requiring most individuals to have health insurance and establishing new regulations on health plans. Although the Health Care Reform Laws do not mandate that employers offer health insurance, beginning in 2014 penalties will be assessed on large employers who do not offer health insurance that meets certain affordability or benefit requirements. Providing such additional health insurance

benefits to our employees, or the payment of penalties if such coverage is not provided, would increase our expense. If we are unable to raise the rates we charge our clients to cover this expense, such increases in expense could reduce our operating profit.

In addition, under the Health Care Reform Laws employers will have to file a significant amount of additional information with the Internal Revenue Service and will have to develop systems and processes to track requisite information. We will have to modify our current systems, which could increase our general and administrative expense.

Changes in immigration laws or enforcement actions or investigations under such laws could significantly adversely affect our labor force, operations and financial results. Because many jobs in our Janitorial segment do not require the ability to read or write English, we are an attractive employer for recent émigrés to this country and many of our jobs are filled by such. Adverse changes to existing laws and regulations applicable to employment of immigrants, enforcement requirements or practices under those laws and regulations, and inspections or investigations by immigration authorities or the prospects or rumors of any of the foregoing, even if no violations exist, could negatively impact the availability and cost of personnel and labor to the Company and the Company's reputation.

Labor disputes could lead to loss of revenues or expense variations. At October 31, 2010, approximately 43% of our employees were subject to various local collective bargaining agreements, some of which will expire or become subject to renegotiation during the year. In addition, at any given time, we may face a number of union organizing drives. When one or more of our major collective bargaining agreements becomes subject to renegotiation or when we face union organizing drives, we and the union may disagree on important issues that, in turn, could lead to a strike, work slowdown or other job actions at one or more of our locations. In a market where we and a number of major competitors are unionized, but other competitors are not unionized, we could lose clients to competitors who are not unionized. A strike, work slowdown or other job action could in some cases disrupt us from providing services, resulting in reduced revenues. If declines in client service occur or if our clients are targeted for sympathy strikes by other unionized workers, contract cancellations could result. The result of negotiating a first time agreement or renegotiating an existing collective bargaining agreement could result in a substantial increase in labor and benefits expenses that we may be unable to pass through to clients. In addition, proposed legislation, known as The Employee Free Choice Act, could make it significantly easier for union organizing drives to be successful and could give third-party arbitrators the ability to impose terms of collective bargaining agreements upon us and a labor union if we and such union are unable to agree to the terms of a collective bargaining agreement.

We participate in multi-employer defined benefit plans which could result in substantial liabilities being incurred. We contribute to multi-employer benefit plans that could result in our being responsible for unfunded liabilities under such plans that could be material.

Other

Natural disasters or acts of terrorism could disrupt services. Storms, earthquakes, drought, floods or other natural disasters or acts of terrorism may result in reduced revenues or property damage. Disasters may also cause economic dislocations throughout the country. In addition, natural disasters or acts of terrorism may increase the volatility of financial results, either due to increased costs caused by the disaster with partial or no corresponding compensation from clients, or, alternatively, increased revenues and profitability related to tag jobs, special projects and other higher margin work necessitated by the disaster.

Other issues and uncertainties may include:

- Market rate changes in commodities or foreign currency rates may increase our operating expenses;
- New accounting pronouncements or changes in accounting policies;
- Changes in federal (U.S.) or state immigration law that raise our administrative costs;
- Labor shortages that adversely affect our ability to employ entry level personnel;
- Legislation or other governmental action that detrimentally impacts expenses or reduces revenues by adversely affecting our clients; and
- The resignation, termination, death or disability of one or more key executives that adversely affects client retention or day-to-day management.

ITEM 2. PROPERTIES

As of October 31, 2010, the Company had corporate, subsidiary, regional, branch or district offices in approximately 296 locations throughout the United States, the Commonwealth of Puerto Rico and in British Columbia and Ontario, Canada. At October 31, 2010, the Company owned 11 facilities having an aggregate net book value of \$3.6 million and which were located in: (1) Jacksonville and Tampa, Florida; (2) Portland, Oregon; (3) Houston, Texas; (4) Lake Tansi, Tennessee; (5) Kennewick, Spokane and Tacoma, Washington; and (6) Spartanburg, South Carolina.

Rental payments under long- and short-term lease agreements amounted to \$106.2 million in 2010. Of this amount, \$69.1 million in rental expense was attributable to parking lots and garages leased and operated by Parking. The remaining expense was for the rental or lease of office space, computers, operating equipment and motor vehicles for the Company's businesses.

ITEM 3. LEGAL PROCEEDINGS

The Company is involved in various claims and legal proceedings of a nature considered normal to its business, as well as in additional matters from time to time. The Company records accruals for contingencies when it is probable or known that a liability has been incurred and the amount can be reasonably estimated. These accruals are adjusted periodically as assessments change or additional information becomes available.

The Company is a defendant in, among others, the following class action or purported class action lawsuits related to alleged violations of federal and/or state wage-and-hour laws:

- the consolidated cases of Augustus, Hall and Davis v. American Commercial Security Services (ACSS) filed July 12, 2005, in the Superior Court of California, Los Angeles County (the "Augustus case");
- the consolidated cases of Bucio and Martinez v. ABM Janitorial Services filed on April 7, 2006, in the Superior Court of California, County of San Francisco (the "Bucio case");
- the consolidated cases of Batiz/Heine v. ACSS filed on June 7, 2006, in the U.S. District Court of California, Central District (the "Batiz case");
- the consolidated cases of Diaz/Morales/Reyes v. Ampco System Parking filed on December 5, 2006, in L.A. Superior Court (the "Diaz case");
- Khadera v. American Building Maintenance Co.-West and ABM Industries filed on March 24, 2008, in U.S. District Court of Washington, Western District (the "Khadera case");
- Simpson v. ABM Janitorial Services-Northwest, Inc., and ABM Industries Incorporated filed on September 24, 2010 in the Superior Court for the State of Washington in and for King County (the "Simpson case"); and
- Villacres v. ABM Security filed on August 15, 2007, in the U.S. District Court of California, Central District (the "Villacres case").

The named plaintiffs in the lawsuits described above are current or former employees of subsidiaries of ABM who allege, among other things, that they were required to work "off the clock," were not paid proper minimum wage or overtime, were not provided work breaks or other benefits, and/or that they received pay stubs not conforming to state law. In all cases, the plaintiffs generally seek unspecified monetary damages, injunctive relief or both.

On January 8, 2009, the Augustus case was certified as a class action by the Superior Court of California, Los Angeles County. On October 6, 2010, the Company moved to decertify the class and for summary judgment. The case has been stayed pending a decision by the court.

On September 29, 2010, the Batiz case was decertified as a class action by the United States District Court of California, Central District, and all opt-in plaintiffs were dismissed without prejudice.

On February 19, 2010, the United States District Court granted conditional certification of the class in the Khadera case as a federal "opt-in" class action. The Simpson case, which is a purported class action brought under state law, was filed in Washington State court subsequent to the decision of the federal court in the Khadera case and contains allegations generally similar to those made in the Khadera case.

On January 15, 2009, a federal court judge denied with prejudice class certification status in the Villacres case. That case, and the companion state court case filed April 3, 2008, in Los Angeles Superior Court were both subsequently dismissed with prejudice on summary judgment. On June 17, 2010, the United States Court of Appeals for the Ninth Circuit affirmed the decision of the district court, which had summarily dismissed with prejudice the Villacres case. The state court companion case, filed April 3, 2008 in Los Angeles Superior Court,

has also been dismissed with prejudice by the judge of the Los Angeles Superior Court. On October 22, 2010, the State Appellate Court affirmed the decision of the judge of the Los Angeles Superior Court.

The Company was a defendant in a lawsuit filed July 19, 2007 in the United States District Court, Eastern District of California, entitled U.S. Equal Employment Opportunity Commission, Plaintiff Erika Morales and Anonymous Plaintiffs One through Eight v. ABM Industries Incorporated et. al. (the "Morales case"). The plaintiffs in the Morales case alleged sexual harassment, discrimination and retaliation. In 2009, fourteen claimants joined the lawsuit alleging various claims against the Company. The case involved both Title VII federal law claims and California state law claims. In June 2010, the Company agreed to a settlement of \$5.8 million for the Morales case. On September 27, 2010, the court accepted the settlement agreement and dismissed the case. Under the terms of the settlement, ABM also agreed to enter into a consent decree requiring a subsidiary to, among other things, track sexual harassment claims and monitor compliance with certain applicable laws.

The following selected financial data is derived from the Company's consolidated financial statements as of and for each of the five years ended October 31, 2010. This information should be read in conjunction with Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Item 8, "Financial Statements and Supplementary Data." As a result of the sale of substantially all of the assets of the Lighting segment on October 31, 2008, the financial results of this segment have been classified as discontinued operations in the following selected financial data and in the Company's accompanying consolidated financial statements and notes for all periods presented. Additionally, acquisitions made in recent years (most significantly, the Company's acquisition of OneSource on November 14, 2007) have impacted comparability among the periods presented.

(1) Revenues in 2010 include revenues associated with the acquisitions of L&R and Diversco, which were acquired on October 1, 2010 and June 30, 2010, respectively, totaling \$43.0 million. Beginning in 2008, includes revenues associated with the acquisition of OneSource, which was acquired on November 14, 2007. Revenues in 2007 included a \$5.0 million gain from the termination of off-airport parking garage leases.

(2) The World Trade Center formerly represented the Company's largest job-site; its destruction on September 11, 2001 has directly and indirectly impacted subsequent operating results. Amounts for 2006 consist of total gains in connection with World Trade Center insurance claims of \$80.0 million in 2006. Of the \$80.0 million, \$14.0 million related to the recovery of the Lighting segment's loss of business profits and has been reclassified to discontinued operations.

(3) Operating expenses in 2010 and 2009 include adjustments to increase self-insurance reserves related to prior year claims by \$1.2 million and \$9.4 million, respectively, while 2008, 2007 and 2006 included adjustments to reduce self-insurance reserves related to prior years by \$22.8 million, \$1.8 million and \$14.1 million, respectively. Additionally, operating expenses for 2009 includes a net benefit of a \$9.6 million legal settlement received from the Company's former third-party administrator.

(4) Selling, general and administrative expenses in 2010, 2009, 2008 and 2007 included \$5.7 million, \$21.8 million, \$24.3 million and \$4.6 million of costs, respectively, associated with (a) the implementation of a new payroll and human resources information system, and the upgrade of the Company's accounting systems; (b) the transition of certain back office functions to the Company's Shared Services Center in Houston, Texas; (c) the move of the Company's corporate headquarters to New York; and (d) integration costs associated with the acquisition of OneSource in 2008.

Selling, general and administrative expense in 2010 included a \$5.8 million litigation settlement related to the Morales case and a \$3.4 million reversal of previously recorded share-based compensation expense, due to a change in the probability of achieving the financial performance targets established in connection with certain performance share grants.

Selling, general and administrative expense in 2008 included \$68.0 million of integration related expenses associated with the OneSource acquisition and a \$6.3 million write-off of deferred costs related to the Company's Master Professional Services Agreement between the Company and International Business Machines Corporation ("IBM") (see the "Commitments" sub-section of the "Liquidity and Capital Resources" section below).

Selling, general and administrative expenses in 2006 included \$3.3 million of transition costs associated with the outsourcing of the Company's information technology infrastructure and support services to IBM.

(5) The Company determined that one of its auction rate securities was other-than-temporarily impaired during 2009. The other-than-temporary impairment approximated \$3.7 million, of which \$1.6 million was recognized in earnings as a credit loss, with a corresponding reduction in the cost basis of that security during 2009. (See Note 5 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data.")

(6) In connection with the OneSource acquisition, the Company acquired insurance deposits that represent amounts collateralizing OneSource's self-insurance claims. The Company recorded \$273.8 million of goodwill representing the excess of the cost of the acquisition over the fair value of net assets acquired in the acquisition of OneSource. As of October 31, 2010, the Company had outstanding borrowings under its line of credit of \$140.5 million, which is primarily associated with acquisitions.

The following discussion should be read in conjunction with the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data." All information in the discussion and references to years are based on the Company's fiscal year that ends on October 31. All references to 2010, 2009, 2008 and 2007, unless otherwise indicated, are to fiscal years 2010, 2009, 2008 and 2007, respectively. The Company's fiscal year is the period from November 1 through October 31. Except where specifically indicated, this discussion does not include the operations of Linc, which the Company acquired on December 1, 2010.

Overview

ABM Industries Incorporated ("ABM"), through its subsidiaries (collectively, the "Company"), provides janitorial, parking, security and engineering services for thousands of commercial, industrial, institutional and retail client facilities in hundreds of cities, primarily throughout the United States. The Company's business is impacted by industrial activity, commercial office building occupancy and rental rates, air travel levels, tourism, and transportation needs at educational institutions and health care service facilities, among others.

On December 1, 2010, the Company acquired Linc pursuant to the Merger Agreement, dated as of December 1, 2010, by and among ABM, Linc, GI Manager LP, as the Members Representative, and Lightning Services, LLC, a wholly-owned subsidiary of ABM ("Merger Sub"). Pursuant to the Merger Agreement, Merger Sub merged with and into Linc, and Linc continued as the surviving corporation and as a wholly owned subsidiary of ABM. The aggregate purchase price for all of the outstanding limited liability company interests of Linc was approximately \$301.0 million, subject to certain adjustments as set forth in the Merger Agreement. With annual revenues of approximately \$579 million and approximately 3,000 employees, Linc provides end-to-end integrated facilities management services that improve operating efficiencies, reduce energy consumption and lower overall operational costs for more than 25,000 facilities in the government, commercial and residential markets throughout the United States and select international markets. The operations of Linc will be included in the Engineering segment as of the acquisition date.

On October 1, 2010, the Company acquired select assets of L&R from the L&R Group of Companies for an aggregate purchase price of \$34.7 million, including \$0.2 million of assets distributed as consideration. The Company incurred \$0.4 million of direct acquisition costs, which were expensed as incurred. L&R employs approximately 2,500 people and services more than 450 client accounts across the United States. The acquisition extends and expands the Company's parking business in major cities. The acquisition also expands the Company's presence at airports. The results of operations of L&R are included in the Company's Parking segment as of the acquisition date. The amounts of L&R revenues and operating profit included in the Company's consolidated statements of income for 2010 were \$14.9 million and \$0.4 million, respectively.

On June 30, 2010, the Company acquired all of the outstanding shares of Diversco from DHI Holdings, Inc. for \$30.6 million in cash and incurred direct acquisition costs of \$0.2 million, which were expensed as incurred. The purchase price was subsequently adjusted to \$30.4 million in connection with a working capital adjustment. Diversco is a national provider of outsourced facility services. The acquisition expands the geographic reach of the Company's janitorial and security businesses, particularly in the Southeast, Midwest and Mid-Atlantic regions of the United States. The results of operations of Diversco are included in the Company's Janitorial and Security segments as of the acquisition date. The amounts of Diversco's revenues and operating

profit included in the Company's consolidated statements of income for 2010 were \$28.1 million and \$1.2 million, respectively.

Revenues at the Company's Janitorial, Security and Engineering segments are primarily based on the performance of labor-intensive services at contractually specified prices. Revenues generated by the Parking segment relate to parking and transportation services that are less labor intensive. In addition to services defined within the scope of client contracts, the Janitorial segment also generates revenues from extra services (or tags) such as, but not limited to, flood cleanup services and snow removal, which generally provide higher margins.

Total revenues increased \$13.9 million, or 0.4%, to \$3,495.7 million in 2010 from \$3,481.8 million in 2009. The Company's growth in total revenues includes approximately \$43.0 million of revenues attributable to the L&R and Diversco acquisitions described above. Excluding the L&R and Diversco acquisitions, revenues decreased \$29.1 million, or 0.8%, in 2010, as compared to 2009. During 2009, the Company experienced losses of client contracts that exceeded new business, reductions in the level and scope of client services, contract price compression and declines in the level of tag work, primarily in the Janitorial segment. These losses and reductions continued to influence results throughout 2010. In addition, during 2010 the Janitorial segment continued to experience some additional reductions in the level and scope of client services and contract price compression. These revenue decreases in the Janitorial segment were partially offset by additional revenues from new clients and the expansion of services to existing clients in the Engineering segment.

Despite the reductions in revenues, the Company's operating profit, excluding Corporate, increased \$5.1 million, or 2.7%, to \$193.1 million in 2010 from \$188.0 million in 2009. This increase primarily related to increases in operating profit in the Engineering and Parking segments as a result of additional revenues from new clients and the expansion of services to existing clients and cost control measures in all segments, including lower compensation costs.

The Company's largest operating segment is the Janitorial segment, which generated approximately 66.9% of the Company's revenues and approximately 73.0% of the Company's operating profit, excluding the Corporate segment, for 2010.

In addition to revenues and operating profit, the Company's management views operating cash flows as a good indicator of financial performance, as strong operating cash flows provide opportunities for growth both organically and through acquisitions. Operating cash flows primarily depend on revenue levels, the timing of collections and payments to suppliers and other vendors, the quality of receivables, the timing and amount of income tax payments and the timing and amount of payments on self-insured claims. The Company's cash flows provided by continuing operating activities were \$140.7 million, \$121.3 million and \$62.3 million for 2010, 2009 and 2008, respectively.

The Company self-insures certain insurable risks, such as workers' compensation, general liability, automobile and property damage. The Company periodically performs a thorough review, with the assistance of external professionals, of its estimate of the ultimate cost for self-insurance reserves. As part of this evaluation, the Company reviews the status of existing and new claims and coordinates this review with third-party claims administrators. The Company compares actual trends to expected trends and monitors claims developments. The third-party claims administrators that manage the claims for the Company project their estimates of the ultimate cost for each claim based upon known factors related to the management of the claims, legislative matters and case law. After reviewing the findings with the Company, the specific case reserves estimated by the third-party claims administrators are provided to an actuary who assists the Company in projecting an actuarial estimate of the overall ultimate cost for self-insurance, which includes the case reserves plus an actuarial estimate of reserves required for additional developments, including "incurred but not reported" claim costs. The independent third-party's actuarial estimate of the reserves is reviewed by management and forms the basis for management's best estimate of the reserves, as recorded in the Company's financial statements.

Although the Company engages third-party experts to assist in estimating appropriate self-insurance reserves, the determination of those reserves is dependent upon significant actuarial judgments that have a material impact on the Company's reserves. The interpretation of trends requires knowledge of many factors that may or may not be reflective of adverse or favorable developments (e.g., changes in regulatory requirements). Trends may also be impacted by changes in safety programs or claims handling practices. If analyses of losses suggest that the frequency or severity of claims incurred has changed, the Company would be required to record increases or decreases in expenses for self-insurance liabilities.

During 2008, favorable developments in the claims management process as well as the effects of favorable legislation in certain states continued to be observed. Specifically, the Company continued to experience the favorable impact of prior workers' compensation reforms in California. Prior to the reforms of 2003 and 2004, the California workers' compensation system was characterized by high insurance rates to employers and variability in benefits to injured workers. To address rising costs, a series of reforms were passed by the California Legislature. The reforms focused on, among other things, revising medical fee schedules, improving quality of care, encouraging medical utilization review, capping temporary disability benefits, and reducing the number and size of permanent disability awards. Following the implementation of reforms, from 2004 to 2008, the industry workers' compensation claims cost benchmark was reduced by 65%. The reforms not only favorably affected claims incurred after 2004, but also favorably affected certain claims open at the time the reforms were enacted. Accordingly, as benefits of the reforms had become more readily measurable in 2008, estimates of the cost of settling these older claims were reduced in 2008. Reduced claim costs, which the Company believes were driven by the continuing effects of California workers' compensation reform and internal loss control efforts, were observed during 2008 in both the Company's general liability and workers' compensation program claims in 2008. After analyzing the historical loss development patterns, comparing the loss development against benchmarks, and applying actuarial projection methods, in 2008 the Company lowered its expected losses for prior year claims, which resulted in a \$22.8 million reduction in the related self-insurance reserves, that was recorded in the Corporate segment.

During 2009, favorable trends observed during recent years did not continue. Specifically, the Company noticed the effects of (i) unfavorable developments (primarily affecting workers' compensation in California and other states where the Company has a significant presence), (ii) certain case law decisions during 2009 resulting in a more favorable atmosphere for injured workers regarding their disability rating in California, and (iii) existing claims in California being updated by injured workers to add additional medical conditions to their original claims, resulting in additional discovery costs and likely higher medical and indemnity costs. Further, during 2009, certain general liability claims related to earlier policy years experienced losses significantly higher than were previously estimated. After analyzing the historical loss development patterns, comparing the loss development against benchmarks, and applying actuarial projection methods, the Company increased its expected losses for prior year claims, which resulted in an increase in the related self-insurance reserves of \$9.4 million in 2009, that was recorded in the Corporate segment.

During 2010, the Company increased its reserves related to prior year claims by approximately \$1.2 million, which was recorded in the Corporate segment. The increase resulted mostly from higher than expected losses in general liability claims. While expenses related to workers' compensation claims were observed to be coming in higher for New York and Illinois, the impact of certain 2009 case law decisions in California was less than previously expected, offsetting the increases in the other states.

The Company believes that achieving desired levels of revenues and profitability in the future will depend upon, among other things, its ability to attract and retain clients at desirable profit margins, to pass on cost increases to clients, and to keep overall costs low. In the short term, the Company is focused on integrating recent acquisitions and plans to remain competitive by, among other things, continued cost control strategies. The Company will continue to monitor, and in some cases exit, client arrangements where the Company believes the client is at high risk of bankruptcy or which produce low profit margins, and focus on client arrangements that may generate less revenues but produce higher profit margins. Additionally, the Company will continue to seek acquisitions both domestically and internationally. In the long term, the Company expects to continue to grow organically and through acquisitions (including international expansion) in response to the growing demand for a global integrated facility services solution provider.

At October 31, 2010, the Company had a \$450 million syndicated line of credit (the "old Facility"). As of October 31, 2010, the total outstanding amounts under the old Facility in the form of cash borrowings and standby letters of credit were \$140.5 million and \$100.8 million, respectively.

In connection with the acquisition of Linc, the Company terminated the old Facility on November 30, 2010 and replaced it with a new \$650 million five year syndicated line of credit (the "new Facility"). The new Facility is scheduled to expire on November 30, 2015, with the option to increase the size of the new Facility to \$850 million at any time prior to the expiration. Borrowings under the new Facility were used to acquire Linc on December 1, 2010, as well as pay down the outstanding balances under the old Facility. The new Facility is available for working capital, the issuance of standby letters of credit, the financing of capital expenditures and other general corporate purposes, including acquisitions. The Company's ability to draw down available amounts under the new Facility is subject to compliance with certain financial covenants, including covenants relating to consolidated net worth, a fixed charge coverage ratio and a leverage ratio. In addition, other covenants under the line of credit include limitations on liens, dispositions, fundamental changes, investments and certain transactions and payments. See Note 16 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data," for additional information.

As of November 30, 2010, the Company was in compliance with all covenants under the new Facility and expects to be in compliance in the foreseeable future.

The Company believes that the cash generated from operations and amounts available under the new Facility will be sufficient to fund the Company's operations and cash requirements, except to the extent cash is required for significant acquisitions, if any.

Working Capital. Working capital decreased by \$3.4 million to \$274.9 million at October 31, 2010 from \$278.3 million at October 31, 2009. Excluding the effects of discontinued operations, working capital increased by \$2.1 million to \$270.7 million at October 31, 2010 from \$268.6 million at October 31, 2009.

Cash Flows from Operating Activities. Net cash provided by operating activities was \$149.9 million, \$140.9 million and \$68.3 million in 2010, 2009 and 2008, respectively.

The \$9.0 million increase in 2010 compared to 2009 was primarily related to:

- a \$12.6 million increase in the year-over-year change in other assets and long term receivables, primarily related to the reduction of required cash insurance deposits, the decrease of pre-payments for insurance claims reserves and collections received on notes receivables;
- an \$11.5 million net increase in the year-over-year change in income taxes, primarily related to the increase in income taxes payable due to timing of income tax payments and an increase in tax reserves;
- an \$8.4 million increase in income from continuing operations; and
- a \$4.8 million increase in the year-over-year change in accounts payable and accrued liabilities, primarily related to the timing of payments made on vendor invoices;

partially offset by:

- an \$18.0 million decrease in the year-over-year change in trade accounts receivable, primarily related to the timing of collections received from clients and a decrease in revenues from 2008 to 2009; and

- a \$10.5 million decrease in net cash provided by discontinued operating activities. Net cash provided by discontinued operating activities was \$9.1 million in 2010, compared to \$19.6 million in 2009. The cash provided by discontinued operating activities primarily related to cash collections from client contracts transferred in connection with the sale of the Lighting business that contained deferred charges related to services previously performed by the Company prior to the sale.

