ABM Awarded Integrated Facility Solutions Contract by Harley-Davidson

ABM's Expansion in Critical Industrial and Manufacturing Space Continues With Innovative Contract

NEW YORK, Feb. 10, 2015 (GLOBE NEWSWIRE) -- [ABM](#) (NYSE:ABM), a leading provider of facility solutions, has been awarded a multi-phased, integrated facility solutions contract by Harley-Davidson Motor Company.

Under the terms of the multi-year contract, ABM's Facility Services business has taken on a consultative role in phase one of the agreement. ABM's team is working on-site at Harley-Davidson's Milwaukee-based corporate headquarters and at its Wauwatosa-based product development center - where the company's motorcycles are designed and tested - to immerse itself in Harley-Davidson's culture. The goal in phase one is to identify opportunities to reduce operating expenses while helping ensure Harley-Davidson's facility services are performed in a world-class fashion.

"We are excited to begin working with Harley-Davidson, a name that has stood the test of time," said ABM Facility Services President Mike Latham. "We realized early on in our discussions with Harley-Davidson that it was important to them to partner with a company who understands their culture implicitly. This is a measured approach and one we've successfully partnered on with other clients. This innovative, mutually beneficial agreement speaks to ABM's confidence in our ability to deliver real value for Harley-Davidson."

ABOUT ABM

ABM (NYSE:ABM) is a leading provider of facility solutions with revenues of \$5 billion and approximately 118,000 employees in over 300 offices deployed throughout the United States and various international locations. ABM's comprehensive capabilities include facilities engineering, commercial cleaning, energy solutions, HVAC, electrical, landscaping, parking and security, provided through stand-alone or integrated solutions. ABM provides custom facility solutions in urban, suburban and rural areas to properties of all sizes — from schools and hospitals to the largest and most complex facilities, such as manufacturing plants and major airports. ABM Industries Incorporated, which operates through its subsidiaries, was founded in 1909. For more information, visit www.abm.com.
