

ABM Industries Files Form 12b-25 with the Securities and Exchange Commission

San Francisco, CA – January 18, 2006 – ABM Industries Incorporated (NYSE: ABM) today filed a Form 12b-25 with the Securities and Exchange Commission (SEC) to report that it anticipates filing by February 1, 2006 its Annual Report on Form 10-K for the year ended October 31, 2005. The Annual Report was due January 17, 2006.

ABM has experienced unanticipated delays in completing the reconciliation of certain accounts affecting one of its operating units. These delays have in turn caused delays in completing the Company's financial statements for the fiscal year ended October 31, 2005 and management's assessment of internal control over financial reporting, the completion of which is a necessary prerequisite to the filing of its Annual Report on Form 10-K for such fiscal year. The accounts in question are associated with a subsidiary acquired in the Company's Security segment in 2004.

The Company issued a preliminary earnings release on December 14, 2005 for the fiscal year ended October 31, 2005. In connection with the reconciliation of the accounts in question, the Company has determined that the estimates of cash and cash equivalents contained in this preliminary release will likely be reduced by approximately \$6.8 million to approximately \$57.2 million at October 31, 2005. The operating profit of the Security segment included in the preliminary numbers (\$13.6 million in 2005) may require reduction. Any such reduction would reduce the net income from continuing operations and net income of the Company as a whole from the numbers cited for 2005 and above and in the preliminary earnings release, and may otherwise alter the amounts of other items included in the preliminary earnings release.