The \$72.6 million increase in 2009 compared to 2008 was primarily related to:

- a \$54.3 million decrease in the year-over-year changes in trade accounts receivable, primarily related to improved timing of collections; and
- a \$13.6 million increase in net cash provided by discontinued operating activities, primarily related to the collections of accounts receivable during 2009. Net cash provided by discontinued operating activities was \$19.6 million in 2009 compared to \$6.0 million in 2008.

Cash Flows from Investing Activities. Net cash used in investing activities was \$87.9 million, \$37.5 million and \$421.5 million in 2010, 2009 and 2008, respectively.

The \$50.4 million increase in net cash used in investing activities in 2010, compared to 2009, was primarily related to a \$44.4 million increase in cash paid for asset and business acquisitions and additional consideration paid for prior years acquisitions in 2010, compared to 2009.

In 2010 the Company paid \$62.3 million for the L&R and Diversco acquisitions, net of cash acquired, and \$3.3 million of additional consideration for the achievement of certain financial performance targets in connection with prior years acquisitions.

In 2009, the Company paid \$15.1 million for the Control Building Services, Inc., Control Engineering Services, Inc., and TTF, Inc. ("Control") acquisition and \$6.0 million of additional consideration for the achievement of certain financial performance targets in connection with prior years acquisitions (excluding \$1.2 million related to contingent amounts settled in stock issuances).

The \$384.1 million decrease in 2009 compared to 2008 was primarily related to a \$401.8 million decrease in cash paid for acquisitions and additional consideration paid for prior years acquisitions and a \$15.5 million decrease in capital expenditures, partially offset by \$33.4 million of proceeds received for the sale of the Lighting business in 2008.

In 2009, the Company paid \$15.1 million for the Control acquisition and \$6.0 million of additional consideration for the achievement of certain financial performance targets in connection with prior years acquisitions (excluding \$1.2 million related to additional consideration settled in stock issuances).

In 2008, the Company paid \$390.5 million and \$27.3 million for the acquisition of OneSource and the remaining 50% equity of Southern Management Company ("Southern Management"), respectively, and \$5.1 million of additional consideration paid for the achievement of certain financial performance targets in connection with prior years acquisitions (excluding \$0.6 million related to contingent amounts settled in stock issuances).

Cash Flows from Financing Activities. Net cash used in financing activities was \$56.7 million and \$96.0 million in 2010 and 2009, respectively, and net cash provided by financing activities was \$232.2 million in 2008.

The \$39.3 million decrease in net cash used in financing activities in 2010 compared to 2009 was primarily related to \$25.5 million of net repayments on borrowings from the line of credit (which included the financing of the L&R and Diversco acquisitions for \$64.9 million, excluding acquisition costs).

The \$328.2 million decrease in 2009 compared to 2008 was primarily related to:

- a \$287.5 million decrease in the net borrowings from the Company's line of credit. During 2009, net repayments on borrowings from the line of credit were \$57.5 million, compared to net borrowings of \$230.0 million in 2008. Net borrowings in 2008 were primarily related to the acquisition of OneSource and the purchase of the remaining 50% equity of Southern Management for \$410.5 million, excluding acquisition costs; and
- a \$32.6 million decrease in the book overdraft payables, primarily related to the timing of payments made on vendor invoices.

Operating Leases

The amounts set forth under operating leases represent the Company's contractual obligations to make future payments under non-cancelable operating lease agreements for various facilities, vehicles and other equipment.

IBM Master Professional Services Agreement

On September 29, 2006, the Company entered into a Master Professional Services Agreement (the "Services Agreement") with International Business Machines Corporation ("IBM") that became effective October 1, 2006. Under the Services Agreement, IBM was responsible for substantially all of the Company's information technology infrastructure and support services. In 2007, the Company entered into additional agreements with IBM to provide assistance, support and post-implementation services relating to the upgrade of the Company's accounting systems and the implementation of a new payroll system and human resources information system. In connection with the OneSource acquisition in 2008, the Company entered into additional agreements with IBM to provide information technology systems integration and data center support services through 2009. During the fourth quarter of 2008, the Company assessed the services provided by IBM to determine whether the services provided and the level of support was consistent with the Company's strategic objectives. Based on this assessment, the Company determined that some or all of the services provided under the Services Agreement would be transitioned from IBM. In connection with this assessment, the Company wrote off \$6.3 million of deferred costs in 2008.

On January 20, 2009, the Company and IBM entered into a binding Memorandum of Understanding (the "MOU"), pursuant to which the Company and IBM agreed to: (1) terminate certain services then provided by IBM to the Company under the Services Agreement; (2) transition the terminated services to the Company and/or its designee; (3) resolve certain other disputes arising under the Services Agreement; and (4) modify certain terms applicable to services that IBM would continue to provide to the Company. In connection with the execution of the MOU, the Company delivered to IBM a formal notice terminating for convenience certain information technology and support services effective immediately (the "Termination"). Notwithstanding the Termination, the MOU contemplated (1) that IBM would assist the Company with the transition of the terminated services to the Company or its designee pursuant to an agreement (the "Transition Agreement") to be executed by the Company and IBM and (2) the continued provision by IBM of certain data center support services. On

February 24, 2009, the Company and IBM entered into an amended and restated agreement, which amended the Services Agreement (the "Amended Agreement"), and the Transition Agreement, which memorializes the termination-related provisions of the MOU as well as other terms related to the transition services. Under the Amended Agreement, the base fee for the provision of the defined data center support services is \$18.8 million payable over the service term (March 2009 through December 2013).

In connection with the Termination, the Company agreed to: (1) reimburse IBM for certain actual employee severance costs, up to a maximum of \$0.7 million, provided the Company extended comparable offers of employment to a minimum number of IBM employees; (2) reimburse IBM for certain early termination costs, as defined, including third-party termination fees and/or wind-down costs totaling approximately \$0.4 million associated with software, equipment and/or third-party contracts used by IBM in performing the terminated services; and (3) pay IBM fees and expenses for requested transition assistance which were estimated to be approximately \$0.4 million.

Employee Benefit Plans

The Company has defined benefit, post-retirement and deferred compensation plans. All defined benefit and post-retirement plans have been amended to preclude new participants. These plans are described in further detail in Note 10 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data." As of October 31, 2010, the aggregate employee benefit plan liability, including the Company's deferred compensation plans, was \$28.5 million. Future benefits expected to be paid over the next 20 years are approximately \$39.7 million.

The defined benefit and post-retirement plan liabilities as of October 31, 2010 assume future annual compensation increases of 3.5%, a rate of return on plan assets of 8.0% (when applicable), and discount rates in the range of 4.50% to 4.98%. The discount rates were determined using the individual cash flows of each plan. In determining the long-term rate of return for a plan, the Company considers the nature of the plan's investments, historical rates of return, and an expectation for the plan's investment strategies. The Company believes changes in assumptions will not have a material impact on the Company's financial position and operating performance. The Company expects to fund payments required under the plans with cash flows from operating activities when due in accordance with the plan.

The employee benefit plan obligation of \$28.5 million as of October 31, 2010 does not include the union-sponsored multi-employer defined benefit plans. These plans are not administered by the Company and contributions are determined in accordance with provisions of negotiated labor contracts. Contributions made to these plans were \$58.2 million, \$47.9 million and \$47.7 million in 2010, 2009 and 2008, respectively.

Line of Credit

As of October 31, 2010, the total outstanding amount under the old Facility in the form of cash borrowings was \$140.5 million. The old Facility was scheduled to expire on November 14, 2012.

In connection with the acquisition of Linc, the Company terminated the old Facility on November 30, 2010 and replaced it with the new Facility. The new Facility is scheduled to expire on November 30, 2015. See Note 16 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data," for additional information.

Standby Letters of Credit

The Company had \$100.8 million of standby letters of credit as of October 31, 2010, primarily related to its general liability, automobile, property damage, and workers' compensation self-insurance programs.

In connection with the Linc acquisition on December 1, 2010, the Company acquired \$11.9 million of standby letters of credit as of the acquisition date.

Surety Bonds

The Company uses surety bonds, principally performance and payment bonds, to guarantee performance under various client contracts in the normal course of business. These bonds typically remain in force for one to five years and may include optional renewal periods. At October 31, 2010, outstanding surety bonds totaled \$112.5 million. The Company does not believe it will be required to draw upon these bonds.

In connection with the Linc acquisition on December 1, 2010, the Company acquired \$98.4 million of outstanding surety bonds as of the acquisition date.

Unrecognized Tax Benefits

As of October 31, 2010, the Company had \$101.7 million of unrecognized tax benefits. This

represents the tax benefits associated with various tax positions taken on tax returns that have not been recognized in our financial statements due to uncertainty regarding their resolution. The resolution or settlement of these tax positions with the taxing authorities is subject to significant uncertainty, and therefore we are unable to make a reliable estimate of the eventual cash flows by period that may be required to settle these matters. In addition, certain of these matters may not require cash settlements due to the exercise of credit and net operating loss carryforwards as well as other offsets, including the indirect benefit from other taxing jurisdictions that may be available. (See Note 13 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data.")

Environmental Matters

The Company's operations are subject to various federal, state and/or local laws regulating the discharge of materials into the environment or otherwise relating to the protection of the environment, such as discharge into soil, water and air, and the generation, handling, storage, transportation and disposal of waste and hazardous substances. These laws generally have the effect of increasing costs and potential liabilities associated with the conduct of the Company's operations. In addition, from time to time the Company is involved in environmental matters at certain of its locations or in connection with its operations. Historically, the cost of complying with environmental laws or resolving environmental issues relating to United States locations or operations has not had a material adverse effect on the Company's financial position, results of operations or cash flows. The Company does not believe that the resolution of known matters at this time will be material.

Effect of Inflation

The rates of inflation experienced in recent years have had no material impact on the financial statements of the Company. The Company attempts to recover increased costs by increasing prices for its services, to the extent permitted by contracts and competition.

Net Income. Net income in 2010 increased by \$9.8 million, or 18.1%, to \$64.1 million (\$1.21 per diluted share) from \$54.3 million (\$1.05 per diluted share) in 2009. Net income included income from discontinued operations of \$0.3 million and a loss from discontinued operations of \$1.2 million (\$0.02 per diluted share) in 2010 and 2009, respectively.

Income from Continuing Operations. Income from continuing operations in 2010 increased by \$8.4 million, or 15.1%, to \$63.9 million (\$1.21 per diluted share) from \$55.5 million (\$1.07 per diluted share) in 2009.

The increase in income from continuing operations was primarily related to:

- a \$10.7 million year-over-year decrease in information technology costs in 2010, primarily related to the upgrade of the payroll, human resources and accounting systems that occurred in 2009;
- a \$1.2 million adjustment to increase the self-insurance reserves related to prior year claims in 2010, compared to \$9.4 million in 2009 (accordingly, the year-over-year decrease in the self-insurance reserve adjustments resulted in an \$8.2 million increase in income from continued operations before income taxes in 2010 as compared to 2009);
- a \$5.1 million increase in operating profit, excluding the Corporate segment, primarily related to cost control measures and increases in the operating profit in the Parking and Engineering segments as a result of increases in

revenues from new clients and the expansion of services to existing clients;

- a \$4.1 million decrease in general and administrative expenses in 2010, primarily related to professional fees and costs associated with the move of the Company's corporate headquarters to New York incurred during 2009 and decreases in costs associated with the centralization of certain back office support services;
- a \$3.4 million reversal of previously recorded share-based compensation expense in 2010, due to a change in the probability assessment of achieving the financial performance targets established in connection with certain performance share grants;
- a \$1.4 million year-over-year decrease in the credit loss associated with the other-than-temporary impairment of the Company's investment in auction rate securities in 2010; and
- a \$1.2 million decrease in interest expense as a result of a lower average outstanding balance and lower average interest rate under the line of credit;

partially offset by:

- an \$11.0 million increase in income taxes, primarily related to the increase in income from continuing operations before income taxes and a \$4.6 million year-over-year decrease of non-recurring tax benefits;
- the absence of a \$9.6 million net gain related to a legal settlement for a claim that was settled and resolved in 2009;
- a \$5.8 million litigation settlement related to the Morales case; and
- the expensing of acquisition costs of \$2.3 million, in 2010, subsequent to the adoption of ASC 805 on November 1, 2009.

Revenues. Total revenues increased \$13.9 million, or 0.4%, in 2010, as compared to 2009. The Company's growth in total revenues includes approximately \$43.0 million of revenues attributable to the L&R and Diversco acquisitions described above. Excluding the L&R and Diversco acquisitions, revenues decreased \$29.1 million, or 0.8%, in 2010, as compared to 2009. During 2009, the Company experienced losses of client contracts that exceeded new business, reductions in the level and scope of client services, contract price compression and declines in the level of tag work, primarily in the Janitorial segment. These losses and reductions continued to influence results throughout 2010. In addition, during 2010 the Janitorial segment continued to experience some additional reductions in the level and scope of client services and contract price compression. These revenue decreases in the Janitorial segment were partially offset by additional revenues from new clients and the expansion of services to existing clients in the Engineering segment.

Operating Expenses. As a percentage of revenues, gross margin was 10.3% and 10.5% in 2010 and 2009, respectively.

The gross margin percentages were affected by the following:

- a \$9.6 million net gain related to a legal settlement for a claim that was settled and resolved in 2009; and
- a \$1.2 million adjustment to increase the self-insurance reserves related to prior year claims in 2010, compared to \$9.4 million in 2009.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased \$22.1 million, or 8.4%, in 2010 compared to 2009.

The decrease in selling, general and administrative expenses was primarily related to:

- a \$12.8 million decrease in selling, general and administrative costs at the Janitorial segment, primarily related to cost control measures, including a reduction in payroll and payroll related expenses;
- a \$10.7 million year-over-year decrease in information technology costs in 2010, primarily related to the upgrade of the payroll, human resources and accounting systems that occurred in 2009;
- a \$4.1 million decrease in general and administrative expenses in 2010, primarily related to professional fees and costs associated with the move of the Company's corporate headquarters to New York incurred during 2009 and decreases in costs associated with the centralization of certain back office support services; and
- a \$3.4 million reversal of previously recorded share-based compensation expense in 2010, due to a change in the probability assessment of achieving the financial performance targets established in connection with certain performance share grants;

partially offset by:

- a \$5.8 million litigation settlement related to the Morales case; and
- the expensing of acquisition costs of \$2.3 million in 2010, subsequent to the adoption of ASC 805 on November 1, 2009.

Interest Expense. Interest expense in 2010 decreased \$1.2 million, or 21.1%, to \$4.6 million from \$5.9 million in 2009. The decrease was primarily related to a lower average outstanding balance and a lower average interest rate under the line of credit in 2010 compared to 2009. The average outstanding balance under the Company's line of credit was \$156.7 million and \$212.9 million in 2010 and 2009, respectively.

Provision for Income Taxes. The effective tax rates on income from continuing operations for 2010 and 2009 were 38.6% and 34.5%, respectively. The effective tax rates for 2010 and 2009 include \$0.2 million of discrete tax costs and \$4.4 million of discrete tax benefits, respectively. The tax benefits in 2009 were principally driven by the benefits of state tax rate increases on the carrying value of the Company's state deferred tax assets and employment based tax credits.

Segment Information

The Company determined Janitorial, Parking, Security and Engineering to be its reporting segments in accordance with Accounting Standards Codification™ ("ASC") Topic 280 "Segment Reporting" ("ASC 280"). In connection with the discontinued operation of the Lighting segment, the operating results of Lighting are classified as discontinued operations and, as such, are not reflected in the tables below.

Most Corporate expenses are not allocated. Such expenses include the adjustments to the Company's self-insurance reserves relating to prior years, certain legal costs and settlements, certain information technology costs, share-based compensation costs, severance costs associated with acquisitions and certain chief executive officer and other finance and human resource departmental costs. Segment Revenues and operating profits of the continuing reportable operating segments (Janitorial, Parking, Security, and Engineering) for 2010 and 2009 were as follows:

Janitorial. Janitorial revenues decreased \$44.1 million, or 1.9%, during 2010 compared to 2009. Excluding the revenues associated with the Diversco acquisition, Janitorial revenues decreased \$68.1 million, or 2.9%, during 2010, as compared to 2009. During 2009, Janitorial experienced losses of client contracts that exceeded new business, reductions in the level and scope of client services, contract price compression and declines in the level of tag work, which continued to influence results throughout 2010. In addition, during 2010, Janitorial continued to experience some reductions in the level and scope of client services and contract price compression as a result of decreases in client discretionary spending, partially offset by additional revenues from new clients.

Despite the reduction in revenues, operating profit increased \$1.1 million, or 0.8%, during 2010 compared to 2009. The increase was primarily related to cost control measures, including a reduction in payroll and payroll related expenses, and \$1.1 million of operating profit contributed by the Diversco acquisition.

Parking. Parking revenues increased \$11.9 million, or 2.6%, during 2010 compared to 2009. Excluding the revenues associated with the L&R acquisition, Parking revenues decreased \$3.0 million, or 0.7%. The decrease in revenues, excluding the L&R acquisition, was primarily related to a \$5.7 million reduction of expenses incurred on the behalf of managed parking facilities,

which are reimbursed to the Company. These reimbursed expenses are recognized as parking revenues and expenses, which have no impact on operating profit. The decrease in management reimbursement revenues was offset by a \$2.7 million increase in lease and allowance revenues from new clients and the expansion of services to existing clients.

Operating profit increased \$2.5 million, or 12.1%, during 2010 compared to 2009. The increase was primarily related to the increase in lease and allowance revenues, cost control measures and \$0.4 million contributed by the L&R acquisition.

Security. Security revenues increased \$1.6 million, or 0.5%, during 2010 compared to 2009. Excluding the revenues associated with the Diversco acquisition, Security revenues decreased \$2.4 million, or 0.7%. The decrease in revenues was primarily related to reductions in the level and scope of client services and contract price compression as a result of decreases in client discretionary spending.

Operating profit decreased \$0.7 million, or 8.9%, in 2010 compared to 2009. The decrease was primarily related to margin compression.

Engineering. Engineering revenues increased \$45.1 million, or 14.8%, during 2010 compared to 2009. The increase was primarily related to additional revenues from new clients and the expansion of services to existing clients.

Operating profit increased by \$2.3 million, or 11.7%, in 2010 compared to 2009, primarily related to the increase in revenues.

Corporate. Corporate expense decreased \$11.6 million, or 12.1%, in 2010 compared to 2009.

The decrease in Corporate expense was primarily related to:

- a \$10.7 million year-over-year decrease in information technology costs in 2010, primarily related to the upgrade of the payroll, human resources and accounting systems that occurred in 2009;
- a \$1.2 million adjustment to increase the self-insurance reserves related to prior year claims in 2010, compared to \$9.4 million in 2009 (accordingly, the year-over-year decrease in the self-insurance reserve adjustments resulted in an \$8.2 million decrease in Corporate expenses in 2010 as compared to 2009);
- a \$4.1 million decrease in general and administrative expenses in 2010, primarily related to professional fees and costs associated with the move of the Company's corporate headquarters to New York incurred during 2009 and decreases in costs associated with the centralization of certain back office support services; and
- a \$3.4 million reversal of previously recorded share-based compensation expense in 2010, due to a change in the probability assessment of achieving the financial performance targets established in connection with certain performance share grants;

partially offset by:

- the absence of a \$9.6 million net gain related to a legal settlement for a claim that was settled and resolved in 2009;
- a \$5.8 million litigation settlement related to the Morales case; and
- the expensing of acquisition costs of \$2.3 million in 2010, subsequent to the adoption of ASC 805 on November 1, 2009.

Net Income. Net income in 2009 increased by \$8.9 million, or 19.5%, to \$54.3 million (\$1.05 per diluted

share) from \$45.4 million (\$0.88 per diluted share) in 2008. Net income included a loss from discontinued operations of \$1.2 million (\$0.02 per diluted share) and \$7.3 million (\$0.15 per diluted share) in 2009 and 2008, respectively. The loss from discontinued operations in 2008 is primarily related to a pre-tax goodwill impairment charge of \$4.5 million and a \$3.5 million loss, net of taxes, on the sale of substantially all the assets of the Lighting segment.

Income from Continuing Operations. Income from continuing operations in 2009 increased by \$2.8 million, or 5.2%, to \$55.5 million (\$1.07 per diluted share) from \$52.7 million (\$1.03 per diluted share) in 2008.

The increase in income from continuing operations was primarily related to:

- a \$23.2 million increase in operating profit, excluding the Corporate segment, primarily resulting from cost control measures and lower labor expenses relating to two less working days in 2009;
- a \$9.6 million net gain related to a legal settlement for a claim that was settled and resolved in 2009;
- a \$9.3 million decrease in interest expense as a result of a lower average outstanding balance and a lower average interest rate under the line of credit;
- a \$6.3 million write-off of the deferred costs related to the IBM Master Professional Services Agreement and a \$1.5 million charge associated with a legal claim, both of which were recorded in 2008;
- a \$2.4 million decrease in expenses associated with the integration of OneSource's operations; and
- a \$2.4 million decrease in income taxes primarily due to a \$3.5 million year-over-year increase of discrete tax benefits;

partially offset by:

- a \$9.4 million adjustment to increase the self-insurance reserves related to prior year claims recorded in 2009 compared to a \$22.8 million adjustment to reduce self-insurance reserves related to prior years recorded in 2008 (accordingly, the year-over-year change in the self-insurance reserve adjustments resulted in a decrease in income from continuing operations before income taxes of \$32.2 million in 2009 as compared to 2008);
- a \$12.2 million increase in information technology costs, including higher depreciation costs related to the upgrade of the payroll, human resources and accounting systems;
- a \$6.5 million increase in professional fees, payroll and payroll related costs, and costs associated with the centralization of certain back office support functions; and
- a \$1.6 million credit loss associated with the other-than-temporary impairment of the Company's investment in auction rate securities.

Revenues. Revenues in 2009 decreased \$141.8 million, or 3.9%, to \$3,481.8 million from \$3,623.6 million in 2008. The Company and its clients continued to feel the negative impact of the weak economic environment which resulted in reductions in the level and scope of services provided to clients, contract price compression, the reduction of less profitable client contracts, loss of client contracts and a decline in the level of tag work as a result of decreases in client discretionary spending. However, approximately \$22.8 million, or 16.1%, of the decrease in revenues was due to the reduction of expenses incurred on the behalf of managed parking facilities, which were reimbursed to the Company. These reimbursed expenses were recognized as parking revenues and expenses and had no impact on operating profit.

Operating Expenses. As a percentage of revenues, gross margin was 10.5% and 11.0% in 2009 and 2008, respectively.

The gross margin percentages were affected by the following:

- a \$9.4 million adjustment to increase the self-insurance reserves related to prior year claims recorded in 2009 compared to a \$22.8 million adjustment to reduce self-insurance reserves related to prior years recorded in 2008 (accordingly, the year-over-year change in the self-insurance reserve adjustments resulted in a decrease in income from continuing operations before income taxes of \$32.2 million in 2009 as compared to 2008); and
- a \$9.6 million net gain related to a legal settlement for a claim that was settled and resolved in 2009.

Selling, General and Administrative Expenses. Selling, general and administrative expenses in 2009 decreased \$24.0 million, or 8.3%, to \$263.6 million from \$287.6 million in 2008.

The decrease in selling, general and administrative expenses was primarily related to:

- a \$28.7 million decrease in selling, general and administrative costs at the Janitorial segment, primarily attributable to cost control measures;
- the absence of a \$6.3 million write-off of the deferred costs related to the IBM Professional Services Agreement and a \$1.5 million charge associated with a legal claim, which were recorded in 2008; and
- a \$2.4 million decrease in expenses associated with the integration of OneSource's operations;

partially offset by:

- a \$12.2 million increase in information technology costs, including higher depreciation costs related to the upgrade of the payroll, human resources and accounting systems; and
- a \$6.5 million increase in professional fees, payroll and payroll related costs, and costs associated with the centralization of certain back office support functions.

Interest Expense. Interest expense in 2009 decreased \$9.3 million, or 61.3%, to \$5.9 million from \$15.2 million in 2008. The decrease was primarily related to a lower average outstanding balance and a lower average interest rate under the line of credit in 2009 compared to 2008. The average outstanding balance under the Company's line of credit was \$212.9 million and \$294.4 million in 2009 and 2008, respectively.

Provision for Income Taxes. The effective tax rate on income from continuing operations for 2009 was 34.5%, compared to 37.5% for 2008. The effective tax rates for 2009 and 2008 include \$4.4 million and \$0.9 million of discrete tax benefits, respectively. These tax benefits include the benefits of state tax rate increases on the carrying value of the Company's state deferred tax assets and employment based tax credits.

Discontinued Operations. The Company recorded a loss from discontinued operations of \$1.7 million (\$1.2 million, net of income tax benefits), or \$0.02 per diluted share, in 2009. The losses recorded were due to severance related costs and general and administrative transition costs. The effective tax rate on the loss from discontinued operations for 2009 was 30.6%, compared to 6.8% for 2008.

Janitorial. Janitorial revenues decreased \$110.2 million, or 4.4%, during 2009 compared to 2008. The decrease in revenues was primarily related to reductions in the level and scope of services provided to

clients, contract price compression, loss of client contracts and a decline in the level of tag work as a result of decreases in client discretionary spending.

Despite the reductions in revenue, operating profit increased \$21.3 million, or 18.0%, during 2009 compared to 2008. The increase was primarily related to cost control measures and lower labor expenses resulting from two less working days in 2009 compared to 2008.

Parking. Parking revenues decreased \$17.9 million, or 3.8%, during 2009 compared to 2008. The decrease was primarily a result of a \$22.8 million reduction of expenses incurred on the behalf of managed parking facilities, which are reimbursed to the Company. These reimbursed expenses are recognized as parking revenues and expenses, which have no impact on operating profit. The decrease in management reimbursement revenues was offset by a \$4.9 million increase in lease and allowance revenues from new clients and an increased level of service to existing clients.

Operating profit increased \$0.8 million, or 4.4%, during 2009 compared to 2008. The increase was primarily related to additional profit from the increase in lease and allowance revenues and decreases in discretionary and overhead costs.

Security. Security revenues increased \$1.1 million, or 0.3%, during 2009 compared to 2008. The increase in revenues was primarily related to additional revenues from new clients and the expansion of services to existing clients, partially offset by loss of certain client contracts.

Operating profit increased \$0.5 million, or 6.4%, during 2009 compared to 2008 primarily related to an increase in revenues and a decrease in discretionary and overhead costs, partially offset by loss of certain client contracts.

Engineering. Engineering revenues decreased \$14.2 million, or 4.4%, during 2009 compared to 2008, primarily related to the loss of client contracts, principally those with low gross profit margins, and the effects of two less working days in 2009 compared to 2008.

Despite the reduction in revenues, operating profit increased \$0.5 million, or 2.8%, during 2009 compared to 2008, primarily related to higher margins generated from contracts with new clients and decreases in discretionary and overhead costs.

Corporate. Corporate expense increased \$30.6 million, or 46.8%, during 2009 compared to 2008.

The increase in Corporate expense was primarily related to:

- a \$9.4 million adjustment to increase the self-insurance reserves related to prior year claims recorded in 2009 compared to a \$22.8 million adjustment to reduce self-insurance reserves related to prior years recorded in 2008 (accordingly, the year-over-year change in the self-insurance reserve adjustments resulted in a decrease in income from continuing operations before income taxes of \$32.2 million in 2009 as compared to 2008);
- a \$12.2 million increase in information technology costs, including higher depreciation costs related to the upgrade of the payroll, human resources and accounting systems; and
- a \$6.5 million increase in professional fees, payroll and payroll related costs, and costs associated with the centralization of certain back office support functions;

partially offset by:

- a \$9.6 million net legal gain related to a legal settlement for a claim that was settled and resolved in 2009;
- a \$6.3 million write-off of the deferred costs related to the IBM Master Professional Services Agreement and a \$1.5 million charge associated with a legal claim, both of which were recorded in 2008; and
- a \$2.4 million decrease in expenses associated with the integration of OneSource's operations.

Adoption of Accounting Standards

Effective November 1, 2009, the Company adopted the Financial Accounting Standards Board ("FASB") updated authoritative standard for accounting for business combinations, which is included in ASC Topic 805 "Business Combinations" ("ASC 805"). Upon adoption, on November 1, 2009, the Company expensed approximately \$1.0 million of deferred acquisition costs for acquisitions then being pursued. In addition, during 2010 the Company incurred an additional \$1.3 million of acquisition costs related to the acquisitions of L&R and Diversco and other acquisitions currently being pursued.

Effective November 1, 2009, the Company adopted the FASB updated authoritative standard for determining the useful life of intangible assets, which is included in ASC Topic 350-30 "General Intangibles Other than

Goodwill" ("ASC 350-30"). This authoritative standard amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset and requires additional disclosures. This authoritative standard must be applied prospectively to all intangible assets recognized as of the effective date. This authoritative standard had no impact on the Company's consolidated financial statements, but could impact the way in which the useful lives of intangible assets acquired in business combinations will be determined, if renewal or extension terms are apparent.

Effective November 1, 2009, the Company adopted the FASB updated authoritative standard on employers' disclosures about post-retirement benefit plan assets, which is included in ASC Topic 715 "Compensation — Retirement Benefits" ("ASC 715"). The authoritative standard expands the annual disclosures by requiring additional disclosures about how investment allocation decisions are made by management, major categories of plan assets and significant concentrations of risk. Additionally, an employer is now required to disclose information about the valuation of plan assets similar to the disclosure required under ASC Topic 820 "Fair Value Measurements and Disclosures" ("ASC 820"). This authoritative standard did not have an impact on the Company's consolidated financial statements as it only amended required annual disclosures. See Note 10 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data," for the required disclosures.

Effective November 1, 2009, the Company adopted the FASB authoritative standard on fair value measurements for non-financial assets and non-financial liabilities measured on a non-recurring basis, which is included in ASC 820. The Company's non-financial assets and non-financial liabilities principally consist of intangible assets acquired through business combinations and long-lived assets. During 2010, the Company did not re-measure any non-financial assets or non-financial liabilities to fair value, therefore, this authoritative standard did not have any impact on the Company's consolidated financial statements.

Effective February 1, 2010, the Company adopted FASB accounting standard update No. 2010-6, "Improving Disclosures about Fair Value Measurements," issued in January 2010 related to fair value measurements and disclosures, except for the additional gross presentation disclosure requirements for Level 3 changes which will be adopted in the first quarter of 2012. The update requires entities to make new disclosures about recurring or non-recurring fair value measurements of assets and liabilities, including: (1) the amounts of significant transfers between Level 1 and Level 2 fair value measurements and the reasons for the transfers; (2) the reasons for any transfers in or out of Level 3; and (3) information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of recurring Level 3 fair value measurements. The FASB also clarified existing fair value measurement disclosure guidance about the level of disaggregation of assets and liabilities, and information about the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. The Company did not have transfers of assets and liabilities between Level 1, Level 2 and/or Level 3 during 2010 and the required additional disclosures had no impact on the Company's financial position or results of operations. See Notes 4 and 5 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data," for the required disclosures.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. On an ongoing basis, the Company evaluates its estimates, including those related to self-insurance reserves, allowance for doubtful accounts, sales allowances, deferred income tax assets and valuation allowances, estimates of useful lives of intangible assets, impairment of goodwill and other intangibles, fair value of auction rate securities, cash flow forecasts, share-based compensation expense, and contingencies and litigation liabilities. The Company bases its estimates on historical experience, known or expected trends, independent valuations and various other assumptions that are believed to be reasonable under the circumstances based on information available as of the date of the issuance of these financial statements. The results of such assumptions form the basis for making estimates about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The current economic environment and its potential effect on the Company and its clients have combined to increase the uncertainty inherent in such estimates and assumptions. Future results could be significantly affected if actual results were to be different from these estimates and assumptions.

The Company believes the following critical accounting policies govern its more significant judgments and estimates used in the preparation of its consolidated financial statements.

Investments in Auction Rate Securities. The Company considers its investments in auction rate securities as "available for sale." Accordingly, auction rate securities are presented at fair value with changes in fair value recorded within other comprehensive income, unless a decline in fair value is determined to be other-than-temporary. The credit loss component of an other-than-temporary decline in fair value is recorded in earnings in the period identified. Fair value is estimated by considering, among other factors, assumptions about: (1) the underlying collateral; (2) credit risks associated with the issuer; (3) contractual maturity; (4) credit enhancements associated with any financial insurance guarantee, if any; and (5) assumptions about when, if ever, the security might be re-financed by the issuer or have a successful auction.

The Company's determination of whether impairments of its auction rate securities are other-than-temporary is based on an evaluation of several factors, circumstances and known or reasonably supportable trends including, but not limited to: (1) the Company's intent to not sell the securities; (2) the Company's assessment that it is not more likely than not that the Company will be required to sell the securities before recovering its cost basis; (3) expected defaults; (4) available ratings for the securities or the underlying collateral; (5) the rating of the associated guarantor (where applicable); (6) the nature and value of the underlying collateral expected to service the investment; (7) actual historical performance of the security in servicing its obligations; and (8) actuarial experience of the underlying re-insurance arrangement (where applicable) which in certain circumstances may have preferential rights to the underlying collateral. The Company's determination of whether an other-than-temporary impairment represents a credit loss is calculated by evaluating the difference between the present value of the cash flows expected to be collected and the security's amortized cost basis. Significant assumptions used in estimating credit losses include: (1) default rates for the security and the mono-line insurer, if any (which were based on published historical default rates of similar securities and consideration of current market trends) and (2) the expected life of the security (which represents the Company's view of when market efficiencies for securities may be restored).

Revenue Recognition. The Company earns revenues primarily under service contracts that are either fixed price, cost-plus or time and materials based. Revenues are recognized when earned, normally when services are performed. In all forms of service provided by the Company, revenue recognition follows the guidelines under Staff Accounting Bulletin ("SAB") No. 104, unless another form of guidance takes precedence over SAB No. 104. Revenues are reported net of applicable sales and use tax imposed on the related transaction.

The Janitorial segment primarily earns revenues from the following types of arrangements: fixed price, cost-plus, and tag (extra service) work. Fixed price arrangements are contracts in which the client agrees to pay a fixed fee every month over the specified contract term. A variation of a fixed price arrangement is a square-foot arrangement. Square-foot arrangements are ones in which monthly billings are fixed, however, the client is given a credit calculated based on vacant square footage that is not serviced. Cost-plus arrangements are ones in which the client agrees to reimburse the Company for the agreed upon amount of wages and benefits, payroll taxes, insurance charges and other expenses plus a profit percentage. Tag revenues are additional services requested by the client outside of the standard contract terms. This work is usually performed on short notice due to unforeseen events. The Janitorial segment recognizes revenues on each type of arrangement when services are performed.

The Parking segment earns revenues from parking and transportation services. There are three types of arrangements for parking services: managed lot, leased lot and allowance arrangements. Under managed lot arrangements, the Company manages the parking lot for the owner in exchange for a management fee. The revenues and expenses are passed through by the Company to the owner under the terms and conditions of the management contract. The management fee revenues are recognized when services are performed. The Company reports revenues and expenses, in equal amounts, for costs directly reimbursed from its managed parking lot clients. Such amounts totaled \$231.5 million, \$231.0 million and \$253.7 million in 2010, 2009 and 2008, respectively. Under leased lot arrangements, the Company leases the parking lot from the owner and is responsible for all expenses incurred, retains all revenues from monthly and transient parkers, and pays rent to the owner per the terms and conditions of the lease. Revenues are recognized when services are performed. Under allowance arrangements, the Company is paid a fixed or hourly fee to provide parking and/or transportation services. The Company is then responsible for

operating expenses. Revenues are recognized when services are performed.

The Security segment primarily performs scheduled post assignments under one-year service arrangements. Security services for special events are generally performed under temporary service agreements. Scheduled post assignments and temporary service agreements are billed based on actual hours of service at contractually specified rates. Revenues for both types of arrangements are recognized when services are performed.

The Engineering segment provides services primarily under cost-plus arrangements in which the client agrees to reimburse the Company for the full amount of wages, payroll taxes, insurance charges and other expenses plus a profit percentage. Revenues are recognized for these contracts when services are performed.

Self-Insurance Reserves. The Company is subject to certain insurable risks, such as workers' compensation, general liability, automobile and property damage. The Company maintains commercial insurance policies that provide \$150.0 million (or \$75.0 million with respect to claims acquired from OneSource in 2008) of coverage for certain risk exposures above the Company's deductibles (i.e., self-insurance retention limits). The Company's deductibles, currently and historically, have generally ranged from \$0.5 million to \$1.0 million per occurrence (in some cases somewhat higher in California). The Company is also responsible for claims in excess of its insurance coverage. Pursuant to some of the Company's management and service contracts, the Company allocates a portion of its insurance-related costs to certain clients, including workers' compensation insurance. A material change in the Company's insurance costs due to a change in the number of claims, costs or premiums, or changes in laws or other factors could have a material effect on operating results. Should the Company be unable to renew its umbrella and other commercial insurance policies at competitive rates, it would have an adverse impact on the Company's business, as would the incurrence of catastrophic uninsured claims or the inability or refusal of the insurance carriers to pay otherwise insured claims. Further, to the extent the Company self-insures, deterioration in claims management could increase claim costs. Additionally, although the Company engages third-party experts to assist in estimating appropriate self-insurance accounting reserves, the determination of those reserves is dependent upon significant actuarial judgments that have a material impact on the Company's reserves. Changes in the Company's insurance reserves, as a result of periodic evaluations of the related liabilities, will likely cause significant volatility in the Company's operating results that might not be indicative of the operations of the Company's ongoing business.

Liabilities for claims under the Company's self-insurance program are recorded on an undiscounted, claims-incurred basis. Associated amounts that are expected to be recovered by insurance are presented as "insurance recoverables." Assets and liabilities related to the Company's insurance programs are classified based upon the timing of expected payment or recovery. The Company allocates current-year insurance expense to its operating segments based upon their underlying exposures.

Trade Accounts Receivable Allowances

Allowance for Doubtful Accounts

Trade accounts receivable arise from services provided to the Company's clients and are generally due and payable on terms varying from receipt of the invoice to net thirty days. The Company records an allowance for doubtful accounts to provide for losses on accounts receivable due to a client's inability to pay. The allowance is typically estimated based on an analysis of the historical rate of credit losses or write-offs (due to a client bankruptcy or failure of a former client to pay), specific client concerns and known or expected trends. Such analysis is inherently subjective. The Company's earnings will be impacted in the future to the extent that actual credit loss experience differs from amounts estimated. Changes in the financial condition of the Company's clients or adverse developments in negotiations or legal proceedings to obtain payment could result in the actual loss exceeding the estimated allowance. The Company does not believe that it has any material exposure due to either industry or regional concentrations of credit risk.

Sales Allowance

Sales allowance is an estimate for losses on client receivables resulting from client credits. Credits result from, among other things, client vacancy discounts, job cancellations and property damage. The sales allowance estimate is based on an analysis of the historical rate of sales adjustments (credit memos, net of re-bills) and considers known current or expected trends. Such analysis is inherently subjective. The Company's earnings will be impacted in the future to the extent that actual credit experience differs from amounts estimated.

Long-Lived Assets Other Than Goodwill. The Company reviews its long-lived assets for impairment whenever events or circumstances indicate that the carrying amount of an asset may not be recoverable. When such events or changes in circumstances occur, a recoverability test is performed comparing projected undiscounted cash flows from the use and eventual disposition of an asset or asset group to its carrying amount. If the projected undiscounted cash flows are less than the carrying amount, an impairment is recorded for the excess of the carrying amount over the estimated fair value, which is generally determined using discounted future cash flows.

The Company's intangible assets primarily consist of acquired customer contracts and relationships. Acquired customer relationship intangible assets are being amortized using the sum-of-the-years-digits method over their useful lives consistent with the estimated useful life considerations used in the determination of their fair values. The accelerated method of amortization reflects the pattern in which the economic benefits of the customer relationship intangible assets are expected to be realized.

Goodwill. Goodwill represents the excess of costs over the fair value of net assets of acquired businesses. The Company assesses impairment of goodwill at least annually as of August 1 at the reporting unit level (which for the Company is represented by each operating segment). The impairment test is performed in two steps: (i) the Company determines whether impairment exists by comparing the estimated fair value of each reporting unit with its carrying amount; and (ii) if an indication of impairment exists, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with its carrying amount. The estimated fair value of each reporting unit was significantly in excess of their respective carrying amounts as of the measurement date.

Income Taxes. The Company's deferred tax assets and liabilities are determined based on temporary differences between financial reporting and tax bases of assets and liabilities, and applying enacted tax rates expected to be in effect for the year in which the differences are expected to reverse. If management determines it is more-likely-than-not that a portion of the Company's deferred tax assets will not be realized, a valuation allowance is recorded. The provision for income taxes is based on domestic (including federal and state) and international statutory income tax rates in the tax jurisdictions where the Company operates, permanent differences between financial reporting and tax reporting, and available credits and incentives. Interest and penalties related to uncertain tax positions are recognized in income tax expense. The U.S federal government is the Company's most significant income tax jurisdiction.

Significant judgment is required in determining income tax provisions and tax positions. The Company may be challenged upon review by the applicable taxing authorities and positions taken may not be sustained. All, or a portion of, the benefit of income tax positions are recognized only when the Company has made a determination that it is more-likely-than-not that the tax position will be sustained upon examination, based upon the technical merits of the position and other factors. For tax positions that are determined as more-likely-than-not to be sustained upon examination, the tax benefit recognized is the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. The development of reserves for income tax positions requires consideration of timing and judgments about tax issues and potential outcomes, and is a subjective critical estimate. In certain circumstances, the ultimate outcome of exposures and risks involves significant uncertainties. If actual outcomes differ materially from these estimates, they could have a material impact on the Company's results of operations and financial condition.

Contingencies and Litigation. Loss contingencies are recorded as liabilities when they are both: (1) probable or known that a liability has been incurred and (2) the amount of the loss is reasonably estimable. If the reasonable estimate of the loss is a range and no amount within the range is a better estimate, the minimum amount of the range is recorded as a liability. If the Company believes that a loss in litigation is not probable, then no liability will be recorded unless the parties agree upon a settlement, which may occur because the Company wishes to avoid the costs of litigation. Expected costs of resolving contingencies, which include the use of third-party service providers, are accrued as the services are rendered.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk Sensitive Instruments

The Company's primary market risk exposure is interest rate risk. The potential impact of adverse increases in this risk is discussed below. The following sensitivity analysis does not consider the effects that an adverse change may have on the overall economy nor does it consider actions the Company may take to mitigate its exposure to these changes. Results of changes in actual rates may differ materially from the following hypothetical results.

Interest Rate Risk

Line of Credit

At October 31, 2010, the Company's exposure to interest rate risk related primarily to its cash equivalents and London Interbank Offered Rate ("LIBOR") and Interbank Offered Rate ("IBOR") based borrowings under the old Facility. At October 31, 2010, outstanding LIBOR and IBOR based borrowings of \$140.5 million represented 100% of the Company's total debt obligations. A hypothetical 1% increase or decrease in interest rates during 2010 on the average outstanding borrowings under the old Facility, net of the interest rate swap agreements, would have added to or reduced interest expense by approximately \$0.6 million in 2010.

In connection with the acquisition of Linc, the Company terminated the old Facility on November 30, 2010 and replaced it with the new Facility. The new Facility is scheduled to expire on November 30, 2015. See Note 16 of the Notes to the Consolidated Financial Statements contained in Item 8, "Financial Statements and Supplementary Data," for additional information.

Interest Rate Swaps

On February 19, 2009, the Company entered into a two-year interest rate swap agreement with an underlying notional amount of \$100.0 million, pursuant to which the Company receives variable interest payments based on LIBOR and pays fixed interest at a rate of 1.47%.

On October 19, 2010, the Company entered into a three-year forward starting interest rate swap agreement with an underlying notional amount of \$25.0 million, pursuant to which the Company receives variable interest payments based on LIBOR and pays fixed interest at a rate of 0.89%. The effective date of the hedge is February 24, 2011.

These swaps are intended to hedge the interest risk associated with the Company's forecasted floating-rate, LIBOR-based debt. As of October 31, 2010, the critical terms of the swaps match the terms of the debt, resulting in no hedge ineffectiveness. On an ongoing basis (no less than once each quarter), the Company assesses whether its LIBOR-based interest payments are probable of being paid during the life of the hedging relationship. The Company also assesses the counterparty credit risk, including credit ratings and potential non-performance of the counterparties, when determining the fair value of the swaps.

As of October 31, 2010, the fair value of the interest rate swaps was a \$0.4 million liability, of which \$0.3 million and \$0.1 million were included in Other accrued liabilities and Retirement plans and other, respectively, on the accompanying consolidated balance sheet. The effective portion of these cash flow hedges is recorded as accumulated other comprehensive loss in the Company's accompanying consolidated balance sheet and reclassified into interest expense in the Company's accompanying consolidated statements of income in the same period during which the hedged transactions affect earnings. Any ineffective portion of the hedges is recorded immediately to interest expense. No ineffectiveness existed at October 31, 2010. The amount included in accumulated other comprehensive loss is \$0.4 million (\$0.3 million, net of taxes).

Investment in Auction Rate Securities

At October 31, 2010, the Company held investments in auction rate securities from five different issuers having an aggregate original principal amount of \$25.0 million. The investments are not subject to material interest rate risk. These auction rate securities are debt instruments with stated maturities ranging from 2025 to 2050, for which the interest rate is designed to be reset through Dutch auctions approximately every 30 days based on spreads to a base rate (i.e., LIBOR). A hypothetical 1% increase in interest rates during 2010 would have added approximately \$0.3 million of additional interest income in 2010.

Foreign Currency

Substantially all of the operations of the Company are conducted in the United States, and, as such, are not subject to material foreign currency exchange rate risk.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
ABM Industries Incorporated:

We have audited the accompanying consolidated balance sheets of ABM Industries Incorporated and subsidiaries as of October 31, 2010 and 2009, and the related consolidated statements of income, stockholders' equity and comprehensive income, and cash flows for each of the years in the three-year period ended October 31, 2010. In connection with our audits of the consolidated financial statements, we have also audited the related financial statement Schedule II. We have also audited ABM Industries Incorporated's internal control over financial reporting as of October 31, 2010, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). ABM Industries Incorporated's management is responsible for these consolidated financial statements, the related financial statement Schedule II, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting (Item 9A(b)). Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of ABM Industries Incorporated and subsidiaries as of October 31, 2010 and 2009, and the results of their operations and their cash flows for each of the years in the three-year period ended October 31, 2010, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement Schedule II, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein. Also in our opinion, ABM Industries Incorporated maintained, in all material respects, effective internal control over financial reporting as of October 31, 2010, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

ABM Industries Incorporated and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. THE COMPANY AND NATURE OF OPERATIONS

ABM Industries Incorporated ("ABM"), through its subsidiaries (collectively, the "Company"), is a leading facility services contractor providing janitorial, parking, security and engineering services for commercial, industrial, institutional and retail facilities primarily throughout the United States. The Company was reincorporated in Delaware on March 19, 1985, as the successor to a business founded in California in 1909.

On December 1, 2010, the Company acquired The Linc Group, LLC ("Linc") for an aggregate purchase price of approximately \$301.0 million, subject to certain adjustments. See Note 16, "Subsequent Events" for additional information.

2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements include the accounts of ABM Industries Incorporated and its consolidated subsidiaries and are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). All intercompany accounts and transactions have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. On an ongoing basis, the Company evaluates its estimates, including those related to self-insurance reserves, allowance for doubtful accounts, sales allowances, deferred income tax assets and valuation allowances, estimate of useful lives of intangible assets, impairment of goodwill and other intangibles, fair value of auction rate securities, cash flow forecasts, share-based compensation expense, and contingencies and litigation liabilities. The Company bases its estimates on historical experience, known or expected trends, independent valuations and various other assumptions that are believed to be reasonable under the circumstances based on information available as of the date of the issuance of these financial statements. The results of such assumptions form the basis for making estimates about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The current economic environment and its potential effect on the Company and its clients have combined to increase the uncertainty inherent in such estimates and assumptions. Future results could be significantly affected if actual results were to be different from these estimates and assumptions.

Significant Accounting Policies

Cash and Cash Equivalents. The Company considers all highly liquid instruments with original maturities of three months or less at the date of purchase to be cash equivalents. The Company presents the change in book cash overdrafts (i.e., negative book cash balances that have not been presented to the bank for payment) as cash flows from financing activities.

Investments in Auction Rate Securities. The Company considers its investments in auction rate securities as "available for sale." Accordingly, auction rate securities are presented at fair value with changes in fair value recorded within other comprehensive income ("OCI"), unless a decline in fair value is determined to be other-than-temporary. The credit loss component of an other-than-temporary decline in fair value is recorded in earnings in the period identified. See Note 5, "Auction Rate Securities," for additional information.

Revenue Recognition. The Company earns revenues primarily under service contracts that are fixed price, cost-plus, or time and materials based. Revenues are recognized when earned, normally when services are performed. In all forms of service provided by the Company, revenue recognition follows the guidelines under Staff Accounting Bulletin ("SAB") No. 104, unless another form of guidance takes precedence over SAB No. 104. Revenues are reported net of applicable sales and use tax imposed on the related transaction.

The Janitorial segment primarily earns revenues from the following types of arrangements: fixed price, cost-plus, and tag (extra service) work. Fixed price arrangements are contracts in which the client agrees to pay a fixed fee every month over the specified contract term. A variation of a fixed price arrangement is a square-foot arrangement. Square-foot arrangements are ones in which monthly billings are fixed, however, the client is given a credit based on vacant square footage that is not serviced. Cost-plus arrangements are ones in which the client agrees to reimburse the Company for the agreed upon amount of wages and benefits, payroll taxes, insurance charges and other expenses plus a profit percentage. Tag revenues are additional services requested by the client outside of the standard contract terms. This work is usually performed on short notice

due to unforeseen events. The Janitorial segment recognizes revenues on each type of arrangement when services are performed.

The Parking segment earns revenues from parking and transportation services. There are three types of arrangements for parking services: managed lot, leased lot and allowance arrangements. Under managed lot arrangements, the Company manages the parking lot for the owner in exchange for a management fee. The revenues and expenses are passed through by the Company to the owner under the terms and conditions of the management contract. The management fee revenues are recognized when services are performed. The Company reports revenues and expenses, in equal amounts, for costs directly reimbursed from its managed parking lot clients. Such amounts totaled \$231.5 million, \$231.0 million and \$253.7 million for the years ended October 31, 2010, 2009 and 2008, respectively. Under leased lot arrangements, the Company leases the parking lot from the owner and is responsible for all expenses incurred, retains all revenues from monthly and transient parkers, and pays rent to the owner per the terms and conditions of the lease. Revenues are recognized when services are performed. Under allowance arrangements, the Company is paid a fixed or hourly fee to provide parking and/or transportation services. The Company is then responsible for operating expenses. Revenues are recognized when services are performed.

The Security segment primarily performs scheduled post assignments under one-year service arrangements. Security services for special events are generally performed under temporary service agreements. Scheduled post assignments and temporary service agreements are billed based on actual hours of service at contractually specified rates. Revenues for both types of arrangements are recognized when services are performed.

The Engineering segment provides services primarily under cost-plus arrangements in which the client agrees to reimburse the Company for the full amount of wages, payroll taxes, insurance charges and other expenses plus a profit percentage. Revenues are recognized for these contracts when services are performed.

Self-Insurance Reserves. The Company is subject to certain insurable risks, such as workers' compensation, general liability, automobile and property damage. The Company maintains commercial insurance policies that provide \$150.0 million (or \$75.0 million with respect to claims acquired from OneSource Services, Inc. ("OneSource") in the year ended October 31, 2008) of coverage for certain risk exposures above the Company's deductibles (i.e., self-insurance retention limits). The Company's deductibles, currently and historically, have generally ranged from \$0.5 million to \$1.0 million per occurrence (in some cases somewhat higher in California). The Company is also responsible for claims in excess of its insurance coverage. A material change in the Company's insurance costs due to a change in the number of claims, costs or premiums, or changes in laws or other factors could have a material effect on operating results. Should the Company be unable to renew its umbrella and other commercial insurance policies at competitive rates, it would have an adverse impact on the Company's business, as would the incurrence of catastrophic uninsured claims or the inability or refusal of the insurance carriers to pay otherwise insured claims. Further, to the extent that the Company self-insures, deterioration in claims management could increase claim costs. Additionally, although the Company engages third-party experts to assist in estimating appropriate self-insurance accounting reserves, the determination of those reserves is dependent upon significant actuarial judgments that have a material impact on the Company's reserves. Changes in the Company's insurance reserves, as a result of periodic evaluations of the related liabilities, will likely cause significant volatility in the Company's operating results that might not be indicative of the operations of the Company's ongoing business.

Liabilities for claims under the Company's self-insurance program are recorded on an undiscounted, claims-incurred basis. Associated amounts that are expected to be recovered by insurance are presented as "insurance recoverables." Assets and liabilities related to the Company's insurance programs are classified based upon the timing of expected payment or recovery. The Company allocates current-year insurance expense to its operating segments based upon their underlying exposures.

In connection with the OneSource acquisition (see Note 3, "Acquisitions"), acquired insurance claims liabilities were recorded at their fair values at the acquisition date, which was based on the present value of the expected future cash flows. These discounted liabilities are being accreted through charges to interest expense as the carrying amounts are brought to an undiscounted amount. The method of accretion approximates the effective interest yield method using the rate a market participant would use in determining the current fair value of the insurance claim liabilities. Included in interest expense in the years ended October 31, 2010 and 2009 were \$0.9 million and \$1.2 million of interest accretion related to insurance claims liabilities, respectively.

Trade Accounts Receivable Allowances

Allowance for Doubtful Accounts

Trade accounts receivable arise from services provided to the Company's clients and are generally due and payable on terms varying from receipt of the invoice to net thirty days. The Company records an allowance for doubtful accounts to provide for losses on accounts receivable due to a client's inability to pay. The allowance is typically estimated based on an analysis of the historical rate of credit losses or write-offs (due to a client bankruptcy or failure of a former client to pay), specific client concerns and known or expected trends. Such analysis is inherently subjective. The Company's earnings will be impacted in the future to the extent that actual credit loss experience differs from amounts estimated. Changes in the financial condition of the Company's clients or adverse developments in negotiations or legal proceedings to obtain payment could result in the actual loss exceeding the estimated allowance. The Company does not believe that it has any material exposure due to either industry or regional concentrations of credit risk.

Sales Allowance

Sales allowance is an estimate for losses on client receivables resulting from client credits. Credits result from, among other things, client vacancy discounts, job cancellations and property damage. The sales allowance estimate is based on an analysis of the historical rate of sales adjustments (credit memos, net of re-bills) and considers known current or expected trends. Such analysis is inherently subjective. The Company's earnings will be impacted in the future to the extent that actual credit experience differs from amounts estimated.

Property, Plant and Equipment. Property, plant and equipment is recorded at historical cost. Depreciation and amortization are recognized on a straight-line basis over estimated useful lives, ranging from: 3 to 5 years for transportation equipment and capitalized internal-use software costs; 2 to 20 years for machinery and equipment; and 20 to 40 years for buildings. Leasehold improvements are amortized over the shorter of their estimated useful lives or the remaining lease term (including renewals that are deemed to be reasonably assured at the date that the leasehold improvements are purchased).

Long-Lived Assets Other Than Goodwill. The Company reviews its long-lived assets for impairment whenever events or circumstances indicate that the carrying amount of an asset may not be recoverable. When such events or changes in circumstances occur, a recoverability test is performed comparing projected undiscounted cash flows from the use and eventual disposition of an asset or asset group to its carrying amount. If the projected undiscounted cash flows are less than the carrying amount, an impairment is recorded for the excess of the carrying amount over the estimated fair value, which is generally determined using discounted future cash flows.

The Company's intangible assets consist of acquired customer contracts and relationships, trademarks and trade names, and contract rights. Acquired customer relationship intangible assets are being amortized using the sum-of-the-years-digits method over their useful lives consistent with the estimated useful life considerations used in the determination of their fair values. The accelerated method of amortization reflects the pattern in which the economic benefits of the customer relationship intangible assets are expected to be realized. Trademarks and trade names are being amortized over their useful lives using the straight-line method. Contract rights are being amortized over the contract periods using the straight-line method.

Goodwill. Goodwill represents the excess of costs over the fair value of net assets of acquired businesses. The Company assesses impairment of goodwill at least annually as of August 1 at the reporting unit level (which for the Company is represented by each operating segment). The impairment test is performed in two steps: (i) the Company determines whether impairment exists by comparing the estimated fair value of each reporting unit with its carrying amount; and (ii) if an indication of impairment exists, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with its carrying amount.

Other Accrued Liabilities. Other accrued liabilities as of October 31, 2010 and 2009 primarily consists of employee benefits, dividends payable, loss contingencies, rent payable, and unclaimed property.

Share-Based Compensation. Share-based compensation expense is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period) for awards expected to vest (considering estimated forfeitures). The Company estimates the fair value of stock options using the Black-Scholes option-pricing model. The fair value of restricted stock and performance awards is determined based on the number of shares granted and the grant date fair value of the award. The estimation of stock awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from the Company's current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. The Company considers many factors when estimating expected forfeitures,

including types of awards, employee class, and historical experience. Stock option exercises and restricted stock and performance award issuances are expected to be fulfilled with new shares of common stock. Share-based compensation expense is included in selling, general and administrative expenses and is amortized on a straight-line basis over the vesting term.

Income Taxes. The Company's deferred tax assets and liabilities are determined based on temporary differences between financial reporting and tax bases of assets and liabilities, and applying enacted tax rates expected to be in effect for the year in which the differences are expected to reverse. If management determines it is more-likely-than-not that a portion of the Company's deferred tax assets will not be realized, a valuation allowance is recorded. The provision for income taxes is based on domestic (including federal and state) and international statutory income tax rates in the tax jurisdictions where the Company operates, permanent differences between financial reporting and tax reporting, and available credits and incentives. Interest and penalties related to uncertain tax positions are recognized in income tax expense. The U.S federal government is the Company's most significant income tax jurisdiction.

Significant judgment is required in determining income tax provisions and tax positions. The Company may be challenged upon review by the applicable taxing authorities and positions taken may not be sustained. All, or a portion of, the benefit of income tax positions are recognized only when the Company has made a determination that it is more-likely-than-not that the tax position will be sustained upon examination, based upon the technical merits of the position and other factors. For tax positions that are determined as more-likely-than-not to be sustained upon examination, the tax benefit recognized is the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. The development of reserves for income tax positions requires consideration of timing and judgments about tax issues and potential outcomes, and is a subjective critical estimate. In certain circumstances, the ultimate outcome of exposures and risks involves significant uncertainties. If actual outcomes differ materially from these estimates, they could have a material impact on the Company's results of operations and financial condition.

Net Income per Common Share. Basic net income per common share is net income divided by the weighted average number of shares outstanding during the period. Diluted net income per common share is based on the weighted average number of shares outstanding during the period, adjusted to include the assumed exercise and conversion of certain stock options, restricted stock units ("RSUs") and performance shares. The calculations of basic and diluted net income per common share are as follows:

Years Ended October 31, (In thousands, except per share data)	2010	2009	2008
Income from continuing operations	\$ 63,870	\$ 55,490	\$ 52,731
Income (loss) from discontinued operations, net of taxes	251	(1,197)	(7,297)
Net income	\$ 64,121	\$ 54,293	\$ 45,434
Weighted-average common shares outstanding — Basic	52,117	51,373	50,519
Effect of dilutive securities:			
Stock options	446	241	652
Restricted stock units	261	180	145
Performance shares	84	51	70
Weighted-average common shares outstanding — Diluted	52,908	51,845	51,386
Net income per common share			
Basic	\$ 1.23	\$ 1.06	\$ 0.90
Diluted	\$ 1.21	\$ 1.05	\$ 0.88

The diluted net income per common share excludes certain stock options and RSUs since the effect of including these stock options and restricted stock units would have been anti-dilutive as follows:

Years Ended October 31, (In thousands)	2010	2009	2008
Stock options	744	2,017	781
Restricted stock units	29	206	98

Contingencies and Litigation. Loss contingencies are recorded as liabilities when they are both: (1) probable or known that a liability has been incurred and (2) the amount of the loss is reasonably estimable. If the reasonable estimate of the loss is a range and no amount within the range is a better estimate, the minimum amount of the range is recorded as a liability. If the Company believes that a loss in litigation is not probable, then no liability will be recorded unless the parties agree upon a settlement, which may occur because the Company wishes to avoid the costs of litigation. Expected costs of resolving contingencies, which include the use of third-party service providers, are accrued as the services are rendered.

Accumulated Other Comprehensive Income (Loss). Comprehensive income consists of (i) net income and (ii) other related gains and losses affecting stockholders' equity that, under GAAP, are excluded from net income. For the Company, such OCI items consist primarily of unrealized gains and losses on auction rate securities, unrealized losses on interest rate swaps, actuarial adjustments to pension and other post-retirement benefit plans, and unrealized foreign currency translation gains and losses, net of tax effects where appropriate.

Adoption of Accounting Standards

Effective November 1, 2009, the Company adopted the Financial Accounting Standards Board ("FASB") updated authoritative standard for accounting for business combinations, which is included in Accounting Standards Codification™ ("ASC") Topic 805 "Business Combinations" ("ASC 805"). Upon adoption, on November 1, 2009, the Company expensed approximately \$1.0 million of deferred acquisition costs for acquisitions then being pursued. In addition, during 2010 the Company incurred an additional \$1.3 million of acquisition costs related to the acquisitions of Five Star Parking, Network Parking Company Ltd. and System Parking Inc. ("L&R") and Diversco, Inc. ("Diversco") and other acquisitions currently being pursued.

Effective November 1, 2009, the Company adopted the FASB updated authoritative standard for determining the useful life of intangible assets, which is included in ASC Topic 350-30 "General Intangibles Other than Goodwill" ("ASC 350-30"). This authoritative standard amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset and requires additional disclosures. This authoritative standard must be applied prospectively to all intangible assets recognized as of the effective date. This authoritative standard had no impact on the Company's consolidated financial statements, but could impact the way in which the useful lives of intangible assets acquired in business combinations will be determined, if renewal or extension terms are apparent.

Effective November 1, 2009, the Company adopted the FASB updated authoritative standard on employers' disclosures about post-retirement benefit plan assets, which is included in ASC Topic 715 "Compensation — Retirement Benefits" ("ASC 715"). This authoritative standard expands the annual disclosures by requiring additional disclosures about how investment allocation decisions are made by management, major categories of plan assets and significant concentrations of risk. Additionally, an employer is now required to disclose information about the valuation of plan assets similar to the disclosure required under ASC Topic 820 "Fair Value Measurements and Disclosures" ("ASC 820"). This authoritative standard did not have an impact on the Company's consolidated financial statements as it only amended required annual disclosures. See Note 10, "Employee Benefit Plans," for the required disclosures.

Effective November 1, 2009, the Company adopted the FASB authoritative standard on fair value measurements for non-financial assets and non-financial liabilities measured on a non-recurring basis, which is included in ASC 820. The Company's non-financial assets and non-financial liabilities principally consist of intangible assets acquired through business combinations and long-lived assets. During the year ended October 31, 2010, the Company did not re-measure any non-financial assets or non-financial liabilities to fair value, therefore, this authoritative standard did not have any impact on the Company's consolidated financial statements.

Effective February 1, 2010, the Company adopted FASB accounting standard update No. 2010-6, "Improving Disclosures about Fair Value Measurements," issued in January 2010 related to fair value measurements and disclosures, except for the additional gross presentation disclosure requirements for Level 3 changes which will be adopted in the first quarter of 2012. The update requires entities to make new disclosures about recurring or non-recurring fair value measurements of assets and liabilities, including: (1) the amounts of significant transfers between Level 1 and Level 2 fair value measurements and the reasons for the transfers; (2) the reasons for any transfers in or out of Level 3; and (3) information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of recurring Level 3 fair value measurements. The FASB also clarified existing fair value measurement disclosure guidance about the level of disaggregation of assets and liabilities, and information about the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. The Company did not have transfers of assets and liabilities between Level 1, Level 2 and/or Level 3 during 2010, and the required additional disclosures had no impact on the Company's financial position or results of operations. See Note 4, "Fair Value Measurements" and Note 5, "Auction Rate Securities" for the required disclosures.

3. ACQUISITIONS

The operating results generated by businesses acquired have been included in the accompanying consolidated financial statements from their respective dates of acquisition. The excess of the purchase price (including subsequent contingent purchase price considerations for acquisitions made prior to the adoption of the FASB updated authoritative standard for accounting for business combinations on November 1, 2009) over the fair value of the net tangible and intangible assets acquired is included in goodwill. Some of the Company's purchase agreements provide for initial payments and contingent payments based on the annual pre-tax income or other financial parameters for subsequent periods, ranging generally from two to five years.

The Company made the following acquisitions during the year ended October 31, 2010:

Diversco

On June 30, 2010, the Company acquired all of the outstanding shares of Diversco from DHI Holdings, Inc. for \$30.6 million in cash and incurred direct acquisition costs of \$0.2 million, which were expensed as incurred. The purchase price was subsequently adjusted to \$30.4 million in connection with a working capital adjustment. Diversco is a national provider of outsourced facility services. The acquisition expands the geographic reach of the Company's janitorial and security businesses, particularly in the Southeast, Midwest and Mid-Atlantic regions of the United States. The results of operations for Diversco are included in the Company's Janitorial and Security segments as of the acquisition date. The amounts of Diversco's revenues and operating profit included in the Company's consolidated statements of income for 2010 were \$28.1 million and \$1.2 million, respectively. Pro forma financial information for this acquisition is not provided as this acquisition is not material to the Company's financial statements.

The allocation of the purchase price to the underlying net assets acquired and liabilities assumed was based on their estimated fair values as of the acquisition date, June 30, 2010, with any excess of the purchase price allocated to goodwill. During the three months ended October 31, 2010, the Company further adjusted goodwill related to its acquisition of Diversco by \$0.4 million for a self-insurance reserve adjustment based on the final actuarial analysis of assumed insurance liabilities obtained.

The final purchase price and related allocations are summarized as follows:

Therefore, no deferred taxes have been recorded.

L&R

On October 1, 2010, the Company acquired select assets of L&R from the L&R Group of Companies for an aggregate purchase price of \$34.7 million, including \$0.2 million of assets distributed as consideration. The goodwill of \$30.2 million is deductible for tax purposes.

Contingent Payments

Total additional consideration paid during the year ended October 31, 2010 related to prior years acquisitions totaled \$3.3 million. The additional consideration represents contingent amounts based on financial performance subsequent to the respective acquisition dates and has been recorded as goodwill.

The Company made the following acquisition during the year ended October 31, 2009:

Control Building Services, Inc., Control Engineering Services, Inc. and TTF, Inc. ("Control")

Effective May 1, 2009, the Company acquired certain assets (primarily customer contracts and relationships) of Control for \$15.1 million in cash, which includes direct acquisition costs of \$0.1 million, plus additional consideration of up to \$1.6 million, payable in three equal installments of \$0.5 million, contingent upon the achievement of certain revenue targets during the three year period commencing on May 1, 2009. The acquisition closed on May 8, 2009 and was accounted for under the purchase method of accounting. The acquisition expands the Company's janitorial and engineering service offerings to clients in the Northeast region.

Goodwill of \$5.6 million was assigned to the Janitorial and Engineering segments in the amounts of \$4.4 million and \$1.2 million, respectively. Intangible assets were assigned to the Janitorial and Engineering segments in the amounts of \$7.2 million and \$1.9 million, respectively. Pro forma financial information for this acquisition is not provided as this acquisition is not material to the Company's financial statements.

OneSource provides facilities services, including janitorial, landscaping, general repair and maintenance, and other specialized services, for commercial, industrial, institutional and retail client facilities, primarily in the United States. OneSource's operations are included in the Company's Janitorial segment from the date of acquisition. The OneSource acquisition was accounted for using the purchase method of accounting. On January 4, 2008, the Company acquired the remaining equity of Southern Management for \$24.4 million, including direct acquisition costs of \$0.4 million. Of the \$24.4 million purchase price, \$18.7 million was allocated to goodwill and the remaining \$5.7 million eliminated the minority interest. An additional \$2.9 million was paid in March 2008 to the other shareholders of Southern Management with respect to undistributed 2007 earnings. This amount was allocated to goodwill. Southern Management's operations are included in the Janitorial segment.

4. FAIR VALUE MEASUREMENTS

As required by ASC 820, fair value is determined based on inputs or assumptions that market participants would use in pricing an asset or a liability. These assumptions consist of (1) observable inputs — market data obtained from independent sources, or (2) unobservable inputs - market data determined using the Company's own assumptions about valuation. ASC 820 establishes a hierarchy to prioritize the inputs to valuation techniques, with the highest priority being given to Level 1 inputs and the lowest priority to Level 3 inputs, as described below:

Level 1 — Quoted prices for identical instruments in active markets;

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets; and

Level 3 — Unobservable inputs.

The following tables present the Company's hierarchy for financial assets and liabilities measured at fair value on a recurring basis as of October 31, 2010 and 2009:

(In thousands)	Fair Value at October 31, 2010	Fair Value Measurements Using Inputs Considered as		
		Level 1	Level 2	Level 3

Assets held in funded deferred compensation plan	\$ 5,717	\$ 5,717	\$ —	\$ —
Investments in auction rate securities	20,171	—	—	20,171
Total assets	\$ 25,888	\$ 5,717	\$ —	\$ 20,171
Liabilities

Total liabilities	\$ 445	\$ —	\$ 445	\$ —

(In thousands)	Fair Value at October 31, 2009	Fair Value Measurements Using Inputs Considered as		
		Level 1	Level 2	Level 3
Assets				
Assets held in funded deferred compensation plan	\$ 6,006	\$ 6,006	\$ —	\$ —
Investments in auction rate securities	19,531	—	—	19,531
Total assets	\$ 25,537	\$ 6,006	\$ —	\$ 19,531
Liabilities				
Interest rate swap	\$ 1,014	\$ —	\$ 1,014	\$ —
Total liabilities	\$ 1,014	\$ —	\$ 1,014	\$ —

The fair value of the assets held in the funded deferred compensation plan is based on quoted market prices. The assets are included in Other assets on the accompanying consolidated balance sheet.

The fair value of the investments in auction rate securities are based on discounted cash flow valuation models, primarily utilizing unobservable inputs. During the year ended October 31, 2010, the Company had no transfers of assets or liabilities between any of the above hierarchy levels. See Note 5, "Auction Rate Securities," for the roll-forwards of assets measured at fair value using significant unobservable Level 3 inputs.

The fair value of the interest rate swaps are estimated based on the present value of the difference between expected cash flows calculated at the contracted interest rates and the expected cash flows at current market interest rates using observable benchmarks for London Interbank Offered Rate forward rates at the end of the period. See Note 9, "Line of Credit Facility."

Other Financial Assets and Liabilities

Due to the short-term maturities of the Company's cash, cash equivalents, receivables, payables, and current assets and liabilities of discontinued operations, the carrying value of these financial instruments approximates their fair market values. Due to the variable interest rates, the fair value of outstanding borrowings under the Company's \$450.0 million line of credit approximates its carrying value of \$140.5 million. The carrying value of the receivables included in non-current assets of discontinued operations of \$1.4 million and in the acquired insurance deposits related to acquired self-insurance claims of \$36.2 million approximates fair market value.

5. AUCTION RATE SECURITIES

As of October 31, 2010, the Company held investments in auction rate securities from five different issuers having an original principal amount of \$5.0 million each (aggregating \$25.0 million). At October 31, 2010 and October 31, 2009, the estimated fair value of these securities, in total, was approximately \$20.2 million and \$19.5 million, respectively. These auction rate securities are debt instruments with stated maturities ranging from 2025 to 2050, for which the interest rate is designed to be reset through Dutch auctions approximately every 30 days. Auctions for these securities have not occurred since August 2007.

The Company estimates the fair values of auction rate securities it holds utilizing a discounted cash flow model, which considers, among other factors, assumptions about: (1) the underlying collateral; (2) credit risks associated with the issuer; (3) contractual maturity; (4) credit enhancements associated with financial insurance guarantees, if any; and (5) assumptions about when, if ever, the security might be re-financed by the issuer or have a successful auction. Since there can be no assurance that auctions for these securities will be successful in the near future, the Company has classified its auction rate securities as long-term investments.

The following table presents the significant assumptions used to determine the fair value of the Company's auction rate securities at October 31, 2010 and October 31, 2009:

Assumption	October 31, 2010	October 31, 2009
Discount rates	L + 2.50% - L + 18.59%	L + 0.34% - L + 24.43%
Yields	L + 2.0% - L + 3.5%	L + 2.0% - L + 3.5%
Average expected lives	4 - 10 years	4 - 8 years

L — London Interbank Offered Rate

The Company's determination of whether impairments of its auction rate securities are other-than-temporary is based on an evaluation of several factors, circumstances and known or reasonably supportable trends including, but not limited to: (1) the Company's intent to not sell the securities; (2) the Company's assessment that it is not more likely than not that the Company will be required to sell the securities before recovering its cost basis; (3) expected defaults; (4) available ratings for the securities or the underlying collateral; (5) the rating of the associated guarantor (where applicable); (6) the nature and value of the underlying collateral expected to service the investment; (7) actual historical performance of the security in servicing its obligations; and (8) actuarial experience of the underlying re-insurance arrangement (where applicable), which in certain circumstances may have preferential rights to the underlying collateral.

Based primarily on an unfavorable development in the Company's assumption about the expected life for one security, at April 30, 2010 the Company recognized an additional OTTI credit loss of \$0.1 million. The Company had previously recognized an OTTI credit loss of \$1.6 million for this security in the year ended October 31, 2009. The credit losses were based upon the difference between the present value of the expected cash flows to be collected and the amortized cost basis of the security. Significant assumptions used in estimating the credit loss include: (1) default rates for the security and the mono-line insurer, if any (which were based on published historical default rates of similar securities and consideration of current market trends); and (2) the expected life of the security (which

represents the Company's view of when market efficiencies for securities may be restored). Adverse changes in any of these factors could result in additional declines in fair value and further other-than-temporary impairments in the future. No further OTTI were identified.

The following tables present the changes in the cost basis and fair value of the Company's auction rate securities for the years ended October 31, 2010 and 2009:

(In thousands)	Cost Basis		Fair Value (Level 3)

At October 31, 2010 and 2009, unrealized losses of \$3.1 million (\$1.9 million net of tax) and \$3.9 million (\$2.3 million net of tax) were recorded in accumulated other comprehensive loss, respectively.

Of the \$594.0 million carrying amount of goodwill as of October 31, 2010, \$327.6 million was not amortizable for income tax purposes because the related businesses were acquired prior to 1991 or purchased through a tax-free exchange or stock acquisition.

8. SELF-INSURANCE

The Company is subject to certain insurable risks such as workers' compensation, general liability, automobile and property damage. The Company maintains commercial insurance policies that provide \$150.0 million (or \$75.0 million with respect to claims acquired from OneSource in the year ended October 31, 2008) of coverage for certain risk exposures above the Company's deductibles (i.e., self-insurance retention limits). For claims incurred after November 1, 2002, substantially all of the self-insured retentions increased from \$0.5 million per occurrence (inclusive of allocated loss adjustment expenses) to \$1.0 million per occurrence (exclusive of allocated loss adjustment expenses), except for California workers' compensation insurance which increased to \$2.0 million, in the aggregate, from April 14, 2003 to April 14, 2005 (\$1.0 million per occurrence, plus an additional \$1.0 million annually in the aggregate). The Company allocates current-year insurance expense to its operating segments based upon

their underlying exposures. In the fourth quarter of 2010, the Company recorded an adjustment to increase insurance-related other assets for approximately \$1.0 million, net of taxes, relating to immaterial errors that originated in prior periods. Since the errors were not material to the current period or any prior period, the Company recorded the out-of-period correction in its fourth quarter 2010 results.

The table below summarizes the self-insurance reserve adjustments resulting from periodic actuarial evaluations of ultimate losses relating to prior years during the years ended October 31, 2010, 2009 and 2008. Such amounts are not allocated to the Company's operating segments and are recorded in the Corporate segment.

Years Ended October 31, (in thousands)	2010	2009	2008
Major programs (1)	\$ 799	\$ 9,435	\$ (22,500)
Minor programs (2)	417	—	(310)
Total	\$ 1,216	\$ 9,435	\$ (22,810)

- (1) As described above, the Company is self-insured for workers' compensation, general liability, automobile, and property damage. During 2008, evaluations covering substantially all of the Company's self-insurance reserves showed net favorable developments in claims incurred in prior years for general liability, California workers' compensation and workers' compensation outside of California. This resulted in a reduction in self-insurance reserves recorded in 2008. Many of the favorable trends observed during 2008 did not continue during 2009 and 2010.
- (2) Separate evaluations of insurance reserves related to certain Janitorial and Parking locations showed favorable claims developments in 2008, resulting in benefits, and unfavorable claims developments in 2010, resulting in increased losses, attributable to claims incurred in prior years.

At October 31, 2010, the Company had \$100.8 million in standby letters of credit (primarily related to its workers' compensation, general liability, automobile, and property damage programs), \$36.2 million in restricted insurance deposits and \$112.5 million in surety bonds supporting unpaid insurance claim liabilities. At October 31, 2009, the Company had \$118.6 million in standby letters of credit, \$42.5 million in restricted insurance deposits and \$103.2 million in surety bonds supporting unpaid insurance claim liabilities.

9. LINE OF CREDIT FACILITY

In 2008, the Company entered into a \$450.0 million five-year syndicated line of credit that was scheduled to expire on November 14, 2012 (the "old Facility"). The old Facility was available for working capital, the issuance of standby letters of credit, the financing of capital expenditures, and other general corporate purposes.

Under the old Facility, no compensating balances were required and the interest rate was determined at the time of borrowing based on the London Interbank Offered Rate ("LIBOR") plus a spread of 0.625% to 1.375% or, at the Company's election, at the higher of the federal funds rate plus 0.5% and the Bank of America prime rate ("Alternate Base Rate") plus a spread of 0.000% to 0.375%. The old Facility called for a non-use fee payable quarterly, in arrears, of 0.125% to 0.250% of the average daily unused portion of the old Facility. For purposes of this calculation, irrevocable standby letters of credit issued primarily in conjunction with the Company's self-insurance program and cash borrowings were included as usage of the old Facility. The spreads for LIBOR, Alternate Base Rate and IBOR borrowings and the non-use fee percentage were based on the Company's leverage ratio. The old Facility permitted the Company to request an increase in the amount of the line of credit by up to \$100.0 million (subject to receipt of commitments for the increased amount from existing and new lenders).

As of October 31, 2010, the total outstanding amounts under the old Facility in the form of cash borrowings and standby letters of credit were \$140.5 million and \$100.8 million, respectively.

The old Facility included covenants limiting liens, dispositions, fundamental changes, investments, indebtedness, and certain transactions and payments. In addition, the Facility also required that the Company maintain three financial covenants: (1) a fixed charge coverage ratio greater than or equal to 1.50 to 1.0 at any time; (2) a leverage ratio of less than or equal to 3.25 to 1.0 at each fiscal quarter-end; and (3) a consolidated net worth of greater than or equal to the sum of (i) \$475.0 million, (ii) an amount equal to 50% of the consolidated net income earned in each full fiscal quarter ending after November 14, 2007 (with no deduction for a net loss in any such fiscal quarter), and (iii) an amount equal to 100% of the aggregate increases in stockholders' equity of the Company after November 14, 2007 by reason of the issuance and sale of capital stock or other equity interests of the Company or any subsidiary, including upon any conversion of debt securities of the Company into such capital stock or other equity interests, but excluding by reason of the issuance and sale of capital stock pursuant to the Company's employee stock purchase plans, employee stock option plans and similar programs. The Company was in compliance with all covenants under the old Facility as of October 31, 2010.

On November 30, 2010, the Company terminated the old Facility and replaced it with a new \$650 million

five year syndicated line of credit (the "new Facility"). The new Facility is scheduled to expire on November 30, 2015, with the option to increase the size of the new Facility to \$850 million at any time prior to the expiration (subject to receipt of commitments for the increased amount from existing and new lenders). See Note 16, "Subsequent Events," for additional information.

On February 19, 2009, the Company entered into a two-year interest rate swap agreement with an underlying notional amount of \$100.0 million, pursuant to which the Company receives variable interest payments based on LIBOR and pays fixed interest at a rate of 1.47%.

On October 19, 2010, the Company entered into a three-year forward starting interest rate swap agreement with an underlying notional amount of \$25.0 million, pursuant to which the Company receives variable interest payments based on LIBOR and pays fixed interest at a rate of 0.89%. The effective date of the hedge is February 24, 2011.

These swaps are intended to hedge the interest risk associated with the Company's forecasted floating-rate, LIBOR-based debt. As of October 31, 2010, the critical terms of the swaps match the terms of the debt, resulting in no hedge ineffectiveness. On an ongoing basis (no less than once each quarter), the Company assesses whether its LIBOR-based interest payments are probable of being paid during the life of the hedging relationship. The Company also assesses the counterparty credit risk, including credit ratings and potential non-performance of the counterparties, when determining the fair value of the swaps.

As of October 31, 2010, the fair value of the interest rate swaps was a \$0.4 million liability, of which \$0.3 million and \$0.1 million were included in Other accrued liabilities and Retirement plans and other, respectively, on the accompanying consolidated balance sheet. The effective portion of these cash flow hedges is recorded as accumulated other comprehensive loss in the Company's accompanying consolidated balance sheet and reclassified into interest expense in the Company's accompanying consolidated statements of income in the same period during which the hedged transactions affect earnings. Any ineffective portion of the hedges is recorded immediately to interest expense. No ineffectiveness existed at October 31, 2010. The amount included in accumulated other comprehensive loss is \$0.4 million (\$0.3 million, net of taxes).

10. EMPLOYEE BENEFIT PLANS

As of October 31, 2010, the Company had the following defined benefit and other post-retirement benefit plans, which provide benefits based primarily on years of service and employee earnings and which have been previously amended to preclude new participants:

Supplemental Executive Retirement Plan. The Company has unfunded retirement agreements for certain current and former senior executives. The retirement agreements provide for monthly benefits for ten years commencing at the later of the respective retirement dates of those executives or age 65. The benefits are accrued over the vesting period. Effective December 31, 2002, this plan was amended to preclude new participants.

Service Award Benefit Plan. The Company has an unfunded service award benefit plan that meets the definition of a "severance pay plan" as defined by the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and covers certain qualified employees. The plan provides participants, upon termination, with a guaranteed seven days pay for each year of employment subsequent to November 1, 1989. Effective January 1, 2002, no new participants were permitted under this plan. The Company will continue to incur interest costs related to this plan as the value of the previously earned benefits continues to increase.

OneSource Employees' Retirement Pension Plan ("OneSource Pension Plan"). The Company acquired OneSource on November 14, 2007, which sponsored a funded, qualified employee retirement plan. The plan was amended to preclude participation and benefit accruals several years prior to the acquisition.

Death Benefit Plan. The Company's unfunded Death Benefit Plan covers certain qualified employees upon retirement on, or after, the employee's 62nd birthday. This plan provides 50% of the death benefit that the employee was entitled to prior to retirement, subject to a maximum of \$150,000. Coverage commencing upon retirement, or 62nd birthday, continues until death for retired employees hired before September 2, 1980. On March 1, 2003, the post-retirement death benefit for any active employees hired after September 1, 1980 was eliminated. Active employees hired before September 1, 1980 who retire on or after their 62nd birthday will continue to be covered between retirement and death. For certain plan participants who retired before March 1, 2003, the post-retirement death benefit continues until the retired employee's 70th birthday. An exemption to the "age 62" retirement rule has been made for certain employees who were terminated as a result of the Company's restructuring to a corporate shared service center.

OneSource Post-Retirement Medical and Life Benefit Plan. OneSource sponsored a post-retirement benefit plan that provides medical and life insurance benefits to certain OneSource retirees. Since the date of acquisition, new participants have been precluded from participation.

The components of net periodic benefit cost of the defined benefit and other post-retirement benefit plans for the years ended October 31, 2010, 2009 and 2008 were as follows:

(in thousands)	2010	2009	2008

In the year ending October 31, 2011, the Company expects to recognize, on a pre-tax basis, less than \$0.1 million of net actuarial gains as a component of net periodic benefit cost.

Assumptions

The weighted average assumptions used to determine benefit obligations and net periodic benefit cost for the years ended October 31, 2010, 2009 and 2008 were as follows:

	Defined Benefit Plans			Post-Retirement Benefit Plan		
	2010	2009	2008	2010	2009	2008
Assumptions to measure net periodic cost						
Discount rate	5.50%	7.00%	6.00%	5.50%	7.00%	6.00%
Rate of health care cost increase	NA	NA	NA	5.50%	6.00%	6.00%
Rate of compensation increase	3.50%	3.50%	3.50%	3.50%	3.50%	3.50%
Rate of return on plan assets	8.00%	8.00%	8.00%	NA	NA	NA
Assumptions to measure obligation at year end						
Discount rate	4.50% - 4.98%	5.50%	7.00%	4.31% - 5.02%	5.50%	7.00%

The discount rate is used for determining future net periodic benefit cost. The Company's discount rates were determined, as of the October 31, 2010 measurement date, using the individual cash flows of each plan. In determining the long-term rate of return for a plan, the Company considers the nature of the plan's

investments, historical rates of return, and an expectation for the plan's investment strategies. All defined benefit and post-retirement plans have been amended to preclude new participants. The Company believes changes in assumptions would not have a material impact on the Company's financial position and operating performance. The Company expects to fund payments required under the plans with cash flows from operating activities when due in accordance with the plan.

Expected Future Benefit Payments

The expected future benefit payments were calculated using the same assumptions used to measure the Company's benefit obligation as of October 31, 2010. This expectation is based upon expected future service:

(In thousands)	Defined Benefit Plans	Post-Retirement Benefit Plan
2011	\$ 1,444	\$ 277
2012	972	287
2013	892	297
2014	781	309
2015	853	320
2016 through 2020	\$ 3,823	\$ 1,777

OneSource Pension Plan

The OneSource Pension Plan is a funded benefit plan that requires an estimate of the long-term rate of return on plan assets to measure benefit obligations. The expected long-term rate of return on plan assets represents the rate of earnings expected in the funds invested to provide for anticipated benefit payments. With input from the Company's investment advisors and actuaries, the Company has analyzed the expected rates of return on assets and determined that an estimated long-term rate of return of 8.0% is reasonable based on: (1) the current and expected asset allocations; (2) the plan's historical investment performance; and (3) best estimates for future investment performance. The obligation attributable to medical benefits is small, as is the future obligation that varies with changes in compensation. Accordingly, changes in the health care trend assumption rate and the compensation increase assumption have an immaterial impact on measuring the obligation.

The investment objectives for the assets associated with the OneSource Pension Plan are to maintain acceptable levels of risk through the diversification of assets among asset classes and to optimize long-term returns. The Company is responsible for selecting investment managers, setting asset allocation targets and monitoring asset allocations and investment performance. The Company's external investment professionals have the authority to manage assets within pre-established asset allocation ranges set by the Company. The OneSource Pension Plan is the Company's only funded defined benefit plan.

The target allocation ranges and asset allocations for the year ended October 31, 2010 were:

Asset Category	Target Allocation	Percentage of Plan Assets
Equity	53% - 73%	53%
Fixed Income	27% - 47%	47%
		100%

The following table presents the Company's hierarchy for the assets associated with the OneSource Pension Plan measured at fair value as of October 31, 2010:

Deferred Compensation Plans

The Company accounts for deferred compensation and accrues interest thereon for employees who elect to participate in one of the following Company plans:

Employee Deferred Compensation Plan. This plan is available to executive, management, administrative and sales employees who have an annualized base salary that equals or exceeds \$135,000 for the year ended October 31, 2010. This plan allows employees to defer 1% to 50% of their pre-tax compensation. The average rate of interest earned by the employees in this plan was 3.25%, 3.31% and 5.09% for the years ending October 31, 2010, 2009 and 2008, respectively.

Director Deferred Compensation Plan. This plan allows directors to defer receipt of all or any portion of the compensation that he or she would otherwise receive from the Company. The average rate of interest earned by the directors in this plan was 3.25%, 3.31%, and 5.09% for the years ending October 31, 2010, 2009, and 2008, respectively.

The deferred compensation under both the Employee and Director Deferred Compensation Plans

earns interest equal to the prime interest rate on the last day of the calendar quarter. If the prime rate exceeds 6%, the interest rate is equal to 6% plus one half of the excess over 6%. Interest earned under both deferred compensation plans is capped at 120% of the long-term applicable federal rate as discussed in the plans.

OneSource Deferred Compensation Plan. The Company acquired OneSource on November 14, 2007, which sponsored a deferred compensation plan. Under this deferred compensation plan, a Rabbi Trust was created to fund the obligation. The plan requires the Company to contribute 50% of the participant's deferred compensation contributions but only to the extent that the deferred contribution does not exceed 5% of the participant's compensation for the contribution allocation period. This liability is adjusted, with a corresponding charge (or credit) to the deferred compensation cost, to reflect changes in the fair value. On December 31, 2008, the plan was amended to preclude new participants. The assets of \$5.7 million held in the rabbi trust are not available for general corporate purposes.

Aggregate expense recognized under these deferred compensation plans for the years ended October 31, 2010, 2009 and 2008 were \$0.4 million, \$0.3 million and \$0.5 million, respectively. The total long-term liability of all deferred compensation plans at October 31, 2010 and 2009 was \$15.3 million and \$15.0 million, respectively, and is included in Retirement plans and other on the accompanying consolidated balance sheet.

401(k) Plan

The Company has two 401(k) savings plans covering certain employees, as set forth in the respective plan documents. These 401(k) plans are subject to the applicable provisions of ERISA. The Company matches a portion of the participant's contributions after the participant has met the eligibility requirements under a predetermined formula based on the participant's contribution level. The Company made matching 401(k) contributions required by the 401(k) plans during the years ended October 31, 2010, 2009 and 2008 in the amounts of \$6.2 million, \$6.2 million and \$5.9 million, respectively.

Pension Plans Under Collective Bargaining

Certain qualified employees of the Company are covered under union-sponsored multi-employer defined benefit plans. Contributions paid for these plans were \$58.2 million, \$47.9 million and \$47.7 million during the years ended October 31, 2010, 2009 and 2008, respectively. These plans are not administered by the Company and contributions are determined in accordance with provisions of negotiated labor contracts.

11. COMMITMENTS AND CONTINGENCIES

Lease Commitments

The Company is contractually obligated to make future payments under non-cancelable operating lease agreements for various facilities, vehicles, and other equipment. As of October 31, 2010, future minimum lease commitments (excluding contingent rentals) under non-cancelable operating leases for the fiscal years ending October 31 are as follows:

(in thousands)	
2011	\$ 59,480
2012	46,759
2013	37,657
2014	27,394
2015	15,412
Thereafter	17,626
Total minimum lease commitments	\$ 204,328

Rental expense for continuing operations for the years ended October 31, 2010, 2009 and 2008 was as follows:

(in thousands)	2010	2009	2008
Minimum rentals	\$ 69,571	\$ 63,774	\$ 60,546
Contingent rentals	36,631	38,522	39,642
	\$ 106,202	\$ 102,296	\$ 100,188

Contingent rentals are applicable to leases of parking lots and garages and are primarily based on percentages of the gross receipts or other financial parameters attributable to the related facilities.

IBM Master Professional Services Agreement

On September 29, 2006, the Company entered into a Master Professional Services Agreement (the "Services Agreement") with International Business Machines Corporation ("IBM") that became effective October 1, 2006. Under the Services Agreement, IBM was responsible for substantially all of the Company's information technology infrastructure and support services. In 2007, the Company entered into additional agreements with IBM to provide assistance, support and post-implementation services relating to the upgrade of the Company's accounting systems and the implementation of a new payroll system and human resources information system. The Company entered into additional agreements with IBM to provide information technology systems integration and data center support services through 2009. During the fourth quarter of 2008, the Company assessed the services provided by

IBM to determine whether the services provided and the level of support was consistent with the Company's strategic objectives. Based upon this assessment, the Company determined that some or all of the services provided under the Services Agreement would be transitioned from IBM. In connection with this assessment, the Company wrote off \$6.3 million of deferred costs in 2008.

On January 20, 2009, the Company and IBM entered into a binding Memorandum of Understanding (the "MOU"), pursuant to which the Company and IBM agreed to: (1) terminate certain services then provided by IBM to the Company under the Services Agreement; (2) transition the terminated services to the Company and/or its designee; (3) resolve certain other disputes arising under the Services Agreement; and (4) modify certain terms applicable to services that IBM will continue to provide to the Company. In connection with the execution of the MOU, the Company delivered to IBM a formal notice terminating for convenience certain information technology and support services effective immediately (the "Termination"). Notwithstanding the Termination, the MOU contemplated (1) IBM would assist the Company with the transition of the terminated services to the Company or its designee pursuant to an agreement (the "Transition Agreement") to be executed by the Company and IBM and (2) the continued provision by IBM of certain data center support services. On February 24, 2009, the Company and IBM entered into an amended and restated agreement, which amended the Services Agreement (the "Amended Agreement"), and the Transition Agreement, which memorializes the termination-related provisions of the MOU as well as other terms related to the transition services. Under the Amended Agreement, the base fee for the provision of the defined data center support services is \$18.8 million payable over the service term (March 2009 through December 2013).

In connection with the Termination, the Company agreed to: (1) reimburse IBM for certain actual employee severance costs, up to a maximum of \$0.7 million, provided the Company extended comparable offers of employment to a minimum number of IBM employees; (2) reimburse IBM for certain early termination costs, as defined, including third-party termination fees and/or wind-down costs totaling approximately \$0.4 million associated with software, equipment and/or third-party contracts used by IBM in performing the terminated services; and (3) pay IBM fees and expenses for requested transition assistance, which were estimated to be approximately \$0.4 million.

As of October 31, 2010, future commitments related to the IBM Amended Agreement for the succeeding fiscal years were as follows:

(in thousands)	
2011	\$ 3,977
2012	3,332
2013	3,007
2014	495
2015	—
Thereafter	—
Total	\$ 10,811

Guarantees/Indemnifications

The Company has applied the measurement and disclosure provisions outlined in the FASB guidance related to guarantor's accounting and disclosure requirements for guarantees, including indirect guarantees of the indebtedness of others, included in ASC 460 "Guarantees" ("ASC 460") to agreements that contain guarantee and certain indemnification clauses. ASC 460 requires that upon issuance of a guarantee, the guarantor must disclose and recognize a liability for the fair value of the obligation it assumes under the guarantee. As of October 31, 2010 and 2009, the Company did not have any material guarantees that were issued or modified subsequent to October 31, 2002.

However, the Company is party to a variety of agreements under which it may be obligated to indemnify the other party for certain matters. Primarily, these agreements are standard indemnification arrangements in its ordinary course of business. Pursuant to these arrangements, the Company may agree to indemnify, hold harmless and reimburse the indemnified parties for losses suffered or incurred by the indemnified party, generally its clients, in connection with any claims arising out of the services that the Company provides. The Company also incurs costs to defend lawsuits or settle claims related to these indemnification arrangements and in most cases these costs are paid from its insurance program. The terms of these indemnification arrangements are generally perpetual. Although the Company attempts to place limits on this indemnification reasonably related to the size of the contract, the maximum obligation may not be explicitly stated and, as a result, the maximum potential amount of future payments the Company could be required to make under these arrangements is not determinable.

The Company's certificate of incorporation and bylaws may require it to indemnify Company directors and officers against liabilities that may arise by reason of their status as such and to advance their expenses incurred as a result of any legal proceeding against

them as to which they could be indemnified. The Company has also entered into indemnification agreements with its directors to this effect. The overall amount of these obligations cannot be reasonably estimated; however, the Company believes that any loss under these obligations would not have a material adverse effect on the Company's financial position, results of operations or cash flows. The Company currently has directors' and officers' insurance, which has a deductible of up to \$1.0 million.

Contingencies

The Company has been named a defendant in certain proceedings arising in the ordinary course of business. Litigation outcomes are often difficult to predict and often are resolved over long periods of time. Estimating probable losses requires the analysis of multiple possible outcomes that often depend on judgments about potential actions by third parties. Loss contingencies are recorded as liabilities in the accompanying consolidated financial statements when it is both: (1) probable or known that a liability has been incurred and (2) the amount of the loss is reasonably estimable. If the reasonable estimate of the loss is a range and no amount within the range is a better estimate, the minimum amount of the range is recorded as a liability. Legal costs associated with loss contingencies are expensed as incurred.

The Company is a defendant in several purported class action lawsuits related to alleged violations of federal or state wage-and-hour laws. The named plaintiffs in these lawsuits are current or former employees of ABM subsidiaries who allege, among other things, that they were required to work "off the clock," were not paid for all overtime, were not provided work breaks or other benefits, and/or that they received pay stubs not conforming to state law. In all cases, the plaintiffs generally seek unspecified monetary damages, injunctive relief or both.

The Company accrues amounts it believes are adequate to address any liabilities related to litigation and arbitration proceedings and to other contingencies that the Company believes will result in a probable loss. However, the ultimate resolution of such matters is always uncertain. It is possible that any such proceeding brought against the Company could have a material adverse impact on its financial condition and results of operations. The total amount accrued for probable losses at October 31, 2010 was \$4.2 million.

The Company was a defendant in a lawsuit filed July 19, 2007 in the United States District Court, Eastern District of California, entitled U.S. Equal Employment Opportunity Commission, Plaintiff Erika Morales and Anonymous Plaintiffs One through Eight v. ABM Industries Incorporated et. al. (the "Morales case"). The plaintiffs in the Morales case alleged sexual harassment and retaliation. The case involved both Title VII federal law claims and California state law claims. In June 2010, the Company agreed to a settlement of \$5.8 million for the Morales case. On September 27, 2010, the court accepted the settlement agreement and dismissed the case. Under the terms of the settlement, ABM also agreed to enter into a consent decree requiring a subsidiary to, among other things, track sexual harassment claims and monitor compliance with certain applicable laws.

12. SHARE-BASED COMPENSATION PLANS

Compensation expense and related income tax benefit in connection with the Company's share-based compensation plans for the years ended October 31, 2010, 2009 and 2008 were as follows:

(in thousands)	Years Ended October 31,		
	2010	2009	2008
Share-based compensation expense recognized in selling, general and administrative expenses before income taxes	\$ 4,071	\$ 7,411	\$ 7,195
Income tax benefit	(1,691)	(3,025)	(2,764)
Total share-based compensation expense after income taxes	\$ 2,380	\$ 4,386	\$ 4,431

In July 2010, the Company determined that the financial performance targets, which were established in connection with certain performance share grants, were no longer probable of achievement. As a result, the Company reversed approximately \$3.4 million (\$2.0 million, net of taxes) of previously recorded share-based compensation expense in July 2010. This adjustment was recorded in selling, general and administrative expenses.

The total shares exercised for all share-based compensation plans was 850,855, 494,843 and 728,332 during the years ended October 31, 2010, 2009 and 2008, respectively. The total intrinsic value of the shares exercised was \$8.4 million, \$3.0 million and \$6.3 million for the years ended October 31, 2010, 2009 and 2008, respectively. The total fair value of shares that vested during the years ended October 31, 2010, 2009 and 2008 was \$8.1 million, \$3.8 million and \$3.1 million, respectively.

The Company has five share-based compensation plans and an employee stock purchase plan which are described below.

2006 Equity Incentive Plan

On May 2, 2006, the stockholders of the Company approved the 2006 Equity Incentive Plan (the "2006 Equity Plan"). Prior to the adoption of the 2006 Equity Plan, stock option awards were made under the Time-Vested Incentive Stock Option Plan (the "Time-Vested Plan"), the 1996 Price-Vested Performance Stock Option Plan (the "1996 Price-Vested Plan") and the 2002 Price-Vested Performance Stock Option Plan (the "2002 Price-Vested Plan" and collectively with the Time-Vested Plan and the 1996 Price-Vested Plan, the "Prior Plans"). The 2006 Equity Plan provides for the issuance of awards for 2,500,000 shares of the Company's common stock plus the remaining shares authorized but not issued under the Prior Plans as of May 2, 2006, plus forfeitures under the Prior Plans after that date. No further grants can be made under the Prior Plans. On March 3, 2009, the shareholders authorized an additional 2,750,000 shares to be issued under the 2006 Equity Plan. At October 31, 2010, 1,720,692 shares were available for award under the 2006 Equity Plan. The terms and conditions governing existing options under the Prior Plans will continue to apply to the options outstanding under those plans. The 2006 Equity Plan is an "omnibus" plan that provides for a variety of equity and equity-based award vehicles, including stock options, stock appreciation rights, restricted stock units ("RSUs"), performance shares, and other share-based awards. Shares subject to awards that terminate without vesting or exercise may be reissued. Certain of the awards available under the 2006 Equity Plan may qualify as "performance-based" compensation under Internal Revenue Code Section 162(m) ("Section 162(m)"). The status of the stock options, RSUs and performance shares granted under the 2006 Equity Plan as of October 31, 2010 are summarized below.

Stock Options

The nonqualified stock options issued under the 2006 Equity Plan vest and become exercisable either at a rate of 25% per year beginning one year after date of grant or 100% on the fifth anniversary of the award and expire seven years after the date of grant, depending on the terms of the awards granted. Stock options granted to certain executive officers on March 31, 2010 will vest on the fifth anniversary of the award.

Stock option activity in the year ended October 31, 2010 is summarized below:

	Number of Shares (In thousands)	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Term (In years)	Aggregate Intrinsic Value (In thousands)
Outstanding at October 31, 2009	710	\$ 19.85		
Granted	510	21.34		
Exercised	(11)	19.61		
Forfeited or expired	(10)	19.58		
Outstanding at October 31, 2010	1,199	\$ 20.49	5.14	\$ 2,767
Vested and exercisable at October 31, 2010	398	\$ 20.17	3.75	\$ 1,164

As of October 31, 2010, there was \$3.4 million of total unrecognized compensation cost (net of estimated forfeitures) related to unvested stock options under the 2006 Equity Plan. The cost is expected to be recognized on a straight-line basis over a weighted-average vesting period of 2.47 years.

The Company estimates the fair value of each option award on the date of grant using the Black-Scholes option valuation model. The Company estimates forfeiture rates based on historical data and adjusts the rates periodically or as needed. The adjustment of the forfeiture rate may result in a cumulative adjustment in any period in which the forfeiture rate estimate is changed. During the year ended October 31, 2010, the Company adjusted its forfeiture rate to align the estimate with expected forfeitures, and the effect of such adjustment was immaterial.

The assumptions used in the option valuation model for the years ended October 31, 2010, 2009 and 2008 are shown in the table below:

	2010	2009	2008
Expected life from the date of grant (1)	5.6 years	5.7 years	5.7 years
Expected stock price volatility (2)	38.5% - 39.0%	35.2%	30.4%
Expected dividend yield (3)	2.6% - 2.7%	2.5%	2.4%
Risk-free interest rate (4)	1.7% - 2.6%	1.7%	3.2%
Weighted average fair value of option grants	\$ 6.37	\$ 4.82	\$ 5.06

- (1) The expected life for options granted under the 2006 Equity Plan is based on observed historical exercise patterns of the previously granted options adjusted to reflect the change in vesting and expiration dates.
- (2) The expected volatility is based on considerations of implied volatility from publicly traded and quoted options on the Company's common stock and the historical volatility of the Company's common stock.
- (3) The dividend yield is based on the historical dividend yield over the expected term of the options granted.
- (4) The risk-free interest rate is based on the continuous compounded yield on U.S. Treasury Constant Maturity Rates with a remaining term equal to the expected term of the option.

RSUs

RSUs granted to directors will be settled in shares of the Company's common stock with respect to one-third of the underlying shares on the first, second and third anniversaries of the annual shareholders' meeting, which in several cases vary from the anniversaries of the award. In general, RSUs granted to persons other than directors will be settled in shares of the Company's common stock with respect to 50% of the underlying shares on the second anniversary of the award and 50% on the fourth anniversary of the award or 100% on the fifth anniversary of the award, depending on the terms of the awards granted. RSUs granted to certain executive officers on March 31, 2010 will vest on the fifth anniversary of the award.

RSU activity in the year ended October 31, 2010 is summarized below:

	Number of Shares (In thousands)		Weighted-Average Grant Date Fair Value per Share
Outstanding at October 31, 2009	688	\$	19.50
Granted	305		21.05
Issued (including 73 shares withheld for income taxes)	(221)		19.34
Forfeited	(37)		19.53
Outstanding at October 31, 2010	735	\$	20.19
Vested at October 31, 2010	221	\$	19.34

As of October 31, 2010, there was \$8.6 million of total unrecognized compensation cost (net of estimated forfeitures) related to RSUs under the 2006 Equity Plan. The cost is expected to be recognized on a straight-line basis over a weighted-average vesting period of 1.99 years.

Performance Shares

Performance shares consist of a contingent right to acquire shares of the Company's common stock based on performance targets adopted by the Compensation Committee. The number of performance shares that will vest is based on pre-established financial performance targets for one year, two year or three year periods ending October 31, 2010, 2011 or 2012. Vesting of 0% to 150% of the indicated shares will occur depending on the achieved targets.

Performance share activity in the year ended October 31, 2010 is summarized below:

	Number of Shares (In thousands)		Weighted-Average Grant Date Fair Value per Share
Outstanding at October 31, 2009	407	\$	19.34
Granted	268		19.49
Change in units based on performance	(235)		19.35
Issued (including 8 shares withheld for income taxes)	(36)		24.51
Forfeited	(23)		18.83
Outstanding at October 31, 2010	381	\$	18.98
Vested at October 31, 2010	—	\$	—

As of October 31, 2010, there was \$4.2 million of total unrecognized compensation cost (net of estimated forfeitures) related to performance shares. The cost is expected to be recognized on a straight-line basis over a weighted average vesting period of 1.87 years. These costs are based on estimated achievement of performance criteria and estimated costs will be reevaluated periodically.

Dividend Equivalent Rights

RSUs are credited with dividend equivalent rights that are converted to RSUs at the fair market value of the Company's common stock on the dates the dividend payments are declared and are subject to the same terms and conditions as the underlying award. Performance shares granted prior to January 13, 2009 are credited with dividend equivalent rights that will be converted to performance shares at the fair market value of the Company's common stock on the dates the dividend payments are declared and are subject to the same terms and conditions as the underlying award. Performance shares granted on or after January 13, 2009 are credited with dividend equivalent rights that will be converted to performance shares at the fair market value of the Company's common stock beginning after the performance targets have been satisfied and are subject to the same terms and conditions as the underlying award.

Time-Vested Plan

Under the Time-Vested Plan, the options become exercisable at a rate of 20% of the shares per year beginning one year after the date of grant and expire ten years plus one month after the date of grant.

The Time-Vested Plan activity in the year ended October 31, 2010 is summarized below:

	Number of Shares (In thousands)	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (In thousands)
Outstanding at October 31, 2009	1,065	\$ 17.47		
Exercised	(337)	15.46		
Forfeited or expired	(27)	18.46		
Outstanding at October 31, 2010	701	\$ 18.40	3.54	\$ 2,909
Vested and exercisable at October 31, 2010	666	\$ 18.30	3.46	\$ 2,827

As of October 31, 2010, there was an immaterial amount of total unrecognized compensation cost (net of estimated forfeitures) related to unvested stock options under the Time-Vested Plan. The cost is expected to be recognized on a straight-line basis over a weighted-average vesting period of less than one year.

1996 and 2002 Price-Vested Plans

The Company has two Price-Vested Plans: (1) the 1996 Price-Vested Plan and (2) the 2002 Price-Vested Plan. The two plans are substantially similar as each plan has pre-defined vesting prices that provide for accelerated vesting. Under each form of option agreement, if at the end of four years any of the stock price performance targets are not achieved, then the remaining options vest at the end of eight years from the date the options were granted. There have been no grants under this plan since the year ended October 31, 2005, therefore the remaining outstanding options under this plan will vest on the eighth anniversary of the award. Options vesting during the first year following grant do not become exercisable until after the first anniversary of grant. The options expire ten years after the date of grant.

Activity for the 1996 and 2002 Price-Vested Plans in the year ended October 31, 2010 is summarized below:

	Number of Shares (In thousands)	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (In thousands)
Outstanding at October 31, 2009	1,249	\$ 17.13

Vested and exercisable at October 31, 2010	977	\$ 17.51	3.18	\$ 4,922

As of October 31, 2010, there was an immaterial amount of total unrecognized compensation cost (net of estimated forfeitures) related to unvested stock options under the Price-Vested Plans. The cost is expected to be recognized on a straight-line basis over a weighted-average vesting period of less than one year.

Executive Stock Option Plan ("Age-Vested Plan")

Under the Age-Vested Plan, options are exercisable for 50% of the shares when the option holders reach their 61st birthdays and the remaining 50% become exercisable on their 64th birthdays. To the extent vested, the options may be exercised at any time prior to one year after termination of employment. Effective as of December 9, 2003, no further grants may be made under the plan.

The Age-Vested Plan activity in the year ended October 31, 2010, is summarized below:

	Number of Shares (In thousands)	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (In thousands)

Vested and exercisable at October 31, 2010	72	\$ 11.49	45.93	\$ 791

As of October 31, 2010, there was \$0.6 million of total unrecognized compensation cost (net of estimated forfeitures) related to unvested stock options under the Age-Vested Plan, which is expected to be recognized on a straight-line basis over a weighted-average vesting period of 8.50 years.

Employee Stock Purchase Plan

On March 9, 2004, the stockholders of the Company approved the 2004 Employee Stock Purchase Plan under which an aggregate of 2,000,000 shares may be issued. Effective May 1, 2006, the purchase price became 95% (from 85%) of the fair market value of the Company's common stock on the last trading day of the month. After that date, the plan is no longer considered compensatory and the values of the awards are no longer treated as share-based compensation expense. Employees may designate up to 10% of their compensation for the purchase of stock, subject to a \$25,000 annual limit. Employees are required to hold their shares for a minimum of six months from the date of purchase.

The weighted average fair values of the purchase rights granted in the years ended October 31, 2010,

2009 and 2008 under the new plan were \$1.03, \$0.86 and \$1.05, respectively. During the years ended October 31, 2010, 2009 and 2008, 190,340, 219,067 and 222,648 shares of stock were issued under the plan at a weighted average price of \$19.65, \$16.29 and \$20.00, respectively. The aggregate purchases in the years ended October 31, 2010, 2009 and 2008 were \$3.7 million, \$3.6 million and \$4.5 million, respectively. On March 4, 2010, the shareholders authorized an additional 1,000,000 shares to be issued under the 2004 Employee Stock Purchase Plan. At October 31, 2010, 1,102,834 shares remained unissued under the plan.

13. INCOME TAXES

The income taxes provision for continuing operations consists of the following components for each of the fiscal years ended October 31, 2010, 2009 and 2008:

(In thousands)	2010	2009	2008
Current			
Federal	\$ 14,394	\$ 5,542	\$ (254)
State	8,072	6,486	3,665
Foreign	83	951	18
Deferred			
Federal	17,341	19,722	26,022
State	319	(2,652)	1,893
Foreign	(6)	(879)	241
	\$ 40,203	\$ 29,170	\$ 31,585

The income tax provision for the year ended October 31, 2010 consists of both current and deferred income tax expense. The income tax provision for the years ended October 31, 2009 and 2008 consists primarily of deferred income tax expense. The deferred income tax expense for all three years primarily relates to the use of net operating losses and other tax attributes acquired from OneSource in the year ended October 31, 2008, which resulted in a reduction of current tax expense.

Income tax expense attributable to income from continuing operations differs from the amounts computed by applying the U.S. statutory rates to pre-tax income from continuing operations as a result of the following for the years ended October 31, 2010, 2009 and 2008:

	2010	2009	2008
Statutory rate	35.0%	35.0%	35.0%
State and local income taxes, net of federal tax benefit	6.5%	6.5%	5.1%
Federal and state tax credits	(4.6)%	(5.8)%	(4.2)%
Impact of change in state tax rate	(0.1)%	(3.7)%	(0.3)%
Tax liabilities no longer required	(0.5)%	(0.4)%	(0.6)%
Nondeductible expenses and other, net	2.3%	2.9%	2.5%
	38.6%	34.5%	37.5%

The effective tax rate for the year ended October 31, 2010 is higher than the effective tax rate for the year ended October 31, 2009 primarily due to a decrease in discrete federal and state tax benefits recorded in the year ended October 31, 2009. These tax benefits included the benefits of state tax rate increases on the carrying value of the Company's state deferred tax assets and employment based credits.

The effective tax rate for the year ended October 31, 2009 is lower than the effective tax rate for the year ended October 31, 2008 primarily due to nonrecurring favorable federal and state tax benefits recorded in the year ended October 31, 2009. These tax benefits include the benefits of state tax rate increases on the carrying value of the Company's state deferred tax assets and employment based tax credits.

The tax effects of temporary differences that give rise to significant portions of deferred tax assets and deferred tax liabilities at October 31, 2010 and 2009 are presented below:

(In thousands)	2010	2009
Deferred tax assets:		
Self-insurance claims (net of recoverables)	\$ 109,439	\$ 111,473
Deferred and other compensation	25,516	26,202
Accounts receivable allowances	4,245	4,891
Settlement liabilities	1,306	1,278
State taxes	712	447
Federal net operating loss carryforwards	19,961	25,412
State net operating loss carryforwards	9,184	8,858
Tax credits	6,602	5,615
Other	7,872	9,708
Valuation allowance	184,837	194,084
	(6,290)	(6,147)
Total gross deferred tax assets	178,547	187,937
Deferred tax liabilities:		
Property, plant and equipment	(2,426)	(4,224)
Goodwill and other acquired intangibles	(78,860)	(68,094)
Deferred software development costs	—	(4)
Total gross deferred tax liabilities	(81,286)	(72,322)
Net deferred tax assets	\$ 97,261	\$ 115,615

At October 31, 2010, the Company's net deferred tax assets included a tax benefit from federal net operating loss carryforwards of \$57.0 million. The federal net operating loss carryforwards will expire between 2014 and 2029. State net operating loss carryforwards will expire between the years 2011 and 2030.

The Company periodically reviews its deferred tax assets for recoverability. The valuation allowance represents the amount of tax benefits related to state net operating loss carryforwards that management believes are not likely to be realized. The Company believes the gross deferred tax assets are more likely than not to be realizable based on estimates of future taxable income.

Changes to the deferred tax asset valuation allowance for the years ended October 31, 2010 and 2009 are as follows:

(In thousands)	2010		2009	
Valuation allowance at the beginning of the year	\$	6,147	\$	6,800
Other, net		143		(653)
Valuation allowance at the end of the year	\$	6,290	\$	6,147

In the year ended October 31, 2010, \$0.1 million of the increase in valuation allowance was charged to income tax expense for deferred tax assets that were not expected to be ultimately realized. In the year ended October 31, 2009, the valuation allowance decreased (through a reduction of the tax provision) by \$0.1 million for state net operating losses that became more-likely-than-not realizable based on updated assessments of future taxable income. In the year ended October 31, 2009, the valuation allowance also decreased by a goodwill adjustment of \$0.6 million as a result of the interactions of tax positions associated with the acquisition of OneSource.

At October 31, 2010, we had unrecognized tax benefits of \$101.7 million, all of which, if recognized in the future, would impact the Company's effective tax rate. The Company includes interest and penalties related to unrecognized tax benefits in income tax expense. As of October 31, 2010, the Company had accrued interest and penalties related to uncertain tax positions of \$0.7 million. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

(In thousands)	2010		2009	
Balance at beginning of year	\$	102,291	\$	100,398
Additions for tax positions related to the current year		445		1,883
Additions for tax positions related to prior years		—		317
Reductions for tax positions related to prior years		(125)		(37)
Reductions for expiration of statute of limitations		(930)		(270)
Balance as of October 31	\$	101,681	\$	102,291

The Company's major tax jurisdiction is the United States. ABM and OneSource U.S. federal income tax returns remain open for examination for the periods ending October 31, 2006 through October 31, 2010 and March 31, 2000 through November 14, 2007, respectively. ABM is currently being examined by the Internal Revenue Service for the tax years 2006-2008. The Company does business in all 50 states, significantly in California, Texas and New York, as well as Puerto Rico and Canada. In major state jurisdictions, the tax years 2006-2010 remain open and subject to examination by the appropriate tax authorities. The Company is currently being examined by Illinois, Maryland, Utah, New Jersey, Massachusetts, New York, California and Puerto Rico. An estimate of the range of possible changes in unrecognized tax benefits over the next 12 months cannot be made at this time.

14. SEGMENT INFORMATION

(See Note 8, "Self-Insurance".) Had the Company allocated these insurance charges among the segments, the reported pre-tax operating profits of the segments, as a whole, would have decreased by \$1.2 million and \$9.4 million in the years ended October 31, 2010 and 2009, respectively, and increased \$22.8 million in the year ended October 31, 2008 with an equal and offsetting change to unallocated corporate expenses and, therefore, no change to consolidated pre-tax earnings.

15. DISCONTINUED OPERATIONS

On October 31, 2008, the Company completed the sale of substantially all of the assets of its former Lighting segment, excluding accounts receivable and certain other assets and liabilities, to Sylvania Lighting Services Corp ("Sylvania"). The consideration received in connection with such sale was \$34.0 million in cash, which included certain adjustments, payment to the Company of \$0.6 million pursuant to a transition services agreement and the assumption of certain liabilities under certain contracts and leases relating to the period after the closing. In connection with the sale, the Company recorded a loss of approximately \$3.5 million, including income tax expense of \$1.0 million. The remaining assets and liabilities associated with the Lighting segment have been classified as assets and liabilities of discontinued operations for all periods presented. The results of operations of the Lighting segment for all periods presented are classified as "(Loss) income from discontinued operations, net of taxes."

The carrying amounts of the major classes of assets and liabilities of the Lighting segment included in discontinued operations are as follows:

16. SUBSEQUENT EVENTS

Acquisition of Linc

On December 1, 2010, the Company acquired Linc pursuant to an Agreement and Plan of Merger, dated as of December 1, 2010 (the "Merger Agreement"), by and among ABM, Linc, GI Manager LP, as the Members Representative, and Lightning Services, LLC, a wholly-owned subsidiary of ABM ("Merger Sub"). Pursuant to the Merger Agreement, Merger Sub merged with and into Linc, and Linc continued as the surviving corporation and as a wholly owned subsidiary of ABM. The aggregate purchase price for all of the outstanding limited liability company interests of Linc was approximately \$301.0 million, subject to certain adjustments as set forth in the Merger Agreement. In connection with the Linc acquisition, the Company acquired \$98.4 million of outstanding surety bonds and \$11.9 million of standby letters of credit as of the acquisition date. Linc provides end-to-end integrated facilities management services that improve operating efficiencies, reduce energy consumption and lower overall operational costs for facilities in the governmental, commercial and residential markets throughout the United States and select international markets. The operations of Linc will be included in the Engineering segment as of the acquisition date.

Line of Credit Facility

On November 30, 2010, the Company terminated the old Facility and replaced it with a new \$650 million five year syndicated line of credit (the "new Facility"). The new Facility is scheduled to expire on November 30, 2015, with the option to increase the size of the new Facility to \$850 million at any time prior to the expiration (subject to receipt of commitments for the increased amount from existing and new lenders). Borrowings under the new Facility were used in part to acquire Linc on December 1, 2010, as well as pay down the outstanding balances under the old Facility. The new Facility is available for working capital, the issuance of standby letters of credit, the financing of capital expenditures and other general corporate purposes, including acquisitions.

Under the new Facility, no compensating balances are required and the interest rate is determined at the time of borrowing based on the London Interbank Offered Rate ("LIBOR") plus a spread of 1.5% to 2.5% or, at the Company's election, at the higher of: the

federal funds rate plus 0.5%; the Bank of America prime rate ("Alternate Base Rate") plus a spread of 0.5% to 1.5%; and the Eurodollar rate plus 1.0%. The new Facility calls for a non-use fee payable quarterly, in arrears, of 0.25% to 0.50% of the average, daily, unused portion of the new Facility. For purposes of this calculation, irrevocable standby letters of credit issued primarily in conjunction with the Company's self-insurance program and cash borrowings are included as usage of the new Facility. The spreads for LIBOR and the Alternate Base Rate and the non-use fee percentage are based on the Company's leverage ratio.

The new Facility includes covenants limiting liens, dispositions, fundamental changes, investments, indebtedness, and certain transactions and payments. In addition, the new Facility also requires that the Company maintain three financial covenants: (1) a fixed charge coverage ratio greater than or equal to 1.50 to 1.0 at any time; (2) a leverage ratio of less than or equal to 3.25 to 1.0 at each fiscal quarter-end; and (3) a consolidated net worth of greater than or equal to the sum of (i) \$570.0 million, (ii) an amount equal to 50% of the consolidated net income earned in each full fiscal quarter ending after November 30, 2010 (with no deduction for a net loss in any such fiscal quarter), and (iii) an amount equal to 100% of the aggregate increases in stockholders' equity of the Company after November 30, 2010 by reason of the issuance and sale of capital stock or other equity interests of the Company or any subsidiary, including upon any conversion of debt securities of the Company into such capital stock or other equity interests, but excluding by reason of the issuance and sale of capital stock pursuant to the Company's employee stock purchase plans, employee stock option plans and similar programs.

If an event of default occurs under the new Facility, including certain cross-defaults, insolvency, change in control, and violation of specific covenants, among others, the lenders can terminate or suspend the Company's access to the new Facility, declare all amounts outstanding under the new Facility, including all accrued interest and unpaid fees, to be immediately due and payable, and/or require that the Company cash collateralize the outstanding letter of credit obligations.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 9A. CONTROLS AND PROCEDURES

a. Disclosure Controls and Procedures. As required by paragraph (b) of Rules 13a-15 or 15d-15 under the Exchange Act, the Company's principal executive officer and principal financial officer evaluated the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Annual Report on Form 10-K. Based on this evaluation, these officers concluded that as of the end of the period covered by this Annual Report on Form 10-K, these disclosure controls and procedures were effective to ensure that the information required to be disclosed by the Company in reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and include controls and procedures designed to ensure that such information is accumulated and communicated to the Company's management, including the Company's principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake.

b. Management's Report on Internal Control Over Financial Reporting. The management of the Company is responsible for establishing and maintaining effective internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) for the Company. The Company's internal control over financial reporting is designed to provide reasonable assurance, not absolute assurance, regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America. Internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles in the United States of America, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the accompanying consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions and that the degree of compliance with the policies or procedures may deteriorate.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of October 31, 2010, based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on that assessment and those criteria, the Company's management concluded that the Company's internal control over financial reporting was effective at a reasonable assurance level as of October 31, 2010. The Company's independent registered public accounting firm has issued an attestation report on the Company's internal control over financial reporting, which is included in Item 8 of this Annual Report on Form 10-K under the caption entitled "Report of Independent Registered Public Accounting Firm."

c. Changes in Internal Control Over Financial Reporting. There were no changes in the Company's internal control over financial reporting during the quarter ended October 31, 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

d. Certificates. Certificates with respect to disclosure controls and procedures and internal control over financial reporting under Rules 13a-14(a) or 15d-14(a) of the Exchange Act are attached as exhibits to this Annual Report on Form 10-K.

Each Director of the Company shall become a Participant under the Plan on the date he or she makes an election to defer Compensation or shares subject to Restricted Stock Unit awards (including dividend equivalents credited to such shares) under the Plan.

2.02 **Change in Status**

A Participant's participation in the Plan shall terminate immediately as of the date on which he or she Separates from Services as a Director, except that the Participant shall retain the right to receive his or her Account in accordance with the terms and conditions of the Plan.

2.03 **Determination of Eligibility**

The Administrative Committee shall determine whether each Director has satisfied the eligibility requirements for participation in the Plan. The Committee's determination shall be conclusive and binding upon all Persons.

Article III.
CONTRIBUTIONS

3.01 **Deferrals**

- (a) For each Plan Year commencing with 2007, a Participant may elect to defer receipt of all or any portion of his or her Compensation that he or she would otherwise receive from the Company. In addition, in October 2006 each eligible Director who is a party to a Director Retirement Plan benefit agreement may elect to have such benefit converted to a credit to the Account established pursuant to this Plan, effective November 1, 2006.
- (b) Each Participant who receives a Restricted Stock Unit award in a Plan Year may elect to defer all or any percentage of any shares he or she may be entitled to receive (including dividend equivalents credited to such shares) upon the lapse of any restrictions or vesting period to which the Restricted Stock Unit award is subject. This election shall be made by giving notice in a manner and within the time prescribed by the Administrator and in compliance with section 409A of the Code.
- (c) The amount of the Deferral must equal a whole percentage. The elections described in this Article III shall specify the form and time of distribution of benefits as described in Article VI.

3.02 **Elective Deferral Election**

Upon becoming eligible to participate in the Plan, a newly eligible Director may make an election described in Section 3.01 by filing an election form with the Administrative Committee within 30 days (or earlier, as the form may provide) following the date the Director becomes eligible to participate in the Plan (i.e., the later of the date of the eligible Director's election to the Board or October 31, 2006). Such election form shall be irrevocable on the 31st day following the date the Director becomes eligible to participate in the Plan unless the Company provides an earlier date. For each Plan Year following the year in which a Participant becomes eligible to participate in the Plan, a Participant may make an election described in Section 3.01 by filing an election form with the Administrative Committee within a reasonable period of time, as specified by the Committee, before the beginning of the Plan Year to which the Deferral election applies. Except as provided in this Plan, a Deferral election shall be irrevocable on the December 31 preceding the Plan Year to which the Deferral election applies, or at such earlier time as the Committee prescribes. A Deferral election may not be changed or revoked during the Plan Year that it is effective; provided, that upon a showing of an unforeseeable emergency and with the consent of the Administrative Committee, a Participant may at any time revoke his or her Deferral election with respect to Compensation he or she has not yet earned and shares subject to a Restricted Stock Unit award in which he or she has not yet become vested during the Plan Year. A Participant who revokes his or her Deferral election may not again make an election to defer the receipt of Compensation or shares subject to a Restricted Stock Unit award (including

dividend equivalents credited to such shares) effective before the beginning of the next Plan Year. Notwithstanding anything in this Plan to the contrary, a Participant may make an election in 2008 to defer shares subject to a Restricted Stock Unit award granted in 2008 (including dividend equivalents credited to such shares); provided that such election be made no later than the date immediately prior to the date of grant of such award. Unless otherwise provided, an election must be made each year in order to participate in this Plan.

3.03 Deferral of Distribution of Restricted Stock Unit Awards Granted in 2007

Notwithstanding anything in this Plan to the contrary, for the purposes of Restricted Stock Unit awards granted in 2007, a Participant may defer the time of distribution of any unvested portion of such Restricted Stock Unit awards (including dividend equivalents credited to such shares); provided that (1) such deferral shall not become effective for 12 months and (2) the date of payment is at least five years subsequent to the originally scheduled payment date, and (3) the form is accepted by the Committee, in its sole and absolute discretion. The election may be modified or revoked until 12 months prior to the originally scheduled vesting date, or such earlier time that the Committee determines in its discretion, at which time such change shall become irrevocable. The last valid form accepted by the Committee shall govern the payout of a Participant's deferred shares subject to Restricted Stock Unit awards granted in 2007 (including dividend equivalents credited to such shares), as applicable.

Article IV.
ACCOUNTS, FUNDING AND VALUATION

4.01 Establishment of Account

The Administrative Committee shall open and maintain a separate Account for each Participant. Such Account shall be credited with all Deferrals for the Participant. In addition, the Account of each eligible Director who has elected to convert his or her Director Retirement Plan benefits to an Account credit under this Plan shall be credited on November 1, 2006, with the amount approved by the Governance Committee pursuant to its resolution adopted on September 5, 2006. As soon as reasonably possible after each Valuation Date, each Participant shall be notified of the value of his or her Account.

4.02 Valuation of Account

- (a) Interest shall be credited to each Participant's Account as of each Valuation Date equal to the product of
- (1) the amount credited to the Participant's Account as of the last preceding Valuation Date, less any distributions or withdrawals and plus one-half of Deferrals, if any, since the last preceding Valuation Date, multiplied by
 - (2) the applicable interest rate; provided, however, that for the December 31, 2006 Valuation Date, interest shall be based on the Account balance on November 1, 2006, if any.
- (b) On each Valuation Date, each Participant's Account will be credited with interest. The amount of interest will be derived from the prime interest rate published in The Wall Street Journal on the last business day coinciding with or next preceding the Valuation Date. Any prime rate up to 6% will be considered in full, and one-half of any prime rate over 6% will be considered; provided, however, after October 1, 2007, the interest rate will not exceed 120% of the long-term applicable federal rate (compounded quarterly), as published by the Internal Revenue Service for the applicable Plan Year. The amount credited will be a proration of the interest rate applied taking into consideration the period of time elapsed since the last Valuation Date (or since November 1, 2006, in the case of the December 31, 2006 Valuation Date).

For example, if the Plan is valued quarterly and on March 31, the prime rate is 7%, the rate credited will be $(1/4 \times 6\%) + (1/4 \times 1/2 \times 1\%)$ or 1.625%.

Article V.
PARTICIPANTS' VESTED INTERESTS

5.01 Vesting

Each Participant shall always be 100% vested in his or her Account; provided, however, that any amount credited to a Participant's Account on November 1, 2006 pursuant to the election described in Section 3.01 shall be forfeited if the Participant voluntarily resigns his or her position as a Director before November 1, 2007 for any reason other than disability, as determined pursuant to section 409A(a)(2)(C) of the Code, or in connection with a Change in Control. A "Change in Control" shall be deemed to have occurred upon a change in the ownership or effective control of the Company or a change in the ownership of a substantial portion of the assets of the Company as defined in the regulations promulgated under section 409A of the Code. Notwithstanding anything to the contrary in this Article V, the vesting of shares subject to a Restricted Stock Unit award granted to a Participant shall always be subject to the vesting schedule as set forth in the Restricted Stock Unit award's applicable plan or agreement.

Article VI.
DISTRIBUTION OF BENEFITS

6.01 Distribution of Benefits

Except as otherwise provided in Article VI of the Plan, a Participant's Account may not be distributed to a Participant or his or her Beneficiary before the dates chosen pursuant to the election made by the Participant.

(a) Form of Distribution. A Participant will elect, in writing, on a form prescribed by the Administrative Committee, which of the distribution options described below will govern the payment of the Participant's Account upon a Separation from Service. The Participant's Account will be distributed to him (subject to the timing requirements outlined in paragraphs (b) and (c) below) on either of the following schedules:

- (1) A single lump sum,
- (2) Four annual installments, or
- (3) Substantially equal annual installments over a 10-year period.

If the Participant made no election at the time specified in Section 3.02, his or her benefit shall be paid as a single lump sum upon a Separation from Service. For purposes of this Plan, installment payments shall be treated as a single distribution under section 409A of the Code.

(b) Time of Distribution

(1) Separation from Service. If a Participant Separates from Service, his or her Account shall be distributed in the form elected by the Participant pursuant to paragraph (a) above. Subject to the timing requirements of paragraph (c), the vested portion of a Participant's Account shall be distributed, or distribution shall commence, within 90 days following his or her Separation from Service as a Director. The amount in the Participant's Account shall be determined as of the Valuation Date that last precedes the date of distribution, plus Deferrals and less any withdrawals or distributions, if any, for the period from the last preceding Valuation Date to the date of distribution.

Notwithstanding anything in this Article VI to the contrary, if a Participant elects to defer the receipt of shares subject to Restricted Stock Unit awards granted in 2007, then such shares (including dividend equivalents credited to such shares) shall be distributed in the year in which the Participant elects; provided that such distribution shall not occur at any time prior to the five-year anniversary of the originally scheduled payment date of such shares; provided further that if the Participant experiences a Separation

from Service as a Director at any time prior to such elected distribution date, the vested portion of any shares subject to such Restricted Stock Unit awards granted in 2007 (and associated dividend equivalents) shall be distributed in a lump sum within 90 days following his or her Separation from Service as a Director.

- (2) Scheduled Withdrawal Date. A Participant may elect to have all or a portion of his or her Account distributed to him or her on up to three Scheduled Withdrawal Dates, while such Participant is a Director.

Subject to the timing requirements outlined in paragraphs (c) below, a Participant shall receive his or her distribution under this subparagraph (2) as soon as administratively feasible after the Scheduled Withdrawal Date. If a Participant elects a Scheduled Withdrawal Date, his or her Account valued as of the last Valuation Date preceding the elected Scheduled Withdrawal Date shall be distributed as elected in this subparagraph (2). Any subsequent Deferrals, including interest or earnings credited thereon, shall be distributed pursuant to subparagraph (1) above.

Notwithstanding an election pursuant to this subparagraph (2), if a Participant Separates from Service prior to the Scheduled Withdrawal Date, the Participant's Account shall be distributed pursuant to his or her election under subparagraph (1) above.

Notwithstanding the foregoing, upon a distribution of a Participant's Account in subparagraphs (1) and (2) above, the Company shall credit to a Participant's Account interest on the amount that is the difference of the value of the Participant's Account as of the last Valuation Date preceding the scheduled distribution date. Interest shall be calculated using the principles set forth in Section 4.02.

- (c) Changes to Distribution Elections

A Participant may change his or her form of distribution of his or her Account upon a Separation from Service or Scheduled Withdrawal Date by submitting a form, as the Committee prescribes; provided that (1) any such change is not effective for 12 months and (2) the date of payment is at least five years subsequent to the originally scheduled date of payment, and (3) the form is accepted by the Committee, in its sole and absolute discretion. The change may be modified or revoked until 12 months prior to the time a Participant is originally scheduled to receive a payment, at which time such change shall become irrevocable. The last valid form accepted by the Committee shall govern the payout of a Participant's Account, as applicable.

Distributions made pursuant to this paragraph (c) will be made as soon as administratively practicable, but no later than 90 days, after the newly scheduled date of distribution.

6.02 Unforeseeable Emergency Withdrawals

- (a) A Participant may withdraw up to 100% of the amount in his or her Account in the event of an unforeseeable emergency to the extent provided in this Section 6.02.
- (b) For purposes of this Section 6.02, unforeseeable emergency means a severe financial hardship to the Participant resulting from a sudden and unexpected illness or accident of the Participant or a dependent (as defined in section 152(a) of the Code) of the Participant, loss of the Participant's property due to casualty, or other similar extraordinary and unforeseeable circumstances arising as a result of events beyond the Participant's control.
- (c) The withdrawal under this Section 6.02 may not exceed the amount reasonably necessary to satisfy the financial need (including the amount of any federal, state or local income taxes or penalties reasonably anticipated to result from the withdrawal). The withdrawal may not be made to the extent the need may be satisfied (1) through reimbursement or compensation by insurance or otherwise, (2) by liquidation of the Participant's assets, to the extent the liquidation of the assets would not itself cause severe financial hardship, or (3) by ceasing Deferrals under the Plan.
- (d) A Participant who wishes to withdraw any amount pursuant to this Section 6.02 must submit, on a form provided by the Administrative Committee, a written request by the Participant that states:
 - (1) The unforeseeable emergency for which the withdrawal is requested;
 - (2) The amount needed to satisfy the financial need, which amount may include any federal, state, or local income taxes or penalties reasonably anticipated to result from the withdrawal;
 - (3) A representation that the need cannot be satisfied in any of the ways stated in the second sentence of paragraph (c);
 - (4) The date the funds are required; and
 - (5) Any other information the Administrative Committee deems necessary.
- (e) The Administrative Committee will determine if an unforeseeable emergency withdrawal will be allowed by applying the standards set forth in paragraphs (b) and (c).
- (f) A withdrawal from a Participant's Account under Section 6.02 shall be paid in a lump sum.

6.03 Prohibition on Acceleration

Notwithstanding any other provision of the Plan to the contrary, no distribution will be made from the Plan that would constitute an impermissible acceleration of payment as defined in section 409A(a)(3) of the Code and the regulations promulgated thereunder.

6.04 Distributions to Key Service Providers

Notwithstanding any other provision of the Plan to the contrary, distributions to a Key Service Provider may not be made before the date that is six months after the date of his or her Separation from Service.

Article VII.

DEATH

7.01 **Death**

If a Participant dies before distribution of his or her Account has begun or been completed, the remaining portion of the Participant's Account shall be payable in a single lump sum to the Participant's Beneficiary no later than 90 days after the date of the Participant's death. The value of the Participant's Account shall be determined in accordance with the rules set forth in Section 4.02.

Article VIII.

8.01 Duties and Responsibility

The Administrative Committee may engage agents to assist in carrying out the Administrative Committee's functions hereunder. Whenever it is determined by the Administrative Committee to be in the best interest of the Plan and its Participants and Beneficiaries, the Administrative Committee may request such variances, deferrals, extensions, or exemptions or make such elections for the Plan as may be available under the law.

8.02 Expenses and Compensation

The expenses necessary to administer the Plan and the expenses incurred by the Administrative Committee shall be paid by the Company.

8.03 Information from Company.

The Company shall supply full and timely information to the Administrative Committee on all matters relating to the Compensation of all Participants, their continuous regular service to the Company, their retirement, death, disability or Separation from Service, and such other pertinent facts as the Administrative Committee may require.

8.04 Administrative Committee; Signature

Upon a Separation from Service, a Participant is entitled to a written explanation of and accounting for his or her Account and of any applicable options regarding the disposition of such Account.

9.02 **Filing a Claim for Benefits**

A Participant or Beneficiary or the Company acting on his or her behalf shall notify the Administrative Committee of a claim for benefits under the Plan. Such request may be in any form acceptable to the Administrative Committee and shall set forth the basis of such claim and shall authorize the Administrative Committee to conduct such examinations as may be necessary to determine the validity of the claim and to take such steps as may be necessary to facilitate the payment of any benefits to which the Participant or Beneficiary may be entitled under the terms of the Plan. The Administrative Committee shall review the claim and may require additional information if necessary to process the claim. The Administrative Committee shall issue its decision, in writing, no later than 90 days after the date the claim is received, unless circumstances require an extension of time. If such an extension is required, written notice of the extension shall be furnished to the Person making the claim within the initial 90-day period, and the notice shall state the circumstances requiring the extension and the date by which the Administrative Committee expects to reach a decision on the claim. In no event shall the extension exceed a period of 90 days from the end of the initial period.

9.03 **Denial of a Claim**

Whenever a claim for benefits by any Participant or Beneficiary has been denied, in whole or in part, a written notice of the denial will be provided to the Participant or Beneficiary within the period specified in Section 9.02. The notice shall set forth, in a manner calculated to be understood by the claimant, (i) the specific reason or reasons for the denial; (ii) reference to the specific Plan provisions upon which the denial is based; (iii) a description of any additional material or information necessary for the claimant to perfect the claim and an explanation of why such information is necessary; and (iv) an explanation of the Plan's appeal procedures and the time limits applicable to such procedures, including a statement of the claimant's right to bring a civil action under section 502(a) of ERISA following an adverse benefit determination on review.

Participation hereunder shall not grant any Participant the right to be retained as a member of the Board of Directors of the Company or any rights or interest other than those specifically herein set forth.

Article X.
AMENDMENT AND TERMINATION

10.01 **Amendment**

The Board may at any time and from time to time amend this Plan in whole or in part (including retroactively). The Board shall promptly deliver to the Administrative Committee a written copy of the document amending the Plan. The Board shall not have the right to amend the Plan retroactively in such a manner as to deprive any Participant or Beneficiary of any benefit to which he or she was entitled under the Plan by reason of Deferrals credited prior to the amendment.

The Committee may amend the Plan to bring the Plan into compliance with applicable law (including changes required in order to avoid penalty taxes applied to Participants under section 409A of the Code) or to make such other changes as the Committee deems desirable; provided that such changes do not materially increase the cost of the Plan to the Company or take the Plan out of compliance with applicable law, and provided further that the Committee may not amend this Article X.

10.02 **Termination of the Plan**

The Board may terminate the Plan at any time and in the Board's discretion the Accounts of Participants may be distributed within the period beginning 12 months after the date the Plan was terminated and ending 24 months after the date the Plan was terminated. If the Plan is terminated and Accounts are distributed, the Company shall terminate all account balance non-qualified deferred compensation plans with respect to all Participants and shall not adopt a new account balance non-qualified deferred compensation plan for at least three years after the date the Plan was terminated.

10.03 **Termination upon a Change in Control**

The Board, in its discretion may terminate the Plan 30 days prior to, or 12 months following, a Change in Control and distribute the Accounts of the Participants within the 12-month period following the termination of the Plan. 10.04 **Termination upon Dissolution or Bankruptcy**

The Board, in its discretion, may terminate the Plan upon a corporate dissolution of the Company that is taxed under section 331 of the Code or with the approval of a bankruptcy court pursuant to 11 U.S.C. section 503(b)(1)(A), provided that the Participants' Accounts are distributed and included in the gross income of the Participants by the latest of (i) the calendar year in which the Plan terminates or (ii) the first calendar year in which payment of the Accounts is administratively practicable.

Article XI.
MISCELLANEOUS

11.01 **Execution of Receipts and Releases**

Any payment to any Participant or Beneficiary, in accordance with the provisions of this Plan, shall, to the extent thereof, be in full satisfaction of all claims hereunder against the Plan, and the Administrative Committee may require such Participant or Beneficiary, as a condition precedent to such payment, to execute a receipt and release therefor in such form as the Administrative Committee shall determine.

11.02 **Notice and Unclaimed Benefits**

Each Participant and Beneficiary must file with the Company from time to time in writing his or her post office address and each change of post office address. Such investment election may be changed from time to time by the Participant with respect to both past and future deferrals by following the procedures prescribed by the Committee.

(b) Time of Distribution

- (1) Separation from Service. If a Participant Separates from Service, his or her Account shall be distributed in the form elected by the Participant pursuant to paragraph (a) above. Subject to the timing requirements of paragraphs (c), a Participant's Account shall be distributed on the seventh

The amount in the Participant's Account shall be determined as of the Valuation Date that last precedes the date of distribution, plus Deferrals and less any withdrawals or distributions, if any, for the period from the last preceding Valuation Date to the date of distribution.

Notwithstanding anything in this Article VI to the contrary, if a Participant elects to defer the receipt of Performance Shares or Restricted Stock Units granted prior to March 13, 2008, then such shares (including dividend equivalents credited to such shares) shall be distributed in the year in which the Participant elects; provided that such distribution shall not occur at any time prior to the five-year anniversary of the originally scheduled payment date of such shares; provided further that if the Participant experiences a Separation from Service at any time prior to such elected distribution date, the vested portion of any shares subject to such Performance Share award or Restricted Stock Unit award granted prior to March 13, 2008, shall be distributed on the seventh month following his or her Separation from Service.

- (2) Disability. Effective January 1, 2007, if a Participant becomes Disabled, his or her Account shall be distributed or begin to be distributed, in the manner elected by the Participant pursuant to paragraph (a) above, as soon as administratively feasible, but no later than 90 days, after the Participant becomes Disabled. The amount in the Participant's Account shall be determined as of the Valuation Date that last precedes the date of distribution, plus Deferrals and less any withdrawals or distributions, if any, for the period from the last preceding Valuation Date to the date of distribution.
- (3) Scheduled Withdrawal Date. A Participant may elect to have all or a portion of his or her Account distributed to him or her on up to three Scheduled Withdrawal Dates, while such Participant is an employee.

Nothing herein is intended to prevent Executive from complying in good faith with any subpoena or other affirmative legal obligation. Executive agrees to notify the Company immediately in the event there is a request for information or inquiry pertaining to the Company, any Company-affiliated entity, or Executive's knowledge of or employment with the Company. In performing responsibilities under this Section, Executive shall be compensated for Executive's time at an hourly rate of \$250 per hour. However, during any period in which Executive is an employee of ABM or during the severance period, Executive shall not be so compensated.

- 5.8 **REMEDIES AND DAMAGES.** The parties agree that compliance with Sections 5.1 — 5.7 of the Agreement is necessary to protect the business and goodwill of Company, that the restrictions contained herein are reasonable and that any breach of this Section will result in irreparable and continuing harm to Company, for which monetary damages will not provide adequate relief. Accordingly, in the event of any actual or threatened breach of any covenant or promise made by Executive in Section 5, Company and Executive agree that Company shall be entitled to all appropriate remedies, including temporary restraining orders and injunctions enjoining or restraining such actual or threatened breach. Executive hereby consents to the issuance thereof forthwith by any court of competent jurisdiction.

- 6.2 **NOTICE OF NON-RENEWAL.** In the event that notice of non-renewal is given 60 days prior to the expiration of the then Initial or Extended Term, as applicable, of this Agreement, employment shall continue on an "at will" basis following the expiration of such Initial or Extended Term. In such event, Company shall have the right to terminate Executive's employment, position or compensation. Executive shall remain eligible for Severance Benefits pursuant to ABM's Severance Policy.

Executive shall not be eligible for a prorated Bonus, or any Severance Benefits, as defined below, in the event his/her employment is terminated for Cause.
- 7.2 **VOLUNTARY TERMINATION BY EXECUTIVE.** At any time, Executive may terminate employment hereunder by giving Company 60 days prior written notice. Executive may terminate employment upon such shorter period of notice as may be reasonable under the circumstances. For a voluntary termination for reasons other than the Executive's Disability, Executive will not receive any prorated Bonus. Executive shall not be eligible for any Severance Benefits, as defined below, in the event of his/her resignation. Company reserves the right to relieve Executive of his/her duties at the Company's discretion following notice of Executive's intent to resign.
- 7.3 **DISABILITY OR DEATH.** Employment hereunder shall automatically terminate upon the death of Executive and may be terminated at the Company's discretion as a result of Executive's Disability. "Disability" means Executive's substantial

inability to perform Executive's essential duties and responsibilities under this Agreement for either 90 consecutive days or a total of 120 days out of 365 consecutive days as a result of a physical or mental illness, injury or impairment, all as determined in good faith by the Company. Upon termination due to death or Disability, Company shall pay when due to Executive, or, upon death, Executive's designated beneficiary or estate, as applicable, any and all previously earned, but as yet unpaid, salary, and reimbursement of business expenses which would have otherwise been payable to Executive under this Agreement, through the end of the month in which Disability or death occurs. In the event of termination due to death or Disability, Company shall pay to Executive, or, in the event of death, to Executive's designated beneficiary or estate, as applicable, a prorated Bonus based on the length of performance in the applicable performance period prior to Disability or death. Any prorated Bonus payable under this paragraph shall be paid at the end of the applicable performance period when such payments are made to other participants and in accordance with the terms of the applicable plan or program. . Executive shall not be eligible for Severance Benefits, as defined below, in the event of separation from employment due to Executive's death or Disability.

- 7.4 **TERMINATION WITHOUT CAUSE.** Company may terminate Executive's employment hereunder without Cause at any time during the then-current Initial or Extended Term of this Agreement, as applicable, by giving Executive 90 days written notice. Upon such termination without Cause, Executive's right to a prorated Bonus or severance benefits, if any, shall be governed by the terms of the ABM Severance Policy or any policy or plan of the Company as in effect from time to time that provides for payment of severance amounts or bonuses upon such a termination of employment ("Severance Benefits"). Executive must execute, without exercising any right of revocation, a full release of all claims within 21 days following termination of employment in order to be eligible for Severance Benefits.
- 7.5 **CONDITIONS TO PAYMENT AND ACCELERATION; CODE SECTION 409A.** Notwithstanding anything contained herein to the contrary, Executive shall not be considered to have terminated employment with the Company for purposes of this Agreement and no payments shall be due to Executive under this Agreement or any policy or plan of the Company as in effect from time to time, providing for payment of amounts on termination of employment unless Executive would be considered to have incurred a "separation from service" from the Company within the meaning of Section 409A. To the extent required in order to avoid accelerated taxation and/or tax penalties under Section 409A, amounts that would otherwise be payable and benefits that would otherwise be provided pursuant to this Agreement during the six-month period immediately following Executive's termination of employment shall instead be paid on the first business day after the date that is six months following Executive's termination of employment (or upon Executive's death, if earlier).

- 7.6 **EXCESS PARACHUTE PAYMENTS.** Subject to a Severance Agreement between Executive and the Company approved by the Board of Directors or the Compensation Committee of ABM Industries Incorporated, if any amount or benefit to be paid or provided under the ABM Severance Policy, an equity award, and/or any other agreement between Executive and the Company would be an Excess Parachute Payment but for the application of this sentence, then the payments and benefits to be paid or provided under the Severance Program, equity award, and/or any other agreement will be reduced to the minimum extent necessary (but in no event to less than zero) so that no portion of any such payment or benefit, as so reduced, constitutes an Excess Parachute Payment; provided, however, that the foregoing reduction will not be made if such reduction would result in Executive receiving an amount determined on an after-tax basis, taking into account the excise tax imposed pursuant to Section 4999 of the Code, or any successor provision thereto, any tax imposed by any comparable provision of state law and any applicable federal, state and local income and employment taxes (the "After-Tax Amount") less than 90% of the After-Tax Amount of the severance payments Executive would have received under the Company's Severance Policy or under any other agreement without regard to this clause. Whether requested by the Executive or the Company, the determination of whether any reduction in such payments or benefits to be provided under this Agreement or otherwise is required pursuant to the preceding sentence, and the value to be assigned to the Executive's covenants in Section 5 hereof for purposes of determining the amount, if any, of the "excess parachute payment" under Section 280G of the Code will be made at the expense of the Company by the Company's independent accountants or benefits consultant. The fact that Executive's right to payments or benefits may be reduced by reason of the limitations contained in this paragraph will not of itself limit or otherwise affect any other rights of Executive under any other agreement. In the event that any payment or benefit intended to be provided is required to be reduced pursuant to this paragraph, Executive will be entitled to designate the payments and/or benefits to be so reduced in order to give effect to this paragraph, provided, however, that payments that do not constitute deferred compensation within the meaning of Section 409A will be reduced first. The Company will provide Executive with all information reasonably requested by Executive to permit Executive to make such designation. In the event that Executive fails to make such designation within 10 business days after receiving notice from the Company of a reduction under this paragraph, the Company may effect such reduction in any manner it deems appropriate. The term "Excess Parachute Payment" as used in this paragraph means a payment that creates an obligation for Executive to pay excise taxes under Section 280G of the Internal Revenue Code of 1986, as amended, or any successor statute.
- 7.7 **ACTIONS UPON TERMINATION.** Upon termination of employment hereunder, Executive shall immediately resign as an officer and/or director of Company and of any Company subsidiaries or affiliates, including any LLCs or joint ventures, as applicable. At Company's request, Executive also agrees to resign from the

board of any Taft-Hartley trust fund joined during Executive's employment with Company. Executive shall promptly return and release all Company property and Confidential Information, in all forms, in Executive's possession to Company. Company shall pay Executive when due any and all previously earned, but as yet unpaid, salary and reimbursement of business expenses submitted in accordance with Company policy as in effect.

7.8 **WITHHOLDING AUTHORIZATION.** To the fullest extent permitted under the laws of the State of Employment hereunder, Executive authorizes Company to withhold from any Severance Benefits otherwise due to Executive and from any other funds held for Executive's benefit by Company, any damages or losses sustained by Company as a result of any material breach or other material violation of this Agreement by Executive, pending resolution of any underlying dispute.

 - 5.1 **CONFIDENTIAL INFORMATION DEFINED.** Confidential Information includes but is not limited to (i) Company and its subsidiary companies’ trade secrets, know-how, ideas, applications, systems, processes and other confidential information which is not generally known to and/or readily ascertainable through proper means by the general public; (ii) plans for business development, marketing, business plans and strategies, budgets and financial statements of any kind, costs and suppliers, including methods, policies, procedures, practices,

devices and other means used by Company and its subsidiaries in the operation of its business, pricing plans and strategies, as well as information about Company and affiliated entity pricing structures and fees, unpublished financial information, contract provisions, training materials, profit margins and bid information; (iii) information regarding the skills, abilities, performance and compensation of other employees of the Company or its subsidiaries, or of the employees of any company that contracts to provide services to the Company or its subsidiaries; (iv) information of third parties to which Executive had access by virtue of Executive's employment, including, but not limited to information on customers, prospective customers, and/or vendors, including current or prospective customers' names, contact information, organizational structure(s), and their representatives responsible for considering the entry or entering into agreements for those services, and/or products provided by Company and its subsidiaries; customer leads or referrals; customer preferences, needs, and requirements (including customer likes and dislikes, as well as supply and staffing requirements) and the manner in which they have been met by Company or its subsidiaries; customer billing procedures, credit limits and payment practices,; and customer information with respect to contract and relationship terms and conditions, pricing, costs, profits, sales, markets, plans for future business and other development; purchasing techniques; supplier lists; (v) information contained in Company's LCMS database, JDE , LMS or similar systems; (vi) any and all information related to past, current or future acquisitions between Company or Company-affiliated entities including information used or relied upon for said acquisition ("Confidential Information.")

- 5.2 NON-DISCLOSURE. Company and Executive acknowledge and agree that Company has invested significant effort, time and expense to develop its Confidential Information. Except in the proper performance of this Agreement, Executive agrees to hold all Confidential Information in the strictest confidence, and to refrain from making any unauthorized use or disclosure of such information both during Executive's employment and at all times thereafter. Except in the proper performance of this Agreement, Executive shall not directly or indirectly disclose, reveal, transfer or deliver to any other person or business, any Confidential Information which was obtained directly or indirectly by Executive from, or for, Company or its subsidiaries or by virtue of Executive's employment. This Confidential Information has unique value to the Company and its subsidiaries, is not generally known or readily available by proper means to their competitors or the general public, and could only be developed by others after investing significant effort, time, and expense. Executive understands that Company or its subsidiaries would not make such Confidential Information available to Executive unless Company was assured that all such Confidential Information will be held in trust and confidence in accordance with this Agreement and applicable law. Executive hereby acknowledges and agrees to use this Confidential Information solely for the benefit of Company and its affiliated entities.

- 5.3 NON-SOLICITATION OF EMPLOYEES. Executive acknowledges and agrees that Company has developed its work force as the result of its investment of substantial time, effort, and expense. During the course and solely as a result of Executive's employment with Company, Executive will come into contact with employees of Company and affiliated-entities, develop relationships with and acquire information regarding their knowledge, skills, abilities, salaries, commissions, benefits, and other matters that are not generally known to the public. Executive further acknowledges and agrees that hiring, recruiting, soliciting, or inducing the termination of such employees will cause increased expenses and a loss of business. Accordingly, Executive agrees that while employed by Company and for a period of one year following the termination of Executive's employment (whether termination is voluntary or involuntary), Executive will not directly or indirectly solicit, hire, recruit or otherwise encourage, assist in or arrange for any employee to terminate employment with Company or any other Company-affiliated entity except in the proper performance of this Agreement. This prohibition against solicitation shall include but not be limited to: (i) identifying to other employers or their agents, recruiting or staffing firms, or other third parties the Company employee(s) who have specialized knowledge concerning Company's business, operations, processes, methods, or other confidential affairs or who have contacts, experience, or relationships with particular customers; (ii) disclosing or commenting to other employers or their agents, recruiting or staffing firms, or other third parties regarding the quality or quantity of work, specialized knowledge, or personal characteristics of any person still employed by Company or any other Company-affiliated entity; and (iii) providing such information to prospective employers or their agents, recruiting or staffing firms, or other third parties preceding possible employment.
- 5.4 NON-SOLICITATION OF CUSTOMERS. Executive acknowledges and agrees that Company and its subsidiaries have identified, solicited, and developed their customers and developed customer relationships as the result of their investment of significant time, effort, and expense and that Company has a legitimate business interest in protecting these relationships. Executive further acknowledges that he or she would not have been privy to these relationships were it not for Executive's employment by Company. Executive further acknowledges and agrees that the loss of such customers and clients would damage Company and potentially cause Company great and irreparable harm. Consequently, Executive covenants and agrees that during and for one year following the termination of Executive's employment with Company (whether such termination is voluntary or involuntary), Executive shall not, directly or indirectly, for the benefit of any person or entity other than the Company, attempt to seek, seek, attempt to solicit, solicit, or accept work from any customer, client or active customer prospect with whom Executive developed a relationship while employed by Company or otherwise obtained Confidential Information about for the purpose of diverting business from Company or an affiliated entity. In addition, Executive agrees that at all times after the voluntary or involuntary

termination of Executive's employment, Executive shall not attempt to seek, seek, attempt to solicit, solicit, or accept work from of any customer or active customer prospect of Company or any other Company-affiliated entity through the direct or indirect use of any Confidential Information or by any other unfair or unlawful business practice.

- 5.5 **POST EMPLOYMENT COMPETITION.** Executive agrees that while employed by Company and for a period of twelve months following Executive's termination of employment (whether such termination is voluntary or involuntary), Executive shall not work, perform services for, or engage in any business, enterprise, or operation that calls for, requires, or contemplates Executive providing any work, services, or effort that (i) requires Executive to provide any work, service, or effort that could or would require the application, disclosure, reliance, or use of the Confidential Information or other legitimate business interest, including relationships, of Company for any third-party, or (ii) is substantially similar to those services or work Executive performed on the Company's behalf which compete directly or indirectly with the Company or any Company-affiliated entity of which Executive had information or knowledge by providing goods, products, or services that are the same or substantially similar to those provided by Company in the twelve month period preceding the effective date of Executive's termination of employment. The Executive acknowledges that the Company and its subsidiaries are engaged in business in various states throughout the U.S. Accordingly, and in view of the nature of Executive's nationwide position and responsibilities, Executive agrees that the provisions of this Section's restrictions shall be applicable to Executive in each state and each foreign country in which the Executive performed work, services, or engaged in business activity on behalf of the Company or Executive was provided confidential or proprietary information regarding the Company's business activities in those areas within the twelve-month period preceding the effective date of Executive's termination of employment. This Section 5.5 shall not apply if the State of Employment is California.
- 5.6 **NON-DISPARAGEMENT.** During Executive's employment with Company and thereafter, Executive agrees not to make any statement or take any action which disparages, defames, or places in a negative light Company, Company-affiliated entities, or its or their reputation, goodwill, commercial interests or past and present officers, directors and employees.
- 5.7 **COOPERATION WITH LEGAL MATTERS.** During Executive's employment with Company and thereafter, Executive shall cooperate with Company and any Company-affiliated entity in its or their investigation, defense or prosecution of any potential, current or future legal matter in any forum, including but not limited to lawsuits, administrative charges, audits, arbitrations, and internal and external investigations. Executive's cooperation shall include, but is not limited

to, reviewing and preparing documents and reports, meeting with attorneys representing any Company-affiliated entity, providing truthful testimony, and communicating Executive's knowledge of relevant facts to any attorneys, experts, consultants, investigators, employees or other representatives working on behalf of an Company-affiliated entity. Except as required by law, Executive agrees to treat all information regarding any such actual or potential investigation or claim as confidential. Executive also agrees not to discuss or assist in any litigation, potential litigation, claim, or potential claim with any individual (or their attorney or investigator) who is pursuing, or considering pursuing, any claims against the Company or a Company-affiliated entity unless required by law. In performing the tasks outlined in this Section 5.7, Executive shall be bound by the covenants of good faith and veracity set forth in ABM's Code of Business Conduct and Ethics and by all legal obligations. Nothing herein is intended to prevent Executive from complying in good faith with any subpoena or other affirmative legal obligation. Executive agrees to notify the Company immediately in the event there is a request for information or inquiry pertaining to the Company, any Company-affiliated entity, or Executive's knowledge of or employment with the Company. In performing responsibilities under this Section, Executive shall be compensated for Executive's time at an hourly rate of \$250 per hour. However, during any period in which Executive is an employee of ABM or during the severance period, Executive shall not be so compensated.

- 5.8 REMEDIES AND DAMAGES. The parties agree that compliance with Sections 5.1 — 5.7 of the Agreement is necessary to protect the business and goodwill of Company, that the restrictions contained herein are reasonable and that any breach of this Section will result in irreparable and continuing harm to Company, for which monetary damages will not provide adequate relief. Accordingly, in the event of any actual or threatened breach of any covenant or promise made by Executive in Section 5, Company and Executive agree that Company shall be entitled to all appropriate remedies, including temporary restraining orders and injunctions enjoining or restraining such actual or threatened breach. Executive hereby consents to the issuance thereof forthwith by any court of competent jurisdiction.
- 5.9 LIMITATIONS. Nothing in this Agreement shall be binding upon the parties to the extent it is void or unenforceable for any reason in the State of Employment, including, without limitation, as a result of any law regulating competition or proscribing unlawful business practices; provided, however, that to the extent that any provision in this Agreement could be modified to render it enforceable under applicable law, it shall be deemed so modified and enforced to the fullest extent allowed by law.

6. TERMINATION OF EMPLOYMENT.

- 6.1 **TERMINATION.** Company may terminate Executive's employment at any time, for any reason, with or without notice, and with or without Cause. "Cause" means the occurrence of one of the following: (i) Executive's serious misconduct, dishonesty, disloyalty, or insubordination; (ii) Executive's conviction (or entry of a plea bargain admitting criminal guilt) of any felony or a misdemeanor involving moral turpitude; (iii) drug or alcohol abuse that has a material or potentially material effect on the Company's reputation and/or on the performance of Executive's duties and responsibilities under this Agreement; (iv) Executive's failure to substantially perform Executive's duties and responsibilities under this Agreement for reasons other than death or Disability, as defined below; (v) Executive's repeated inattention to duty for reasons other than death or Disability; and (vi) any other material breach of this Agreement by Executive. In the event of a termination following the [for all employees employed by a Subsidiary company, insert good faith determination of Cause by the Board of Directors of the Subsidiary company ("Board") in this space; for employees of ABM, except for Section 16 officers, insert CEO's good faith determination of Cause] Executive shall not be eligible for a prorated Bonus, or any Severance Benefits, as defined below in Section 6.2.
- 6.2 **SEVERANCE BENEFITS.** In the event Executive is involuntarily terminated in the absence of a good faith determination of Cause by the Board for reasons other than Disability or death, Executive shall be offered severance pay and other benefits in accordance with the ABM Severance Policy in effect at the time of such termination ("Severance Benefits"). Executive shall be required to execute, without exercising any right of revocation, a full release of all claims within 21 days following termination of employment in order to be eligible for Severance Benefits.
- 6.3 **EXCESS PARACHUTE PAYMENTS.** Subject to a Severance Agreement between Executive and the Company approved by the Board of Directors or the Compensation Committee of ABM Industries Incorporated, if any amount or benefit to be paid or provided under the ABM Severance Policy, an equity award, and/or any other agreement between Executive and the Company would be an Excess Parachute Payment but for the application of this sentence, then the payments and benefits to be paid or provided under the Severance Program, equity award(s), and/or any other agreement will be reduced to the minimum extent necessary (but in no event to less than zero) so that no portion of any such payment or benefit, as so reduced, constitutes an Excess Parachute Payment; provided, however, that the foregoing reduction will not be made if such reduction would result in Executive receiving an amount determined on an after-tax basis, taking into account the excise tax imposed pursuant to Section 4999 of the Code, or any successor provision thereto, any tax imposed by any comparable

provision of state law and any applicable federal, state and local income and employment taxes (the "After-Tax Amount") less than 90% of the After-Tax Amount of the severance payments he or she would have received under the Company's Severance Policy or under any other agreement without regard to this clause. Whether requested by the Executive or the Company, the determination of whether any reduction in such payments or benefits to be provided under this Agreement or otherwise is required pursuant to the preceding sentence, and the value to be assigned to the Executive's covenants in Section 8 hereof for purposes of determining the amount, if any, of the "excess parachute payment" as defined in Section 280G of the Code, will be made at the expense of the Company by the Company's independent accountants or benefits consultant. The determination of whether any reduction in Severance Benefits, equity award(s) and/or any other agreement or otherwise is required pursuant to the preceding sentence will be made at the expense of the Company by independent accountants selected by Company or the Company's benefits consultant. The determination of whether any reduction in Severance Benefits, an equity award or any other agreement or otherwise is required pursuant to the preceding sentence will be made at the expense of the Company by independent accountants selected by Company or the Company's benefits consultant. The fact that Executive's right to payments or benefits may be reduced by reason of the limitations contained in this paragraph will not of itself limit or otherwise affect any other rights of Executive under any other agreement. In the event that any payment or benefit intended to be provided is required to be reduced pursuant to this paragraph, Executive will be entitled to designate the payments and/or benefits to be so reduced in order to give effect to this paragraph. The Company will provide Executive with all information reasonably requested by Executive to permit Executive to make such designation. In the event that Executive fails to make such designation within 10 business days after receiving notice from the Company of a reduction under this paragraph, the Company may effect such reduction in any manner it deems appropriate. The term "Excess Parachute Payment" as used in this paragraph means a payment that creates an obligation for Executive to pay excise taxes under Section 280G of the Internal Revenue Code of 1986, as amended, or any successor statute.

- 6.4 VOLUNTARY TERMINATION BY EXECUTIVE. At any time, Executive may terminate employment hereunder by giving Company 60 days prior written notice. Executive may terminate employment upon such shorter period of notice as may be reasonable under the circumstances. For a voluntary termination for reasons other than the Executive's Disability, Executive will not receive any prorated Bonus. Executive shall not be eligible for any Severance Benefits in the event of his/her resignation. Company reserves the right to relieve Executive of his/her duties at the Company's discretion following notice of Executive's intent to resign.
- 6.5 DISABILITY OR DEATH. Employment hereunder shall automatically terminate upon the death of Executive and may be terminated at the Company's discretion

as a result of Executive's Disability. "Disability" means Executive's substantial inability to perform Executive's essential duties and responsibilities under this Agreement for either 90 consecutive days or a total of 120 days out of 365 consecutive days as a result of a physical or mental illness, injury or impairment, all as determined in good faith by the Company. Upon termination due to death or Disability, Company shall pay when due to Executive, or, upon death, Executive's designated beneficiary or estate, as applicable, any and all previously earned, but as yet unpaid, salary and reimbursement of business expenses which would have otherwise been payable to Executive under this Agreement, through the end of the month in which Disability or death occurs. In the event of termination due to death or Disability, Company shall pay to Executive, or, in the event of death, to Executive's designated beneficiary or estate, as applicable, a prorated Bonus based on the length of performance in the applicable performance period prior to Disability or death. Any prorated Bonus payable under this paragraph shall be paid at the end of the applicable performance period when such payments are made to other participants and in accordance with the terms of the applicable plan or program. Executive shall not be eligible for any Severance Benefits in the event of a separation from employment due to Executive's death or Disability.

- 6.6 **ACTIONS UPON TERMINATION.** Upon termination of employment hereunder, Executive shall immediately resign as an officer and/or director of Company and of any Company subsidiaries or affiliates, including any LLCs or joint ventures, as applicable. At Company's request, Executive also agrees to resign from the board of any Taft-Hartley trust fund joined during his/her employment with Company. Executive shall promptly return and release all Company property and Confidential Information, in all forms, in Executive's possession to Company. Company shall pay Executive when due any and all previously earned, but as yet unpaid, salary and reimbursement of business expenses submitted in accordance with Company policy as in effect
- 6.7 **WITHHOLDING AUTHORIZATION.** To the fullest extent permitted under the laws of the State of Employment hereunder, Executive authorizes Company to withhold from any Severance Benefits otherwise due to Executive and from any other funds held for Executive's benefit by Company, any damages or losses sustained by Company as a result of any material breach or other material violation of this Agreement by Executive, pending resolution of any underlying dispute.

7. GENERAL PROVISIONS.

- 7.1 **GOVERNING LAW.** This Agreement shall be interpreted and enforced in accordance with the laws of the State of Employment, which, for purposes of this Agreement, shall mean the state where Executive is regularly and customarily employed and where Executive's primary office is located.

- 7.2 NO WAIVER. Failure by either party to enforce any term or condition of this Agreement at any time shall not preclude that party from enforcing that provision, or any other provision of this Agreement, at any later time.
- 7.3 SEVERABILITY. It is the desire and intent of the parties that the provisions of this Agreement be enforced to the fullest extent permissible under the law and public policies applied in each jurisdiction in which enforcement is sought. Accordingly, in the event that any provision of this Agreement would be held in any jurisdiction to be invalid, prohibited or unenforceable for any reason, such provision, as to such jurisdiction, shall be ineffective, without invalidating the remaining provisions of this Agreement or affecting the validity or enforceability of such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be invalid, prohibited or unenforceable in such jurisdiction, it shall, as to such jurisdiction, be either automatically deemed so narrowly drawn, or any court of competent jurisdiction is hereby expressly authorized to redraw it in that manner, without invalidating the remaining provisions of this Agreement or affecting the validity or enforceability of such provision in any other jurisdiction.
- 7.4 SURVIVAL. All terms and conditions of this Agreement which by reasonable implication are meant to survive the termination of this Agreement, including but not limited to the provisions of Sections 5.1 — 5.6 of this Agreement, shall remain in full force and effect after the termination of this Agreement.
- 7.5 REPRESENTATIONS BY EXECUTIVE. Executive represents and agrees that Executive has carefully read and fully understands all of the provisions of this Agreement, that Executive is voluntarily entering into this Agreement and has been given an opportunity to review all aspects of this Agreement with an attorney, if Executive chooses to do so. Executive understands and agrees that Executive's employment with the Company is at-will and that nothing in this Agreement is intended to create a contract of employment for any fixed or definite term. Executive understands he/she is also now eligible for Severance Benefits to which Executive was not previously entitled and acknowledges the value of such benefits.
